March 2020

Daily Current Affairs for UPSC IAS Preparation

02.03.2020

1. **Capacity Building Programme for Scheduled Tribe PRI Representatives' and '1000 Springs Initiatives**

- Union Tribal Affairs Minister has recently launched the "Programme for Capacity Building of Scheduled Tribe Representatives in Local Self Governments and 1000 Spring Initiatives.

About the Capacity Building Programme for Scheduled Tribe PRI Representatives

- Capacity Building initiative is aimed at empowering tribal PRI representatives by enhancing their decision-making capabilities at local government level.
- It also focuses on constitutional and legal provisions that protect and promote the rights and welfare of the tribal population.
- The programme will be implemented in a cascading mode for better coverage and faster implementation.
- The programme will ensure greater participation of ST PRIs representatives in planning, execution and monitoring of government policies and programmes.

About 1000 Springs Initiative

- It aims at improving access to safe and adequate water for the tribal communities living in a difficult and inaccessible part of rural areas in the country.
- It is an integrated solution around natural springs.
- The initiative will help in harnessing the potential of perennial springs' water to address the natural scarcity of water in tribal areas.
- It includes a different provision like
 - provision of infrastructure for piped water supply for drinking
 - provision of water for irrigation
 - community-led total sanitation initiatives

- provision for water for backyard nutrition gardens
- generating sustainable livelihood opportunities for the tribal people.

About Spring Atlas

- Springs are natural sources of groundwater discharge and have been used extensively in the mountainous regions across the world, including India.
- An online portal on GIS-based Spring Atlas has been developed to make these data easily accessible from an online platform.
- Presently, data of more than 170 springs have been uploaded on the Spring Atlas.

2. **India is host to 457 migratory fauna, shows latest CMS list**
- With new additions to the wildlife list put out by the Convention on the Conservation of Migratory Species (CMS), scientists say that the total number of migratory fauna from India comes to 457 species.
 - Birds comprise 83% (380 species) of this figure.
 - The Zoological Survey of India (ZSI) had for the first time compiled the list of migratory species of India under the CMS before the Conference of Parties (COP 13) held in Gujarat recently.
 - It had put the number at 451 in which six species were added later.
 - They are the Asian elephant, great Indian bustard, Bengal florican, oceanic white-tip shark, urial and smooth hammerhead shark.

Migratory Mammals:

- The estimate of 44 migratory mammal species in India has risen to 46 after COP 13.
- The Asian elephant was added to Appendix I and the urial to Appendix II.

- The largest group of mammals is bats belonging to the family Vespertilionidae.
- Dolphins are the second-highest group of mammals with nine migratory species of dolphins listed.

Migratory Birds

- The bird family Muscicapidae has the highest number of migratory species.
- The next highest group of migratory birds is raptors or birds of prey, such as eagles, owls, vultures and kites which are from the family Accipitridae.
- The country has three flyways (flight paths used by birds): the Central Asian flyway, East Asian flyway and East Asian–Australasian Flyway.
- In India, their migratory species number 41, followed by ducks (38) belonging to the family Anatidae.

Migratory Fish

- The total number of migratory fish species from India under CMS now stands at 24.
- The oceanic white-tip shark and smooth hammerhead shark are the new additions to the list.

Migratory Reptiles

- Seven reptiles, which include five species of turtles and the Indian gharial and saltwater crocodile, are among the CMS species found in India.
- There was no addition to the reptiles list.

Topic- GS Paper 3 –Environment and Ecology

3. **Enhanced Access and Service Excellence (EASE 3.0)**
 - Finance Minister has launched the Enhanced Access and Service Excellence (EASE 3.0).

About the Enhanced Access and Service Excellence

- EASE (Enhanced Access and Service Excellence) 3.0 agenda aims to provide advanced solutions that will make the public sector banking smart and technology-enabled.
- It also aims to digitize the customer's experience at public sector bank branches.

Topic- GS Paper 3 –Banking system

Source- PIB

4. **Gisat-1**
 - Indian Space Research Organisation (ISRO) is set to launch a new-age geo-imaging satellite Gisat-1 from Sriharikota with the capability to perform real-time and constant watch of the Indian subcontinent.

About the Gisat-1

- GSLV-F10 rocket will launch Gisat-1.
- Gisat-1 is a state-of-the-art agile earth observation satellite that will be placed in a geosynchronous transfer orbit at 36,000km altitude.
- It is weighing 2,275 kg.
- It is operating from the geostationary orbit which will facilitate near real-time observation of the Indian subcontinent, under cloud-free condition, at frequent intervals.
- Gisat-1 will do a full rotation of the Earth and come to the same point after every 2 hours.

Topic- GS Paper 3 –Science and technology

Source- PIB

5. **Mini-moon**
 - Astronomers have observed recently a small object orbiting Earth, which they have dubbed 2020 CD3, a "mini-moon" or the planet's "second moon".

About the Mini Moon

- The mini-moon was discovered by Kacper Wierzchos and Teddy Pruyne of the NASA-funded Catalina Sky Survey (CSS) in Arizona
- It is a Temporarily Captured Object (TCO) which is actually an asteroid with a diameter of about 1.9-3.5 m.

About the Temporarily Captured Object

- When an asteroid's orbit crosses Earth's orbit, it can sometimes be captured into the latter orbit which is happened with 2020 CD3.
- Such an asteroid is called a Temporarily Captured Object (TCO).
- The orbit of such objects is unstable.
- They have to contend with the gravitational influence of our permanent Moon as well as that of the Sun.
- Once caught in Earth's orbit, such objects usually remain for a few years before they break free and go into an independent orbit around the Sun.

6. **Govt approves 32 projects under Pradhan Mantri Kisan Sampada Yojana**
 - Government has recently launched a total of 32 projects have been sanctioned under the 'unit' scheme of Pradhan Mantri Kisan Sampada Yojana.
 - It said the projects envisage the creation of direct and indirect employment for about 15,000 persons and focus will be employment opportunities in rural areas.

About Pradhan Mantri Kisan Sampada Yojana

- Pradhan Mantri Kisan SAMPADA Yojana is a scheme for Agro-Marine Processing and Development of Agro-Processing Clusters which has been launched in 2017.
- **Ministry of Food Processing Industries is the nodal agency of the scheme.**
- The PMKSY has seven component schemes
 - Mega food parks

- integrated cold chain and value addition infrastructure
- creation of backward and forward linkages
- creation/expansion of food processing and preservation capacities
- infrastructure for agro-processing clusters
- food safety
- quality assurance infrastructure and human resources and institutions.

Objectives:

- Creation of modern infrastructure for food processing mega food parks/ clusters and individual units.
- To create a robust supply chain infrastructure for perishables.
- To create effective backward and forward linkages – linking farmers, processors and markets.

Topic- GS Paper 2 –Governance

7. **Red snow in Antarctica**

- Recently, the snow around Ukraine's Vernadsky Research Base, located off the coast of Antarctica's northernmost peninsula, has started to take on a red tinge.
- It is also known as watermelon phenomenon that has been known since ancient times.

Reason behind these red tinges:

- such algae as found around the Ukrainian research base grow well in freezing temperatures and liquid water. During the summer, when these typically green algae get a lot of sun, they start producing a natural sunscreen that paints the snow in shades of pink and red. In the winter months, they lie dormant.
- The algae produce the tinted sunscreen to keep themselves warm and because the snow becomes darker from the tinge, it absorbs more heat, as a result of which it melts faster.

Change in Albedo

- These algae change the snow's albedo – which refers to the amount of light or radiation the snow surface is able to reflect back.

- It causes the surrounding ice to melt faster according to the study done by Alaska Pacific University in 2017.

Topic- GS Paper 3 –Science and Technology

Source- Indian Express

8. **Svalbard Global Seed Vault**

- Recently a fresh stock of 60,000 new seed samples from 36 different institutions worldwide was deposited to the reserve vault of seeds in February 2020.

About the Svalbard Global Seed Vault

- It is referred to as the earth's 'doomsday vault' which is now containing about 1.05 million seeds.
- The aim of the vault is to preserve a vast variety of crop seeds in the case of a doomsday event, calamity, climate change or national emergency.
- The vault is situated in the island of Spitsbergen, midway between Norway and the North Pole.
- The vault is artificially cooled at temperatures of below 18 degrees Celsius.

About India's Seed Bank

- India has also established its own seed storage facility at Chang La in Ladakh,
- It was built jointly by the Defence Institute of High Altitude Research and the National Bureau of Plant Genetic Resources in 2010 under the aegis of Defence Research and Development Organisation.

Topic- GS Paper 3 –Science and technology

9. **Project Monitoring Group (PMG) Portal**

- Union Minister of Commerce & Industry reviewed 17 large-size infrastructure projects through the Project Monitoring Group portal.

About the Project Monitoring Group

- Project Monitoring Group (PMG) is an institutional mechanism of DPIIT to expedite resolution of issues and removal of regulatory bottlenecks in projects.

- It helps to expedite resolution of issues and removal of regulatory bottlenecks in projects, with investments upward of ₹ 500 crores in India.
- PMG enlists unresolved project issues of all Public, Private and 'Public-Private Partnership' (PPP) projects and undertakes fast-tracking of approvals, sectoral policy issues and removal of bottlenecks for expeditious commissioning.
- Invest India provides implementational support to PMG in identifying and following up on issues with the States.

Topic- GS Paper 3 –Infrastructure

10. **India welcomes deal between US and Taliban in Afghanistan; Says it supports all opportunities that bring peace and security**

- India has welcomed the deal between the US and the Taliban in Afghanistan.
- External Affairs Ministry Spokesperson Raveesh Kumar said, New Delhi support all opportunities that can bring peace, security and stability in Afghanistan and end violence, cut ties with international terrorism and lead to a lasting political settlement through an Afghan-led, Afghan-owned and Afghan controlled process.

About US-Taliban Peace Agreement

- US and Taliban signed a peace deal in Doha on 29th February. India attended the historic event as Observer. The agreement will pave the way for a phased withdrawal of American troops from Afghanistan.
- As part of the deal, the Taliban are required to initiate a dialogue with the Afghan government and other civil society and political groups for a permanent ceasefire and power-sharing in post-war Afghanistan.

Topic- GS Paper 2 –International Affairs

1. **Period poverty**

- The Scottish Parliament has passed the Period Products (Free Provision) (Scotland) Bill that aims to make sanitary products free for women of all age groups.
- After passing the bill Scotland may become the first country in the world to end 'period poverty'.

About Period poverty

- Period poverty Scotland' website mentions some circumstances that make menstruation a "difficult experience" for women.
- These include homelessness, coercive, controlling and violent relationships and health conditions such as endometriosis.
- It is also referring to as "period dignity", the legislation aims to develop a universal system in Scotland, which will provide free sanitary products for "anyone who needs them".

Government Schemes To Promote Menstrual Hygiene Management in India

- **The Right of Children to Free and Compulsory Education Act (RTE) (2009)** includes standards for drinking water and gender-separated sanitation facilities in schools.
- **Menstrual hygiene scheme** launched by the Ministry of Health and Family Welfare in 2011 in the rural selected district for promotion of menstrual hygiene among adolescent girls (10-19 years).
- From 2014 onwards scheme extended to all districts under **Rashtriya Kishore Swasthya Karyakram** to enhance MH knowledge, improve hygiene practices, provide subsidised sanitary absorbents, and raise awareness of MHM at school.
- **SABLA programme of Ministry of Women and Child Development** focuses on nutrition, health, hygiene and reproductive and sexual health (linked to a rural mother and childcare centres).
- **National Rural Livelihood Mission** of the Ministry of Rural Development supports self-help groups and small

manufacturers to produce sanitary pads.

- Menstrual hygiene management is also an integral part of the Swachh Bharat Mission
- Menstrual Hygiene Day is an annual awareness day on May 28 to highlight the importance of good menstrual hygiene management.

Topic- GS Paper 2 –Governance

2. **Raider-X**

- Recently a new explosives detection device called Raider-X was unveiled at the National Workshop on Explosive Detection 2020 in Pune.
- Raider-X was developed by the High Energy Material Research Laboratory (HEMRL) — an arm of the DRDO — in Pune and the Indian Institute of Science in Bangalore.

Features and capabilities

- It can detect up to 20 homemade explosives from up to two meters away.
- Raider-X's data library can be updated to accommodate the detection of different explosives in their pure and contaminated forms.
- These types of devices were incremental to thwarting the threat from homemade explosives.
- The device has various applications including narcotics, for local police, for customs and other detection agencies that need to detect various elements which may be explosive or non-explosive in nature.

3. **Schemes to preserve and promote languages, folk dance, Art and culture of tribals**

- Zonal Cultural Centres under the Ministry of Culture is implementing a number of schemes for promoting the folk/tribal art and culture

These are :

Guru Shishya Parampara

- This scheme envisages transmitting our valued traditions to the coming generations.
- Disciples are trained under veterans in art forms which are rare and vanishing.
- Rare and vanishing art forms of the region are identified and eminent exponents are selected to carry out the training programmes in 'Gurukula' tradition.

Research & Documentation:

- It helps to preserve promote and propagate vanishing visual and performing art forms including folk, tribal and classical in the field of music, dance, theatre, literature, fine arts etc. in print/ audio-visual media.
- The art form is finalized in consultation with the state Cultural Department.

Shilpgram

- It helps to promote folk and tribal art and crafts of the zone by organizing seminar, workshops, exhibitions, craft fairs, design development and marketing support to the artisans living in the rural areas.

Octave

- It helps to promote and propagate the rich cultural heritage of North East region comprising of eight states namely Arunachal Pradesh, Assam, Meghalaya, Mizoram, Sikkim, Nagaland, Manipur and Tripura to the rest of India.

Zonal Cultural Centres

- It has been set up to preserve & promote various forms of folk art and culture of the tribals throughout the country including West Bengal, the Government of India.
- It has set up seven Zonal Cultural Centres (ZCCs) with headquarters at Patiala, Nagpur, Udaipur, Prayagraj, Kolkata, Dimapur and Thanjavur.
- These ZCCs organize various cultural activities and programmes all over the country on a regular basis.

Note:

- Sahitya Akademi, an autonomous organization under Ministry of Culture, encourages the preservation

and promotion of languages, especially the unrecognized and tribal languages.

- The Akademi periodically organizes language conventions throughout the country in this regard.

Topic- GS Paper 2 –Governance

5. 'Dholavira: A Harappan City' and 'Monuments and Forts of Deccan Sultanate

- Government of India has submitted two nomination dossiers namely 'Dholavira: A Harappan City' and 'Monuments and Forts of Deccan Sultanate' for inclusion in the World Heritage List for the year 2020

About Dholavira

- It is an archaeological site at Khadirbet in Bhachau Taluka of Kutch District, in the state of Gujarat.
- It is also known locally as Kotada timba, the site contains ruins of an ancient Indus Valley Civilization/Harappan city.
- It is one of the five largest Harappan sites and most prominent archaeological sites in India belonging to the Indus Valley Civilization.

About Monuments and Forts of the Deccan Sultanate

- The Deccan sultanates were five dynasties that ruled late medieval kingdoms, namely, Bijapur, Golkonda, Ahmadnagar, Bidar, and Berar in south-western India.
- The Deccan sultanates were located on the Deccan Plateau.
- Their architecture was a regional variant of Indo-Islamic architecture,

heavily influenced by the styles of the Delhi Sultanate and later Mughal architecture, but sometimes also directly from Persia and Central Asia.

Source- PIB

6. **EKAM Fest**

- Entrepreneurship, Knowledge, Awareness, and Marketing (EKAM) Fest is an exhibition-cum-Fair organized by National Handicapped Finance Development Corporation (NHFDC) under M/o Social Justice & Empowerment.

About National Handicapped Finance Development Corporation

- It is an apex corporation under the aegis of Department of Empowerment of Persons with Disabilities (Divyangjan), Ministry of Social Justice & Empowerment and is working since 1997.
- It is registered as a company, not for profit and provides financial assistance to the Divyangjan/Persons with Disabilities (Divyangjan/PwDs) for their economic rehabilitation and provides a number of skill development programmes.

Recent Initiatives of NHFDC are as follows

- **NHFDC Swavalamban Kendra (NSK)** - Initiative to establish PWD owned micro skill training Centers throughout the country for skill training of PwDs.
- **Safe Cabs in Delhi and Indore** – Arrangements with Sakha Cabs (Vehicles financed by NHFDC) where the PwD owned commercial vehicles will be driven by the Women drivers to provide safe taxi option for the women, children and senior citizen commuters.
- **Safe Drinking Water E Carts** - E-carts fitted with RO water dispensing vending machines, these carts will sell water in paper glasses maintaining the hygiene, the carts will be supported in operation by Bharat Jal and funded by NHFDC.

Topic- GS Paper 2 –Governance

Source- PIB

7. **Eurasian otter found in Chilika Lake**

- Researchers conducting a study in Odisha’s Chilika Lake have found the presence of fishing cats and Smooth-coated otters.

About Eurasian otter

- The Eurasian Otter (*Lutra lutra*) is also known as European otter, Eurasian river otter, common otter and Old world otter.
- It is a semi-aquatic mammal which is commonly native to Eurasia.
- It has a diet mainly of fish and is strongly territorial.

Conservation Status

- It is Nearly Threatened as per IUCN Red List.
- It is protected by the Wildlife Protection Act (1972).
- There are three species of otters found in India are protected under the Wildlife Protection Act and are listed in CITES Appendices.

These are

- Eurasian Otter – CITES Appendix I; WPA Schedule II
- Smooth Coated Otter – CITES Appendix II; Wildlife Protection Act Schedule II
- Clawless Otter – CITES Appendix II; Wildlife Protection Act Schedule I

Distribution

- The species is found mainly across Europe, northern Africa and other south Asian countries.
- In India, it is distributed in the Himalayan foothills, southern Western Ghats and Central India.

Chilka Lake:

- It is spread over the Puri, Khurda and Ganjam districts of Odisha, at the mouth of the Daya River, flowing into the Bay of Bengal.
- It is Asia's largest brackish water lake.
- In 1981, Chilika Lake was designated the first Indian wetland of international importance under the Ramsar Convention.

Topic- GS Paper 3 –Environment

Source- TOI

8. **Renewable Energy Management Centers**

- Union Power Minister has recently launched 11 Renewable Energy Management Centers

About Renewable Energy Management Centers

- It is a hub for all information regarding renewable energy power generation”, which would have a “dedicated team for managing forecast RE generation, dispatch and real-time monitoring to ensure safe, secure and optimal operation of the grid.
- These are load forecasting Centres equipped with Artificial Intelligence based Renewable Energy (RE) forecasting tools.
- They will mainly perform three functions
 - forecasting of renewable energy from each plant
 - scheduling of renewable energy to customers
 - tracking of generation from the RE plants.
- The Government of India had approved the implementation of the REMCs as a Central Scheme and had mandated POWERGRID which is a Maharatna CPSE under the Ministry of Power as an Implementing Agency.
- The Centres are being managed by the Power System Operation Corporation of India Ltd. at Regional and National level and at State level by State Load Despatch Centres.

Topic- GS Paper 2 –Governance

04.03.2020

1. **Centre working on the exclusive body for river-linking projects**
 - The Central government is working on the establishment of an exclusive body called the National Interlinking of Rivers Authority to implement projects for linking rivers.

Function of the National Interlinking of Rivers Authority

- It will be the apex body on river linking in the pipeline.

- It is expected to take up both inter-State and intra-State projects.
- It will also make arrangements for generating funds, internally and externally.

About River Inter-interlinking

- It is formally known as the National Perspective Plan.
- It helps in envisages the transfer of water from water ‘surplus’ basins where there is flooding, to water ‘deficit’ basins where there is drought/scarcity, through inter-basin water transfer projects.
- The National River Interlinking Project will comprise of 30 links to connect 37 rivers across the nation through a network of nearly 3000 storage dams to form a gigantic South Asian Water Grid.
- It includes two components:
 - Himalayan Rivers Development Component
 - Southern Water Grid

Himalayan Rivers Development Component

- This component aims to construct storage reservoirs on the Ganga and Brahmaputra rivers, as well as their tributaries in India and Nepal.
- The aim is to conserve monsoon flows for irrigation and hydropower generation, along with flood control.
- The linkage will transfer surplus flows of the Kosi, Gandak and Ghagra to the west.
- A link between the Ganga and Yamuna is also proposed to transfer the surplus water to drought-prone areas of Haryana, Rajasthan and Gujarat.

Southern Water Grid

- It includes 16 links that propose to connect the rivers of South India.
- It envisages linking the Mahanadi and Godavari to feed the Krishna, Pennar, Cauvery, and Vaigai rivers.
- This linkage will require several large dams and major canals to be constructed.
- Besides this, the Ken River will also be linked to the Betwa, Parbati, Kalisindh, and Chambal rivers.

About National Water Development Agency

- It is the agency of the Ministry of Jal Shakti.
- It was set up in July 1982 as an autonomous society under the Societies Registration Act, 1860.
- It was established to carry out the water balance and other studies on a scientific and realistic basis for optimum utilisation of Water Resources of the peninsular rivers system.
- Besides it was tasked to prepare feasibility reports and give concrete shape to Peninsular Rivers Development Component of National Perspective.
- It has been also entrusted to prepare feasibility reports of intra-State links as proposed by the States.

Note:

- Ken-Betwa river link entails a 231-kilometre canal between the two rivers in the states of Madhya Pradesh and Uttar Pradesh.
- The project is running through the Panna Tiger Reserve.

Topic- GS Paper 2–Governance

Source- The Hindu

2. **Integrated Disease Surveillance Programme**
 - Recently after COVID-19 outbreak, there are six cases confirmed by the government.
 - The Health Ministry's Integrated Disease Surveillance Programme (IDSP) network is in hot pursuit to trace people who have come in contact with the six people whose samples have been sent for confirmation.

Integrated Disease Surveillance Program (IDSP)

- The Integrated Disease Surveillance Program (IDSP) was initiated in assistance with the World Bank, in the year 2004.
- The scheme aimed to strengthen disease surveillance for infectious diseases to detect and respond to outbreaks immediately.

- The surveillance data is collected on three specified reporting formats, namely "**S**" (**suspected cases**), and "**P**" (**presumptive cases**) and "**L**" (**laboratory-confirmed cases**) filled by **Health Workers, Clinicians and Laboratory staff respectively.**

Objective:

- To strengthen/maintain decentralized laboratory based IT enabled disease surveillance system for epidemic-prone diseases to monitor disease trends and to detect and respond to outbreaks in the early rising phase through trained Rapid Response Team.

Programme Components:

- Integration and decentralization of surveillance activities through the establishment of surveillance units at Centre, State and District level.
- Use of Information Communication Technology for collection, collation, compilation, analysis and dissemination of data.
- Strengthening of public health laboratories.
- Intersectoral Coordination for zoonotic disease.

Source- The Hindu (Editorial)

3. **Sukhna Lake is a living entity with rights: HC**
 - The Punjab and Haryana high court has recently declared Sukhna Lake a "living entity" or "legal person" with rights, duties and liabilities of a living person.
 - It also declared all citizens of Chandigarh as loco parentis (in the place of a parent) to save the lake from extinction.
 - The court observed that Sukhna Lake is required to be declared as a legal entity for its survival, preservation and conservation.
 - The Chandigarh administration has been directed to declare it a wetland within a period of three months.

Earlier Decision

- Earlier in 2018, a bench presided over by justice Sharma had accorded the

status of “legal person or entity” to animals in Haryana.

- In Uttarakhand high court, justice Sharma was part of a bench in 2017, which declared the Ganga and Yamuna as living entities, a verdict that was later stayed by the Supreme Court.

4. **Black carbon levels spike at Himalayan glaciers**

- Recently a study conducted by the scientists at the Wadia Institute of Himalayan Geology (WIHG) found that Black carbon concentrations near the Gangotri glacier rose 400 times in summer.

Reasons

- It is due to forest fires and stubble burning from agricultural waste, and triggered glacial melt.

About Black carbon

- Black Carbon results from the incomplete combustion of fossil fuels and biomass.
- The fine particles absorb light and about a million times more energy than carbon dioxide.
- Black carbon is short-lived and remains in the atmosphere only for days to weeks before it descends as rain or snow.
- The concentration varied from a minimum of 0.01g/cubic metre in winter to 4.62g/cubic metre during summer.

Note:

- India is the second-largest emitter of black carbon in the world.

Source- The Hindu

5. **Milan Exercise 2020**

- Due to the spread of COVID-19, the Navy has decided to postpone the multilateral exercise, Milan 2020, scheduled for later this month off the Visakhapatnam coast.

About the Milan (naval exercise)

- It is a multilateral naval exercise hosted by the Indian Navy under the aegis of the Andaman and Nicobar Command.

- It is a biennial event which is held in the Andaman and Nicobar Islands.
- Milan was first held in 1995.

Topic- GS Paper 3– Defence

Source- The Hindu

6. **National Programme for Dairy Development Scheme**

- The Minister of State for Fisheries, Animal Husbandry and Dairying have given written reply about the implementing National Programme for Dairy Development (NPDD) scheme.

National Programme for Dairy Development Scheme

- The National Programme for Dairy Development (NPDD) scheme was launched by the Government of India.
- The NPDD scheme is designed to provide technical and financial assistance for dairy development.

Objectives of the Scheme

- To strengthen and create the necessary infrastructure for the production of quality milk including the creation and development of cold chain infrastructure that will enhance the linkage between the farmers and their consumers.
- To strengthen and create the infrastructure required for the production, procurement, marketing and processing of milk.
- To create appropriate training infrastructure and facilities for the training of dairy farmers.
- To strengthen the dairy Producer Companies/cooperative societies at the village level
- To increase the production of milk by providing the most needed technical input services like mineral mixture and cattle feed, etc
- It also assists the rehabilitation potential and viable milk unions/federations.

7. **World Wildlife Day**

- The World Wildlife Day is celebrated every year on 3rd March under the theme “Sustaining all life on Earth”.

Background

- The United Nations General Assembly (UNGA) at its 68th session proclaimed 3 March – the day of signature of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) in 1973 – as UN World Wildlife Day.

About the Convention on International Trade in Endangered Species of Wild Fauna and Flora

- It is also known as Washington Convention which aims to ensure that international trade in specimens of wild animals and plants does not threaten their survival.
- It entered into force in 1975.

CITES Appendices:

Appendix I

- It includes species threatened with extinction.
- Trade in specimens of these species is permitted only in exceptional circumstances.

Appendix II

- It includes species not necessarily threatened with extinction, but in which trade must be controlled in order to avoid utilization incompatible with their survival.

Appendix III

- It contains species that are protected in at least one country, which has asked other CITES Parties for assistance in controlling the trade.

8. **Deen Dayal Upadhyaya Grameen Kaushalaya Yojana**
 - The Government has informed that around 4.39 lakh candidates have been trained during 2018-19 and 2019-20 under Deen Dayal Upadhyaya Grameen Kaushalaya Yojana.

About Deen Dayal Upadhyaya Grameen Kaushalaya Yojana

- It has been launched in 2014 by the Ministry of Rural Development as a part of the National Rural Livelihood Mission.

- It aims to transform rural poor youth into an economically independent and globally relevant workforce.

Eligibility

- Rural youth in the age group of 15–35 years.
- SC/ ST/ Women/ PVTG/PWD upto 45 Yrs.

Salient Features of the scheme:

- Provides funding support for placement linked skilling projects.
- Demand led skill training at no cost to the rural poor.
- Mandatory coverage of socially disadvantaged groups (SC/ST 50%; Minority 15%; Women 33%).
- Greater emphasis on projects for poor rural youth in Jammu and Kashmir and North-East region and 27 Left-Wing Extremist districts.

1. **SC frees trade in cryptocurrencies**

- The Supreme Court has set aside April 6, 2018, circular of the Reserve Bank of India (RBI) that prohibited banks and entities regulated by it from providing services in relation to virtual currencies.

About Cryptocurrencies

- Cryptocurrency is an encrypted decentralized digital currency transferred between peers and confirmed in a public ledger via a process known as mining.

Some important cryptocurrencies are

- Bitcoins
- Swiftcoin
- Bytecoin
- Litecoin
- Namecoin
- Gridcoin

Risks associated with the use of cryptocurrencies

- Digital currencies, being in electronic format, are prone to losses arising out of hacking, loss of password etc.
- The lack of any authorized central agency to regulate the payments or to turn to for redressal of grievances.

- There is no underlying of the asset for Cryptocurrencies, making the value a matter of speculation.
- The exchanges are located in various parts of the world, making the law enforcement a tricky thing for the multiple jurisdictions available.
- Trading may subject the user to illicit and illegal activities since the cryptocurrencies can easily be used for illegal activities anonymously.

Topic- GS Paper 3 –Economics

Source- The Hindu

2. **Urja Dakshata Information Tool**

- Bureau of Energy Efficiency along with World Resources Institute has launched Urja Dakshata Information Tools a first-ever initiative to facilitate a database on energy efficiency.

About Urja Dakshata Information Tool

- It is a user-friendly platform that explains the energy efficiency landscape of India across industry, appliances, building, transport, municipal and agriculture sectors.
- UDIT will also showcase the capacity building and new initiatives taken up by the Government across the sectors in the increasing energy efficiency domain.

Bureau of Energy Efficiency

- It was established in March 2002, as a statutory body by the Government of India under the Energy Conservation Act 2001.
- Its mission is to assist in developing policies with the primary objective of reducing the energy intensity of the Indian Economy.

About World Resources Institute

- It is a global research non-profit organization that was established in 1982.
- It aims to promote environmental sustainability, economic opportunity, and human health and well-being.
- It's headquartered is in Washington, USA.

India's Energy Sector

- India's energy sector is set for a transition with recent developmental ambitions of the Government e.g.

- 175 GW of installed capacity of renewable energy by 2022
- 24X7 Power for all
- 100% electrification of households

Topic- GS Paper 3 –Energy Sector

3. **Global Coalition for Biodiversity**

- The European Commission (EC) launched the 'United for Biodiversity' on the occasion of World Wildlife Day 3rd
- The coalition calls on all world zoos, aquariums, botanic gardens, science and natural history museums to join forces and boost public awareness about the nature crisis, ahead of the crucial CoP 15 in Kunming, China in October 2020.
- The World Association of Zoos and Aquariums (WAZA) supports the coalition and the call for zoos, aquariums, national parks, botanic gardens, science and natural history museums around the world to now intensify their communication actions about biodiversity.

About World Association of Zoos and Aquariums

- The World Association of Zoos and Aquariums (WAZA) is the global alliance of regional associations, national federations, zoos and aquariums, dedicated to the care and conservation of animals and their habitats around the world.

About the European Commission

- It is an institution of the European Union (EU) that was founded on 1 January 1958.
- It is responsible for implementing decisions, proposing legislation, upholding EU treaties and managing the day-to-day business of the European Union.
- It's headquarters in Brussels, Belgium

4. **QS (Quacquarelli Symonds) World University Ranking 2020**

- Quacquarelli Symonds has released the World University Rankings by Subject 2020.

Key Findings

- The Indian Institutes of Technology, Bombay (44th) and Delhi (47th) have both broken into the world's top 50 engineering and technology institutions.

Twelve institutes in list

- Overall, 12 institutions from the country were ranked in the top 500 in this category alone.
- In the Natural Sciences category, three Indian institutions made it to the top 200
 - IIT-Bombay at 108th rank
 - Indian Institute of Science, Bangalore at the 111th position
 - IIT-Madras scraped in at the 195th rank.
- Jawaharlal Nehru University remained the country's top institution in the Arts and Humanities category, with a global ranking of 162
- Delhi University topped the Social Sciences and Management category, with a global ranking of 160, followed by IIT-Delhi at 183.
- There are no Indian institutions in the world's top 200 when it comes to Life Sciences and Medicine.
- The top institution in the country is the All India Institute of Medical Sciences, which had a global ranking of 231.

6. Swamp wallaby

- Researchers reported that the swamp wallaby, a marsupial related to the kangaroo is pregnant throughout its adult life.
- It typically conceives a new embryo days before delivering the newborn from its previous pregnancy.

About the Swamp wallaby

- It is a small macropod marsupial of eastern Australia.
- It is likely the only mammal pregnant and lactating all lifelong.
- It is listed as **Least Concern** as per IUCN Red List.

How it is different from Kangaroo?

- In kangaroos, the new embryo is conceived a day or two after the previous birth.
- In the swamp wallaby (*Wallabia bicolor*), the new conception happens one or two days before the previous joey is delivered.

8. Mega Consolidation in Public Sector Banks

- The Union Cabinet has approved the mega consolidation of ten PSBs into four which would be effective from 1 April 2020.
- It includes the following
 - Amalgamation of Oriental Bank of Commerce and United Bank of India into Punjab National Bank
 - Amalgamation of Syndicate Bank into Canara Bank
 - Amalgamation of Andhra Bank and Corporation Bank into Union Bank of India
 - Amalgamation of Allahabad Bank into Indian Bank

Benefits

- This would help create banks with a scale comparable to global banks and capable of competing effectively in India and globally.
- Greater scale and synergy through consolidation would lead to cost benefits enabling the PSBs to enhance their competitiveness and positively impact the Indian banking system.
- It will also result in the adoption of technologies across the amalgamating banks, access to a wider talent pool, and a larger database.

1. Solar Charkha Mission

- Union Minister for Micro, Small and Medium Enterprises has given in written reply to a question in Lok Sabha about the subsidies in Solar Charkha Mission.

About Mission Solar Charkha

- The Solar Charkha Mission is a Ministry of Micro Small & Medium Enterprises (MSME) initiative launched during June 2018.
- The Khadi and Village Industries Commission (KVIC) would implement the programme.

Scheme Objectives

The objectives of the Scheme are as follows:

- To ensure inclusive growth by the generation of employment, especially for women and youth, and sustainable development through solar charkha clusters in rural areas.
- To boost the rural economy and help in arresting migration from rural to urban areas.
- To leverage low-cost, innovative technologies and processes for sustenance

Project Coverage

- The scheme shall be implemented in all states of India.
- The geographical distribution of the clusters throughout the country, with at least 10% located in the North Eastern Region (NER), J&K and hilly states, will also be kept in view.
- Special focus will be given to 117 aspirational districts for soliciting project proposals under the scheme.

About the Khadi and Village Industries Commission

- It is a statutory body formed by the Government of India, under the Act of Parliament, 'Khadi and Village Industries Commission Act of 1956'.
- It is an apex organisation under the Ministry of Micro, Small and Medium Enterprises, with regard to khadi and village industries within India.
- It seeks to - "plan, promote, facilitate, organise and assist in the establishment and development of khadi and village industries in the rural areas in coordination with other

agencies engaged in rural development wherever necessary.

- The KVIC is authorized to establish and maintain separate organisations for the purpose of carrying out any or all of the above matters besides carrying out any other matters incidental to its activities.

2. Central Adoption Resource Authority

- Recently the Central Adoption Resource Authority (CARA) has invited suggestions and feedback for simplification of the adoption process from all stakeholders.

About Central Adoption Resource Authority

- It is a statutory body of Government of India and also an autonomous body of the Union Ministry of Women and Child Development.
- It will promote and facilitates in-country adoption and regulates Inter-country adoption as Central Authority under the Hague Convention for Inter-country adoptions.
- It is also mandated to frame regulations on adoption-related matters from time to time as per Section 68 of the Juvenile Justice (Care and Protection of Children) Act, 2015.

About the Hague Adoption Convention

- It is also known as the Hague Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption.

Objectives:

- To protect children and their families against illegal or ill-prepared Inter-Country adoptions.
- To prevent the abduction, the sale of, or trafficking of children.
- The Convention establishes minimum standards but does not intend to serve as a uniform law of adoption.

Background:

- The Convention was developed by the Hague Conference on Private International Law.
- This Convention gives effect to Article 21 of the UN Convention on the Rights of the Child.

3. Limited Liability Partnership settlement scheme

- The Centre has introduced a new scheme called Limited Liability Partnership settlement scheme 2020.
- The scheme will come into force on March 16, 2020, and remain in force up to June 13, 2020.

About the Limited Liability Partnership scheme

- It helps non-compliant Limited Liability Partnership (LLP) firms turn compliant and enable 'ease of doing businesses for such entities.
- This scheme would provide a one-time relaxation in an additional fee to the defaulting LLPs to make good their default by allowing filing of pending documents and help them serve as a compliant LLP in future.
- It would be applicable to a "defaulting LLP" for filing documents, which were due for filing till October 31, 2019, on payment of a nominal additional fee of ₹10 per day for the period of delay.

Source- The Hindu

4. Republic of Cote d'Ivoire

- The Union Cabinet has approved a Memorandum of Understanding between the Ministry of Health and Family Welfare and the Republic of Cote d'Ivoire on Cooperation in the field of Health.

About Republic of Cote d'Ivoire

- It is also known as Ivory Coast is located on the south coast of West Africa.
- Its political capital is Yamoussoukro while its economic capital and largest city is the port city of Abidjan.

- The official language of the republic is French.
- It borders Guinea and Liberia to the west, Burkina Faso and Mali to the north, Ghana to the east and the Gulf of Guinea (Atlantic Ocean) to the south.

Note:

Recently India provides assistance to built Mahatma Gandhi Information Technology and Biotechnology Park (MGIT-BP) at Grand-Bassam in Cote d'Ivoire.

About MGIT-BP

- It is a dedicated Free Trade Zone (FTZ) for IT and Biotechnology.
- It is being built with India's assistance through EXIM Bank Line of Credit (LoC).
- The Project consists of two parts-
 - Architectural concept and design for buildings of FTZ and construction of the main building to host IT enterprises.
 - Supply and commissioning of equipment which included, computer assembly plant, VSAT (very small aperture terminal) with satellite earth station, human DNA lab, networking lab, data storage area network, an audio-visual lab, and a power generator.

5. **Mac-binding condition**
 - Recently the Internet speed in Jammu and Kashmir is still restricted to 2G which will be made available "with mac-binding".

What is mac-binding?

- Mac-binding essentially means binding together the MAC and IP addresses, so that all requests from that IP address are served only by the computer having that particular MAC address.
- Every device has a Media Access Control (MAC) address, a hardware identification number that is unique to it.
- While accessing the Internet, every device is assigned an IP address.

- In effect, it means that if the IP address or the MAC address changes, the device can no longer access the Internet.
- Also, monitoring authorities can trace the specific system from which a particular online activity was carried out.

6. **Centre launches the second phase of Swachh Bharat Mission (Grameen)**
 - Union Minister of Jal Shakti has launched the second phase of the Swachh Bharat Mission (Grameen) - SBM (G) Phase-II.
 - It will be implemented from 2020-2021 to 2024-2025 in a mission mode.

About the second phase of the Swachh Bharat Mission (Grameen)

- The second phase will focus on sustaining the gains made under the programme in the last five years in terms of toilet access and usage, ensuring that no one is left behind.
- It will also ensure that effective solid and liquid waste management (SLWM) is instituted in every Gram Panchayat of the country.
- It will continue to generate employment and provide impetus to the rural economy through the construction of household toilets and community toilets.

About the Swachh Bharat Mission (Gramin)

- The aim of Swachh Bharat Mission (Gramin) is to achieve a clean and Open Defecation Free (ODF) India by 2nd October 2019.

Objectives:

- To bring about an improvement in the general quality of life in the rural areas, by promoting cleanliness, hygiene and eliminating open defecation.
- To motivate communities to adopt sustainable sanitation practices and facilities through awareness creation and health education.

- To encourage cost-effective and appropriate technologies for ecologically safe and sustainable sanitation.
- To develop community managed sanitation systems focusing on scientific Solid & Liquid Waste Management systems for overall cleanliness in the rural areas.
- To create a significant positive impact on gender and promote social inclusion by improving sanitation especially in marginalized communities.

7. **Uttarakhand govt names Gairsain as new summer capital of state**
 - Uttarakhand Chief Minister has announced that 'Gairsain' as the new summer capital of the state.

Background

- Uttarakhand was carved out as a separate state from Uttar Pradesh in 1998.
- Statehood activists had long contended that Gairsain, a tehsil in Chamoli district, was best suited to be the capital of the mountainous state as it was a hilly region falling on the border of Kumaon and Garhwal regions.
- But it was Dehradun, located in the plains that served as the temporary capital.
- The state Assembly is located in Dehradun, but sessions are held in Gairsain as well.

Topic- GS Paper 1–Art and Culture

Source- Indian Express

8. **Unguarded X hypothesis**
 - According to new research, sex chromosomes are the key reason for men living shorter lives than women worldwide.

About the Human Chromosome

- The human cell has 23 pairs of chromosomes out of these twenty-two of these pairs, called autosomes.
- One pair is of the sex chromosomes, named X and Y, which determine

whether an individual is male or female.

- A female has two X chromosomes (XX) while a male has one X and one Y (XY).

About the Unguarded X hypothesis

- This hypothesis suggests that the Y chromosome in XY is less able to protect an individual from harmful genes expressed on the X chromosome.
- In a male, as the Y chromosome is smaller than the X chromosome, it is unable to "hide" an X chromosome that carries harmful mutations, which may later expose the individual to health threats.
- On the other hand, the hypothesis goes, there is no such problem in a pair of X chromosomes (XX) in a female.
- If one of the X chromosomes has genes that have suffered mutations, then the other X chromosome, which is healthy, can stand-in for the first, so that the harmful genes are not expressed.
- This maximises the length of life, according to the hypothesis.

09.03.2020

1. **Panel for delimitation in J&K, 4 N-E states**
 - The Law Ministry has notified the delimitation commission for Jammu and Kashmir, Assam, Arunachal Pradesh, Manipur and Nagaland.

About the Justice Ranjana Prakash Desai Commission

- The delimitation panel has three-member commission will be headed by former Supreme Court judge Justice Ranjana Prakash Desai.
- Chief Election Commissioner has nominated Election Commissioner Sushil Chandra as his representative on the commission.

- The third member will be the election commissioner of the state or Union Territory concerned.
- The delimitation commission is expected to wind up the exercise in a year's time.
- The delimitation of Assembly constituencies of the erstwhile state would be carried out on the basis of the 2011 Census.

About the Delimitation Act

- Delimitation is the act of redrawing boundaries of Lok Sabha and Assembly seats to represent changes in population and is done on the basis of the last Census.
- Under Article 82 of the Constitution, Parliament enacts a Delimitation Act after every Census which establishes a delimitation commission.
- The main task of the commission is redrawing the boundaries of the various assembly and Lok Sabha constituencies to ensure an equitable population distribution.
- Delimitation commissions have been set up four times in the past under 'Delimitation Commission Acts' of 1952, 1962, 1972 and 2002.

Note:

- The delimitation in 2002, in which only boundaries of constituencies were readjusted, was completed in all states, except Arunachal Pradesh, Assam, Manipur and Nagaland.
- When the exercise began in these states in 2002, the use of the 2001 Census was challenged by several organisations before the Gauhati High Court on the ground that it was riddled with defects.

Topic- GS Paper 2–Polity

Source- The Hindu

2. **Right of an accused to be defended**
 - The Karnataka High Court observed that it is unethical and illegal for lawyers to pass resolutions against representing accused in court.

Constitutional Provision

- Article 22(1) gives the fundamental right to every person not to be denied

the right to be defended by a legal practitioner of his or her choice.

- Article 14 provides for equality before the law and equal protection of the laws within the territory of India.
- Article 39A, part of the Directive Principles of state policy, states that equal opportunity to secure justice must not be denied to any citizen by reason of economic or other disabilities and provides for free legal aid.

Some Prominent Case related to resolutions not to defend an accused?

- After the 2008 terror attack in Mumbai, a resolution was passed against representing Ajmal Kasab.
- A Legal Aid lawyer was assigned the brief but he refused, while another who agreed to defend Kasab faced threats.
- Subsequently, a lawyer was appointed and given police security.
- After the 2012 gangrape in Delhi, lawyers in Saket court passed a resolution not to defend the accused.

Topic- GS Paper 2–Polity

4. **Polymer Electrolyte Membrane fuel cells**

- Scientists at International Advanced Research for Powder Metallurgy & New Materials (ARCI), Hyderabad have developed Polymer Electrolyte Membrane fuel cells (PEMFC).

About Polymer Electrolyte Membrane fuel cells

- It is also known as Proton-exchange membrane fuel cells.
- This type of fuel cell being developed mainly for transport applications, as well as for stationary fuel-cell applications and portable fuel-cell applications.
- Their distinguishing features include lower temperature/pressure ranges (50 to 100 °C) and a special proton-conducting polymer electrolyte membrane.
- PEMFCs generate electricity and operate on the opposite principle to PEM electrolysis, which consumes electricity.
- Fuel cell systems offer a potential benefit in terms of providing sustainable electricity using hydrogen gas without the need of grid power as required by conventional battery backup systems.

5. **India accepted as an observer in the Indian Ocean Commission**

- Recently India was accepted as an observer in the Indian Ocean Commission.
- Till now, IOC had four observers – China, Malta, European Union and International Organisation of La Francophonie (OIF)

About the Indian Ocean Commission

- The Indian Ocean Commission is an intergovernmental organization that was created in 1982 at Port Louis, Mauritius and institutionalized in 1984 by the Victoria Agreement in Seychelles.
- The COI is composed of five African Indian Ocean nations: Comoros,

Madagascar, Mauritius, Réunion (an overseas region of France), and Seychelles.

- Its principal mission is to strengthen the ties of friendship between the countries and to be a platform of solidarity for the entire population of the African Indian Ocean region.
- The mission also includes development, through projects related to sustainability for the region.

Objectives

- The COI works on four pillars which have been adopted in 2005 by the Summit of Heads of States:
 - Political and diplomatic cooperation,
 - Economic and commercial cooperation
 - Sustainable development in a globalisation context, cooperation in the field of agriculture, maritime fishing, and the conservation of resources and ecosystems
 - Strengthening of the regional cultural identity, cooperation in cultural, scientific, technical, educational and judicial fields.

Significance for India

- It will help in getting a seat at the table of the organization that handles maritime governance in the western Indian Ocean.
- It also lends depth to India's SAGAR (security and growth for all in the region) policy unveiled by PM Modi in 2015.
- The move would lead to greater security cooperation with countries in East Africa.

Topic- GS Paper 2-Governance

Source- The Hindu

6. **Endophytic Actinobacteria**

- Researchers at the Institute of Advanced Study in Science and Technology (IASST) Guwahati have found significant plant-growth-promoting and antifungal activities of endophyticactino bacteria associated with Tea plant.

About the Endophytic Actinobacteria

- It is related to genera, Eurya which find potent plant growth-promoting strains.
- Researchers isolated 46 endophyticactino bacteria found in diverse environments
- Most of the endophyticactino bacteria isolate having antifungal activity showed the presence of chitinase, NRPS (Nonribosomal peptides synthetase) or PKS-1 (Polyketide Synthase) gene.
- These are suggesting the presence of mechanisms to inhibit the growth of pathogenic plant fungi.
- The application of this bacteria strain will able to reduce chemical fertilizers & fungicides in Tea plantation.

Note:

- Institute of Advanced Study in Science and Technology (IASST) is an autonomous institute under the Department of Science & Technology.
- The Scientific name of the tea is **Camellia sinensis** which plays an important role in the Indian economy as a major portion of the tea produced is exported.

7. Jan Auashadhi Diwas

- Recently the Jan Aushadhi Diwas will be celebrated on 7th March 2020.
- The Jan Aushadhi Divas aims to provide further impetus and create awareness about the use of generic medicines.

Pradhan Mantri Jan Aushadhi Pariyojna

- It was launched by Prime Minister with an objective of making high-quality medicines available to all at affordable prices through exclusive outlets of Jan Aushadhi Medical Stores.
- "Pradhan Mantri Bhartiya Jan Aushadhi Pariyojana" is a noble initiative by Department of Pharmaceuticals, Government of India.
- It will be run through the Jan Aushadhi Kendra.
- All Kendras can be located and the prices of medicines compared with the

help of the mobile app 'Janaushadhi Sugam.'

Topic- GS Paper 2-Governance

Source- PIB

8. Centre can't brand an organisation as 'political' for aiding a public cause:

Supreme Court

Background:

- A petition was filed by Indian Social Action Forum challenging certain provisions of the Foreign Contribution Regulation Act (FCRA), 2010 and the Foreign Contribution (Regulation) Rules of 2011.
- Both of which confer the Centre with "unguided and uncanalised power" to brand organisations 'political' and shut down their access to foreign funds.
- The FCRA 2010 prohibited acceptance and utilisation of foreign contribution or foreign hospitality for any activities detrimental to the national interest.
- The provisions under challenge before the court included:
 - Section 5 (1) of the FCRA: This provision allowed the Centre a free hand to decide whether a seemingly non-political organisation was actually political in nature.
 - Section 5(4) of the FCRA: INSAF said the provision did not exactly identify the authority before which an organisation could represent its grievance. But the apex court dismissed this contention.
 - INSAF had also challenged the various clauses of Rule 3 of the 2011 Rules. This provision identified the various types of 'political' activities for which/organisations whose foreign funding could be stopped by the government.

Key Points:

- SC observed that Any organisation which supports the cause of a group of citizens agitating for their rights without a political goal or objective cannot be penalised by being declared as an organisation of a political nature.

- But the **foreign funding pipeline could be cut** if an organisation took recourse to these forms of protest to score a political goal, the court said.
- It struck a similar balance in the cases of organisations of farmers, workers, students, youth based on caste, community, religion, language, etc. It said their foreign funding could continue as long as these organisations worked for the “social and political welfare of society” and not to further “political interests”.

Justification Behind the SC Order:

- Ensure that the administration is not influenced by foreign funds.
- A prohibition from receiving foreign aid, either directly or indirectly, by those who are involved in active politics is to ensure that the values of a sovereign democratic republic are protected.
- Also, ensure the protection of those voluntary organisations which have absolutely no connection with either party politics or active politics cannot be denied access to foreign contributions.

Topic- GS Paper 2–Governance

Source- The Hindu

11.03.2020

1. **Schemes for Women Empowerment: Minority Affairs Ministry**
 - The Ministry of Minority Affairs has been implementing various schemes for socio-economic and educational empowerment of women from minority communities

Who are the minorities?

- The Minister of Minority Affairs has stated in the Lok Sabha that Minority has been defined under Section 2 (c) of the National Commission for Minorities (NCM) Act, 1992.
- As per Section 2 (c) of the NCM Act, “minority”, for the purposes of this Act, means a community notified as such by the Central Government.
- So far, six communities’ viz. Muslims, Christians, Sikhs, Buddhists and

Zoroastrians (Parsis) and Jains have been notified as minority communities by the Central Govt.

Various schemes for Minorities are:

Employment-oriented Skill Development Initiatives

1. **Seekho Aur Kamao** - It is a placement linked skill development programme.
2. **Nai Manzil** – A scheme for formal school education & skilling of school dropouts
3. Gharib Nawaz Employment Training for providing short-term job oriented skill development courses to youths belonging to minority communities (MAEF)
4. National Minorities Development and Finance Corporation (NMDFC)
 - It provides concessional loans to minorities for self-employment and income-generating ventures.

Improving the living conditions of Minorities initiatives

Pradhan Mantri Jan Vikas Karyakram

- It is an area development scheme.
- It is a Centrally Sponsored Scheme for creating socioeconomic infrastructure as well as basic amenities for uplifting the quality of life of minorities in the Minority Concentration Areas.
- The thrust of the Scheme is to allocate at least 80% of the resources for education, health and skill development, out of which 33-40% are to be specifically allocated for women-centric projects.

Haj without Mehram:

- Restrictions lifted on Muslim women going for Haj without “Mehram” (male companion).

Topic- GS Paper 2–Governance

Source- PIB

2. **AT-1 Bond**
 - As per the report by rating agency ICRA, investors have total bets of over Rs. 93000 crores on AT-1 bonds in the Indian Banks and a complete write-down proposed in the Yes Bank Ltd
 - The SBI-led restructuring plan by Reserve Bank of India, there is a

proposal to write-down the entire outstanding on AT-1 bonds.

About AT-1 Bonds

- Additional tier-1 bonds, also called AT1 in market parlance, are a kind of perpetual bonds without any expiry date that banks are allowed to issue to meet their long-term capital requirement.
- AT-1 bonds are a type of unsecured bonds that banks issue to shore up their core capital base to meet the Basel-III norms.
- They are treated as quasi-equity instruments under the law.
- The Reserve Bank of India is the regulator of AT-1 bonds.
- These bonds are issued by banks and companies, which pay a fixed rate of interest at regular intervals.
- The issuing bank of these bonds has no obligation to pay back the principal to investors.

3. WISTEMM Program

- Recently WISTEMM program of the Department of Science and Technology (DST) in association with Indo-U.S. Science & Technology Forum (IUSSTF) have provided international exposure to several women scientists.
- The acronym of WISTEMM program is Women in Science, Technology, Engineering, Mathematics & Medicine.

Other related schemes

KIRAN Scheme

- The Knowledge Involvement in Research Advancement through Nurturing Scheme is one of the several pioneering initiatives started by the Department of Science and Technology for promoting women in science.
- The scheme provides various career opportunities to women scientists and technologists.
- It is primarily aimed to bring gender parity in the Science & Technology sector by inducting more women talent in the research & development domain through various programmes.

Topic-GS Paper 2–Women Empowerment

Source- The Hindu

4. Red Panda

- According to the wildlife trade monitoring network TRAFFIC study it has been found that there are fewer hunters of Red Panda across its Himalayan habitat due to people are losing interest in animal products.

About Red Panda

- It is a small reddish-brown arboreal mammal which is also the state animal of Sikkim.

Conservation Status

- It is listed as Endangered in the IUCN red list of Threatened Species.
- It is under Schedule I of the Indian Wildlife (Protection) Act, 1972.
- It is found in the forests of India, Nepal, Bhutan and the northern mountains of Myanmar and southern China.

About TRAFFIC

- It is a leading non-governmental organisation working globally on trade in wild animals and plants in the context of both biodiversity conservation & sustainable development.
- It is a joint program of World Wildlife Fund and IUCN – the International Union for Conservation of Nature created in 1976.
- TRAFFIC focuses on leveraging resources, expertise and awareness of the latest globally urgent species trade issues such as tiger parts, elephant ivory and rhino horn.

Other Institution related to Conservation of Wildlife

About South Asia Wildlife Enforcement Network

- South Asia Wildlife Enforcement Network (SAWEN) is an inter-governmental wildlife law enforcement support body of South Asian countries.
- These countries are Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri Lanka.
- It was officially launched in January 2011 in Paro Bhutan.

- It promotes regional cooperation to combat wildlife crime in South Asia.
- SAWEN operates its activities from the Secretariat based in Kathmandu, Nepal.

Source- The Hindu

5. **Mahatma Gandhi National Fellowship programme**
 - The Union Minister for Skill Development and Entrepreneurship has launched the Mahatma Gandhi National Fellowship programme in the Indian Institute of Management in Bengaluru.
 - The Fellowship is launched as part of the SANKALP programme of the ministry to provide skilled manpower for District Skill Committees to prepare the District Skill Development plan.

About SANKALP Programme

- Skills Acquisition and Knowledge Awareness for Livelihood Promotion (SANKALP) project aim to implement the mandate of the National Skill Development Mission (NSDM).
- It was launched on 15th July by Ministry of Skill Development & Entrepreneurship, through its core sub-missions.
- The project will be implemented in mission mode through World Bank support and is aligned with the overall objectives of the NSDM.
- The main objectives of the project include strengthening institutional mechanisms at both national and state levels.
- The SANKALP program consists of four objectives:
 - Strengthened institutional mechanisms at National and State levels to guide planning, delivery and monitoring of market-relevant training;
 - Improved Quality and Market Relevance of SD programs
 - Improved access to and completion of skills training for

- female trainees and other disadvantaged groups
 - Expanding skills training through private-public partnerships (PPPs).

6. **Mahua Nutribeverage**

- The Government of India is set to launch a mahua-based alcoholic beverage in the market for the first time.

About the Mahua Nutribeverage

- The beverage has a high nutritional value and relatively low alcohol content, at 5 per cent.
- It has been developed by IIT-Delhi after two years of research in collaboration with TRIFED (Tribal Cooperative Marketing Development Federation of India).
- The marketing is being undertaken under the Tribal Affairs Ministry's Van Dhan Vikas Karyakram.

About the TRIFED

- TRIFED (Tribal Cooperative Marketing Development Federation of India) was established in 1987.
- The basic objective of the TRIFED is to provide good price to the products made or collected from the forest by the tribal peoples.
- It is functioning under the administrative control of Ministry of Tribal Affairs.

Objectives

- To provide a fair price to the 'Minor Forest Produce (MFP) collected by the tribes and enhance their level of income.
- To ensure sustainable harvesting of 'Minor Forest Produce (MFP).
- To save the tribes from the exploitation of the business mediators who purchase the products of the tribes at a cheap rate and sell at the higher prices.

About Mahua

- Mahua (Madhuca Indica) is an Indian tropical tree found largely in the

central and north Indian plains and forests.

- It is adaptable to arid environments, being a prominent tree in tropical mixed deciduous forests in India in the states of Odisha, Chhattisgarh, Jharkhand, Uttar Pradesh, Bihar, Maharashtra, Telangana, Madhya Pradesh, Kerala, Gujarat, West Bengal and Tamil Nadu.
- The mahua flowers are a rich source of sugars and are said to contain vitamins, minerals and calcium.

7. Commercial cord blood banking

- Poona Citizen Doctor Forum (PCDF), a body that aims to rebuild trust among citizens and doctors, and promote an ethical rational medical practice, has come forward to bust the aggressively promoted concept of cord blood banking.

About Cord blood banking

- Cord blood banking is the process of collecting the cord blood and extracting and cryogenically freezing its stem cells and other cells of the immune system for potential future medical use.
- Cord blood (short for umbilical cord blood) is the blood that remains in the umbilical cord and placenta post-delivery.
- In Europe and other parts of the world, cord blood banking is more often referred to as stem cell banking.
- Cord blood has an abundance of stem cells and immune system cells, and the medical uses of these cells have been expanding at a rapid pace.
- As these cells help the body regenerate tissues and systems, cord blood is often referred to as regenerative medicine.

Help in treating diseases

- Cord blood is currently approved by the FDA for the treatment for nearly 80 diseases.
- The cord blood treatments have been performed more than 35,000 times around the globe to treat cancers (including lymphoma and leukaemia), anaemias, inherited metabolic disorders and some solid tumours and orthopaedic repair.

12.03.2020

1. United Nations adopts political declaration on women's rights

United Nations has adopted a stripped-down political declaration on women's rights the **64th session** of the **Commission on the Status of Women**. The declaration seeks to preserve gains under threat but does not advocate new ways to ensure progress toward gender equality.

- The declaration follows the main lines of the **Beijing Declaration and Platform for Action of 1995**, which sought to promote women's emancipation and advancement around the world.
- It underlines the importance of gender equality to progress on all **17 Sustainable Development Goals**.

About the Beijing Declaration

- The Beijing Declaration was a resolution adopted by the United Nations at the **Fourth World Conference on Women in 1995**.
- It sets strategic objectives for the advancement of women and gender equality in 12 critical areas of concern like women and health, women in power and decision-making, the girl-child, women and the environment.

About the Commission on the Status of Women

- The Commission on the Status of Women was **established in 1946** as a functional commission of the **United**

Nations Economic and Social Council.

- It is the principal global intergovernmental body exclusively dedicated to the promotion of gender equality and the empowerment of women.

The year **2020** is regarded as '**A milestone year for gender equality**'

In addition to the 25th anniversary of the Beijing Conference, the year will feature:

- 64th Session of the Commission on the Status of Women.
- Generation Equality Forum in Mexico in May, and France, in July.
- High-level meeting of the 75th General Assembly on gender equality in September.
- 20th anniversary of Security Council resolution 1325 on women, peace and security in October.
- The Sustainable Development Goals five-year milestone.
- 10th anniversary of UN Women.

Note: A UN declaration on women is approved every five years.

2. **WHO declares coronavirus a pandemic**

The World Health Organization on March 11 finally declared the novel coronavirus a 'pandemic'.

What is a pandemic?

- According to the **World Health Organization (WHO)**, a pandemic is the worldwide spread of a new disease.
- The US Centers for **Disease Control and Prevention** defines a pandemic as "an epidemic that has spread over several countries or continents, usually affecting a large number of people."
- The same body defines an epidemic as "an increase, often sudden, in the number of cases of a disease above what is normally expected in that population in that area."

Changes after declaring Coronavirus as a pandemic

Declaring the disease, a pandemic won't mean the WHO gets more funds or more

powers to fight it. However, the declaration is a formal announcement that the WHO assesses **the impact of COVID 19** to have reached a new level.

What is an Endemic?

When a disease that exists permanently in a particular region or population then it is regarded as endemic e.g. 'Malaria' is a constant worry in parts of Africa.

What is an Epidemic?

When an outbreak of disease that attacks many peoples at about the same time and may spread through one or several communities.

3. **Sustainable Development Goals: 36 changes in global indicator framework**

Recently **thirty-six major changes** to the global indicator framework for the **Sustainable Development Goals (SDGs)** were approved and adopted by the United Nations Statistical Commission (UNSC). These changes took place at its **51st session** that concluded on **March 6, 2020, in New York.**

About the Changes

- These changes are based on the '**2020 comprehensive review**' conducted by the **UN Inter-Agency and Expert Group** on SDG Indicators (IAEG-SDGs) in **which eight indicators added and six deleted.**
- The revised global framework will have **231 indicators**, approximately the same number as in the original framework.
- The global indicator framework was adopted by the **UN General Assembly** on **July 6, 2017.**

Eight additional indicators were added across six SDG goals, i.e. **SDG 2, SDG 3, SDG 4, SDG 10, SDG 13 and SDG 16.** These include:

- **Indicator 13.2.2** on the total greenhouse gas emissions per year for the SDG target 13.2 to integrate climate change measures into national policies, strategies and planning.

- **Prevalence of anaemia in women aged 15-49 years**, by pregnancy status (percentage) under the **target 2.2** to end forms of **malnutrition by 2030**.
- A new indicator of reducing the **percentage of bloodstream infections** due to selected **antimicrobial-resistant** organisms has been added under the **Global health goal (SDG 3)**.
- **Indicator 10.7.3** on the number of migrants killed while attempting to cross maritime, land and air borders.
- **Indicator 10.7.4** on the proportion of the population who are refugees, by country of origin.

Six indicators across six SDG goals – 1, 4, 8, 11, 13 and 17 – have been deleted. These include:

- **Indicator 1.a.1** on the proportion of domestically generated resources allocated by the government directly to poverty reduction programs.
- **Indicator 4.2.1** on the proportion of children under five years of age who are developmentally on track in health, learning and psychosocial well-being, by sex.
- The portion of the indicator that measures progress for children between 0 and 23 months of age, which is currently in tier III was proposed for deletion by the IAEG.
- Under the SDG goal on combating climate change
 - the **indicator 13.3.2**, quantifying the number of countries that have communicated the strengthening of capacity-building for implementing adaptation, mitigation and technology transfer, and development actions have been deleted.

4. Sir Creek pact

The former Pakistan Minister Mr. Kasuri has recently said that Pakistan had invited former Prime Minister Manmohan Singh to sign an

agreement on Sir Creek in 2006. However, the agreement was not signed at that time.

About Sir Creek

- Sir Creek, originally **Ban Ganga**, is a **96 km tidal estuary** in uninhabited marshlands of **Indus river delta** on the border of India and Pakistan.
- It is named after Sir Creek who is a British representative.
- The Creek **opens in the Arabian Sea** and roughly divides the **Kutch region of Gujarat** from the **Sindh Province of Pakistan**.

What's the dispute?

- The dispute lies in the interpretation of the maritime boundary line between **Kutch and Sindh**.
- Before India's independence, the provincial region was a part of the **Bombay Presidency of British India**.
- But after India's independence in 1947, Sindh became a part of Pakistan while Kutch remained a part of India.
- Pakistan claims the entire creek as per paragraphs 9 and 10 of the **Bombay Government Resolution of 1914** signed between then the **Government of Sindh** and **Rao Maharaj of Kutch**.
- The resolution, which demarcated the boundaries between the two territories, included the creek as part of Sindh, thus **setting the boundary as the eastern flank** of the creek popularly known as **Green Line**.
- But India claims that the boundary lies mid-channel as depicted in another map drawn in 1925 and implemented by the installation of mid-channel pillars back in 1924.

Importance of Sir Creek

Apart from the strategic location, Sir Creek's core importance is fishing resources. Sir Creek is among the largest fishing grounds in Asia.

6. **Ex-Servicemen Contributory Health Scheme**

Raksha Rajya Mantri has given in a written reply about the Ex-Servicemen Contributory Health Scheme in Lok Sabha.

About the Ex-Servicemen Contributory Health Scheme

- It is a flagship scheme of Ministry of Defence launched in 2003.
- It aims to provide allopathic and AYUSH Medicare to Ex-servicemen pensioner and their dependents through a network of ECHS Polyclinics, Service medical facilities and civil empanelled/Govt. hospitals/AYUSH hospitals.
- It is structured on the lines of Central Government Health Scheme to ensure cashless transactions for the patients and is financed by the Government of India.
- It is managed through the existing infrastructure of the Armed Forces so as to minimize the administrative expenditure.
- The Central Organization of ECHS is located in Delhi and functions under the Chiefs of Staff Committee.
- The Scheme caters for medical care to all ESM pensioners including those earning Disability and Family Pension and their dependents, which includes

wife/husband, dependent legitimate children and wholly dependent parents.

8. **Attukal Pongala**

The Kerala government has recently decided to go ahead with "Attukal Pongala after the fresh guidelines in the backdrop of five fresh positive coronavirus cases being reported in the state.

About Attukal Pongala

- The Attukal Pongala held in Attukal Temple, Thiruvananthapuram is the largest congregation of women for a festival in the world.
- Pongala, which means ‘to boil over’, is the ritual in which women prepare sweet payasam (a pudding made from rice, jaggery, coconut and plantains cooked together) and offer it to the Goddess or ‘Bhagavathy’.
- The ritual can only be performed by women and the streets of the city are known to be jam-packed with faithful devotees during the time of the festival.
- The Goddess-fondly referred to as ‘Attukalamma’ is said to be appeased by this ritual.

1. **Epidemic Diseases Act of 1897**

Recently in a high-level meeting conducted by Cabinet Secretary has decided that all States/UTs should be advised by Health Ministry to invoke provisions of Section 2 of Epidemic Disease Act, 1897 so that Health Ministry advisories are enforceable.

About the Epidemic Diseases Act of 1897

The **Epidemic Diseases Act of 1897** was the British government's reaction to the bubonic plague that hit Mumbai.

Provisions of the 1897 Epidemic Diseases Act:

The Act, which consists of four sections, aims to provide "for the better prevention of the spread of Dangerous Epidemic Diseases."

Sections of the Act

- Section 2: It empowers state governments/UTs to take special measures and formulate regulations for containing the outbreak.
- Section 2A of the Act empowers the central government to take steps to prevent the spread of an epidemic
- Section 3: It provides penalties for disobeying any regulation or order made under the Act.
- These are according to section 188 of the Indian Penal Code (disobedience to order duly promulgated by public servant).
- Section 4: It gives legal protection to the implementing officers acting under the Act.

Examples of implementation:

- In 2018, the district collector of Gujarat's Vadodara issued a notification under the Act declaring the Khedkarmsiya village in Waghodia taluka as cholera-affected after 31 persons complained of symptoms of the disease.
- In 2015, to deal with malaria and dengue in Chandigarh, the Act was implemented and controlling officers were instructed to ensure the issuance of notices and challans of Rs 500 to offenders.

- In 2009, to tackle the swine flu outbreak in Pune, Section 2 powers were used to open screening centres in civic hospitals across the city, and swine flu was declared a notifiable disease.

Laws prevailing in other countries:

England

- In England, the Public Health (Control of Disease) Act 1984 was promulgated with the aim of creating specific delineated roles of different authorities to combat infectious diseases.
- The act provides for notification of infectious disease, the role and responsibilities of healthcare workers in identifying contagious individuals and a clear hierarchical chain in which the said identification is to be reported.

America

- The Public Health Services Act from the United States which also likes its English counterpart creates an administrative superstructure through which any public health emergency must be routed.
- The Act prepares for a nationwide epidemic by anticipating the need for additional manpower by creating a reserve corps to supplement commissioned corps on short notice.

2. **National Cybercrime Training Centre**

Union Home Minister launched a National Cybercrime Training Centre at the **35th Inception Day** of the National Crime Records Bureau.

About National Cybercrime Training Centre

- The National Cybercrime Training Centre is meant for professional-quality eLearning services on cybercrime investigation on large scale to police officers, judges, prosecutors and other stakeholders.
- The system will also generate alerts on the matching of recovered and stolen vehicles based on the national database of CCTNS.

About the National Crime Records Bureau

- It is an Indian government agency responsible for collecting and analyzing crime data as defined by the Indian Penal Code and Special and Local Laws.
- NCRB is headquartered in New Delhi.
- It is a part of the Ministry of Home Affairs, Government of India.

3. World Climate and Security report 2020

The **International Military Council on Climate and Security** has recently released the World Climate and Security report 2020.

About the Report

- The report is written from the vantage point of international military and security experts, providing a global overview of the security risks of a changing climate, and opportunities for addressing them.
- It recommends “climate-proofing” international security – including infrastructure, institutions and policies, as well as major emissions reductions to avoid significant-to-catastrophic security threats.

Highlights of the Report

- The reports contribute “**Key Risks and Opportunities**”

Risks

- Water insecurity a global security risk: Climate change-exacerbated water insecurity is already a significant driver of instability and will pose a significant or higher risk to global security by 2030.

Opportunities

- National, regional, and international security institutions and militaries around the world should advance robust climate resilience strategies.
- The international community should embrace a Responsibility to Prepare and Prevent framework, given unprecedented foresight capabilities regarding the unprecedented risks of climate change.

- This includes ensuring all levels of government and civil society, including all national, regional and international security institutions, are prepared for the security implications of climate change.

About the International Military Council on Climate and Security

- It is a group of senior military leaders, security experts, and security institutions across the globe, currently from 32 countries, dedicated to anticipating, analyzing, and addressing the security risks of a changing climate.
- These organizations form the Expert Group of the IMCCS.
- The group was founded and is administered by the Center for Climate and Security (CCS), an institute of the Council on Strategic Risks (CSR), in partnership with the:
 - French Institute for International and Strategic Affairs (IRIS)
 - The Hague Centre for Strategic Studies (HCSS)
 - The Planetary Security Initiative of the Netherlands Institute of International Relations (Clingendael).

4. National Supercomputer Mission

India has produced just three supercomputers since 2015 under the National Supercomputer Mission.

About National Supercomputer Mission

- It is a dedicated programme aimed at boosting the country’s overall computing facilities.
- The Ministry of Electronics and IT (MeitY) and Department of Science and Technology handle the National Supercomputer Mission.
- The mission’s nodal agencies are the Centre for Development of Advanced Computing (C-DAC), Pune, and the Indian Institute of Science (IISc), Bengaluru.
- The National Supercomputer Mission envisaged setting up a network of 70 high-performance computing facilities.

- Supercomputers Built under National Supercomputer Mission

 1. PARAM Shivay installed in IIT-BHU, Varanasi
 2. Second Supercomputer installed in IIT-Kharagpur
 3. PARAM Brahma, installed in IISER-Pune

- Globally, China continues to lead the supercomputer race by adding eight more supercomputers in the last six months taking its existing numbers to 227 followed by the US (119 supercomputers).

Topic- GS Paper 3–Science and Technology

Source- PIB

5. Methanotrophic bacteria

Scientists at Agharkar Research Institute (ARI), Pune have isolated 45 different strains of methanotrophic bacteria which have been found to be capable of reducing methane emissions from rice plants.

Possible impact

- Methanotrophs metabolize and **convert methane into carbon-dioxide.**
- They can effectively reduce the emission of methane, which is the second most important **greenhouse gas (GHG)** and **26 times more potent** as compared to carbon-dioxide.
- In rice fields, methanotrophs are active near the roots or soil-water interfaces.
- **Rice fields contribute to nearly 10% of global methane emissions.**
- Besides methane mitigation studies, methanotrophs can also be used in methane value addition (valorization) studies.
- **Bio-methane** generated from waste can be used by the methanotrophs and can be converted to value-added products such as single-cell proteins, carotenoids, biodiesel, and so on.

7. Long-term repo operation

The Reserve Bank of India has recently received ₹1.71 trillion in the third long-term repo operation (LTRO) conducted for an amount of ₹25,000 crores.

What is LTRO?

- It is a tool under which the central bank provides a one-year to three-year money to banks at the prevailing repo rate.
- It is accepting government securities with matching or higher tenure as the collateral.
- While the RBI's current windows of liquidity adjustment facility (LAF) and marginal standing facility offer banks money for their immediate needs ranging from 1-28 days, the LTRO supplies them with liquidity for their 1- to 3-year needs.
- LTRO operations are intended to prevent short-term interest rates in the market from drifting a long way away from the policy rate, which is the repo rate.

Why did RBI introduce LTRO?

- RBI introduced LTRO with a view to assuring banks about the availability of durable liquidity at a reasonable cost relative to prevailing market conditions.
- It also further encourages banks to undertake maturity transformation

smoothly and seamlessly so as to augment credit flows to productive sectors.

When will LTRO start?

- RBI will conduct LTRO from the fortnight beginning on February 15, at the policy rate.

How will it work?

- It is a measure that market participants expect will bring down short-term rates and also boosts investment in corporate bonds.
- These new measures coupled with RBI's earlier introduced 'Operation Twist' are an attempt by the central bank to manage bond yields and push transmission of earlier rate cuts.

1. COVID Emergency Fund

Recently the Prime Minister has proposed the creation of a COVID 19 emergency fund based on a voluntary contribution from SAARC nations.

India Response for COVID 19

- India is assembling a Rapid Response Team of doctors and specialists, along with testing kits and other equipment.
- India has set up an Integrated Disease Surveillance Portal to better trace possible virus carriers and the people they contacted.
- This Disease Surveillance software could be shared with SAARC partners.

About South Asian Association for Regional Cooperation (SAARC)

- The South Asian Association for Regional Cooperation (SAARC) was established with the signing of the SAARC Charter in Dhaka on 8 December 1985.
- Afghanistan became the newest member of SAARC at the 13th annual summit in 2005.
- **The Headquarters and Secretariat of the Association are at Kathmandu, Nepal.**

Members of SAARC

- It comprises of eight-member States: Afghanistan, Bangladesh, Bhutan,

India, Maldives, Nepal, Pakistan and Sri Lanka

- There are currently nine Observers to SAARC, namely: Australia, China, the European Union, Iran, Japan, the Republic of Korea, Mauritius, Myanmar and the United States of America.

2. State Disaster Response Fund

The Centre has recently said that it will treat the Novel Coronavirus outbreak as a notified disaster for the purpose of providing assistance under the State Disaster Response Fund.

- The Home Ministry has said in case of procurement of essential equipment, the expenditure will be incurred only from the SDRF and not the National Disaster Response Fund, NDRF.
- The total expenditure on equipment should not exceed 10 per cent of the annual allocation of the SDRF.

About the State Disaster Response Fund

- It is constituted under Section 48 (1) (a) of the Disaster Management Act, 2005, is the primary fund available with State Governments for responses to notified disasters.
- The Central Government contributes 75% of SDRF allocation for general category States/UTs and 90% for special category States/UTs (NE States, Sikkim, Uttarakhand, Himachal Pradesh, Jammu and Kashmir).
- The annual Central contribution is released in two equal instalments as per the recommendation of the Finance Commission.
- SDRF shall be used only for meeting the expenditure for providing immediate relief to the victims.

Disaster (s) covered under SDRF

- Cyclone, drought, earthquake, fire, flood, tsunami, hailstorm, landslide, avalanche, cloudburst, pest attack, frost and cold waves.

During Local Disaster

- A State Government may use up to 10 percent of the funds available under the SDRF for providing immediate relief to the victims of natural disasters that they consider to be 'disasters' within the local context in the State.
- These are not included in the notified list of disasters of the Ministry of Home Affairs subject to the condition that the State Government has listed the State-specific natural disasters and notified clear.
- The transparent norms and guidelines for such disasters with the approval of the State Authority, i.e., the State Executive Authority (SEC).

About the National Disaster Response Fund

- The National Disaster Response Fund (NDRF), constituted under Section 46 of the Disaster Management Act, 2005, supplements SDRF of a State, in case of a disaster of severe nature, provided adequate funds are not available in SDRF.

3. Uttar Pradesh Recovery of Damage to Public and Private Property Ordinance, 2020

The Uttar Pradesh government has recently notified the Uttar Pradesh Recovery of Damage to Public and Private Property Ordinance, 2020, promulgated by Governor Anandiben Patil.

About the Ordinance

- It is a stringent new law to recover compensation from those who damage public and private property during protests and riots.
- The owner of any private property or the head of the office concerned in respect of public property may file claims for compensation within three months of any incident that causes any damage during public protests, bandhs or riots.
- Claims for compensation will be decided by designated '**Claims Tribunals**' that will be authorized to

investigate complaints and assess the damage.

- Every order or award passed by the Claims Tribunal would be "final" and no appeal would be "maintainable" before any court.
- Also, no civil court will have the jurisdiction to entertain any question regarding the claims.

Composition of Claims Tribunal

- The chairperson of the Claims Tribunal would be a retired district judge.
- Its members would be of the rank of additional commissioner.
- It would have the power to attach the property of the respondents and publicize their names, addresses and photographs to warn the public against purchasing the property.
- The tribunal will have to adhere to the principles of natural justice.

Jurisdiction of Claims Tribunal

- The Claims Tribunal shall have all the powers of a civil court for the purpose of taking evidence on oath and enforcing the attendance of witnesses and compelling the discovery and production of documents and material objects.
- The tribunal also has the power to appoint a claims commissioner to estimate the damage caused and investigate liability to assist it in holding the inquiry.

Source- The Hindu

4. The state of Rampur

The Supreme Court ended India's longest-running civil dispute last year, and the process of evaluating the inheritance is currently ongoing fighting over the assets and legacy of Nawab Raza Ali Khan.

About the State of Rampur

- The state of Rampur was founded by Nawab Ali Muhammad Khan, the adopted son of Sardar Daud Khan, the chief of the Rohillas in Northern India.
- The Rohillas were Afghans who entered India in the 18th century as the Mughal Empire was in decline, and took control of Rohilkhand, at the time known as Katehr.

After Independence

- Rampur, under Nawab Raza Ali, was the first kingdom to accede to India in 1949, becoming the only Muslim-majority district in Uttar Pradesh.

Patrons of the arts, culture

- The Rampur royals have played an important role in the socio-cultural history of the Ganga-Yamuna belt.
- They run the Amir Raza Library in Rampur, once known as the official darbar of the Nawab, which is home to some 15,000 manuscripts in Arabic, Urdu, Persian and Turkish, as well as a seventh-century Quran.
- The library has also the extremely rare Persian translation of Valmiki's Ramayana, which is believed to have been Emperor Aurangzeb's personal copy.

Note: Rampur District is the only Muslim majority district in the state of Uttar Pradesh, according to the 2011 Census of India which is the 50.57% of Rampur population.

5. Remission of Duties and Taxes on Exported Products Scheme

Union Cabinet has recently given its approval for introducing the Scheme for Remission of Duties and Taxes on Exported Products (RoDTEP).

About the Scheme

- The scheme aims to reimburse taxes and duties paid by exporters such as value-added tax, coal cess, transportation cost among others which are not getting exempted or refunded under any other existing mechanism.
- It will replace the Merchandise Export from India Scheme (MEIS) that was found to violate the World Trade Organization rules as it was export-focused.

About Merchandise Exports from India Scheme

- It was introduced in the Foreign Trade Policy (FTP) 2015-20.
- Its objective is to offset infrastructural inefficiencies and associated costs involved in exporting goods which are manufactured in India including

products manufactured by the MSME Sector.

6. Sepsis

Sepsis is a life-threatening organ dysfunction caused by the body's immune system overreacting in response to an infection. This overactive, toxic response can lead to tissue damage, multiple organ failure and death.

The organism responsible for Sepsis

- Viruses, bacteria, fungi or parasites — sepsis can be triggered by a variety of pathogens.
- The causes of sepsis are usually pneumonia, wound infections, urinary tract infections or infections in the abdominal cavity.
- In addition to the known seasonal influenza viruses, other viruses that are highly infectious, such as coronaviruses, Ebola and yellow fever viruses, dengue, swine flu or bird flu viruses can also cause sepsis.

7. National Creche Scheme

Recently Minister of Women and Child Development has given in a written reply in the Lok Sabha about the National Creche Scheme

About National Creche Scheme

- The scheme was earlier named as Rajiv Gandhi National Creche Scheme is being implemented as a Centrally Sponsored Scheme through States/UTs. with effect from 1.1.2017.
- It provides daycare facilities to children (age group of 6 months to 6 years) of working mothers.

The salient features of the National Creche Scheme are as follows:

- Daycare Facilities including Sleeping Facilities.
- Early Stimulation for children below 3 years and pre-school education for 3 to 6 years old children.
- Supplementary Nutrition (to be locally sourced)
- Growth Monitoring
- Health Check-up and Immunization

9. **White Giraffe**

Recently, Poachers have killed two extremely rare white giraffes in northeast Kenya leaving just one such animal in the world.

About Giraffe:

Giraffes are most often found in savanna/woodland habitats and range widely throughout Africa.

Conservation Status

- The IUCN Status is: Vulnerable
- CITES: Appendix II

Note: The white appearance of the giraffe is due to leucism, a genetic condition that causes skin cells to have no pigmentation.

- The condition leucism, which leads to the white colour of these giraffes, is different from albinism, because of which animals lack melanin throughout their body.

1. **Herd immunity**

As Europe was declared the epicentre of the novel coronavirus outbreak last week, Britain announced Herd immunity, a different strategy to tackle the situation.

About Herd immunity

- It is also referred to as community immunity or herd protection.
- Herd immunity is when a large number of people are vaccinated against a disease, lowering the chances of others being infected by it.
- This is the government’s strategy to minimize the impact of COVID-19 i.e. to allow the virus to pass through the entire population so that we acquire herd immunity

- When a sufficient percentage of a population is vaccinated, it slows the spread of disease.
- World Health Organization (WHO) explains it as herd protection of the unvaccinated occurs when a sufficient proportion of the group is immune.

Effects

- The decline of disease incidence is greater than the proportion of individuals immunized because vaccination reduces the spread of an infectious agent by reducing the amount and/or duration of pathogen shedding by vaccines, retarding transmission.”

2. Madhya Pradesh Governor orders floor test

Madhya Pradesh's Governor has recently ordered a floor test in the state Assembly to allow the State Government to prove its majority.

About floor test

- A floor test is primarily taken to know whether the executive enjoys the confidence of the legislature.
- It is a constitutional mechanism under which a Chief Minister appointed by the Governor can be asked to prove majority on the floor of the Legislative Assembly of the state.

- As per the Constitution, the Chief Minister is appointed by the Governor of the state.
- When a single party secures the majority of the seats in the house, the Governor appoints the leader of the party as the Chief Minister.
- In case the majority is questioned, the leader of the party which claims the majority has to move a vote of confidence and prove the majority among those present and voting.
- The Chief Minister has to resign if they fail to prove their majority in the house.
- This happens both in the parliament and the state legislative assemblies.
- In situations, when there are differences within a coalition government, the Governor can ask the Chief Minister to prove majority in the house.

Composite floor test

- It is the test which is conducted only when more than one person stakes claim to form the government.
- When the majority is not clear, the governor might call for a special session to see who has the majority.
- The majority is counted based on those present and voting. This can also be done through a voice vote where the member can respond orally or through division voting.
- Some legislators may be absent or choose not to vote.
- In division vote, voting can be done through electronic gadgets, ballots or slips.
- The person who has the majority will form the government.
- In case of a tie, the speaker can also cast his vote.

Note: When no party gets a clear majority, the governor can use his discretion in the selection of the chief ministerial candidate to prove the majority as soon as possible.

Topic- GS Paper 2 –Governance

3. Demand and Import of Oil

Union Minister of Petroleum & Natural Gas has informed about the Demand and Import of Oil in the Lok Sabha.

Some Statistics

- The consumption of petroleum products in the year 2018-19 was 213.2 MMT.
- The percentage of Import Dependency on Oil based on the consumption of petroleum products during 2018-19 was about 83.8%.

Indian Strategic Petroleum Reserve Limited

It is a Government of India Special Purpose Vehicle, has established Strategic Petroleum Reserves (SPR) facilities with a total capacity of 5.33 Million Metric Tonnes (MMT) at 3 locations, namely

1. Vishakhapatnam
2. Mangaluru
3. Padur (Karnataka)

- As per the consumption pattern of 2017-18, the total capacity is estimated to provide for about 9.5 days of crude oil requirement.
- Oil Marketing Companies (OMCs) currently have stock for 64.5 days. Hence, total capacity storage of petroleum products is 74 days.
- Government has given 'in principle' approval for establishing two additional SPR facilities with a total storage capacity of 6.5 MMT at two locations namely
 1. Chandikhol in Odisha (4 MMT)
 2. Padur in Karnataka (2.5 MMT).

Topic- GS Paper 1 –Economic Geography

4.Efforts to Boost Defence Sector

The efforts made by the Government to boost the country's defence sector during the last two years are as follows:

(i)Foreign direct investment

- Recently the FDI Policy has been revised and under the revised policy.
- Foreign Investment is allowed under automatic route upto 49% and above 49% through government route, wherever it is likely to result in access to modern technology or for other reasons to be recorded.

(ii)Defence Procurement Procedure (DPP)

- Defence Procurement Procedure (DPP) was revised in 2016.
- A new category of procurement 'Buy {Indian-IDDMM (Indigenously Designed, Developed and Manufactured)}' has been introduced in DPP-2016 to promote indigenous design and development of defence equipments.
- This category has been accorded topmost priority for procurement of Capital equipment.
- Besides this, preference is being given to 'Buy (Indian)' and 'Buy & Make (Indian)' categories of capital acquisition over 'Buy (Global)' & 'Buy & Make (Global)' categories.

(iii)"Make" Procedure

- In February 2018 a separate procedure for 'Make-II' sub-category has been notified wherein a number of industry-friendly provisions have been introduced.
- This effort of the Government to promote industry participation in indigenous development of defence items has yielded an extremely encouraging response.
- Make-II Procedure for implementation at OFB/DPSUs has also been notified in February 2019.

(iv)Innovations for Defence Excellence Framework

- This framework was launched with the aim to achieve self-reliance and to foster innovation and technology development in Defence and Aerospace Sector by engaging

Industries including MSMEs, startups, individual innovators, R&D institutes and academia.

(v) Indigenisation policy

- Government has notified a Policy for indigenisation of components and spares used in Defence Platforms in March 2019.
- The objective is to create an industry ecosystem which is able to indigenize the imported components (including alloys & special materials) and sub-assemblies for defence equipment and platforms manufactured in India.

(vi) Defence Corridors

- Government has decided to establish two defence industrial corridors to serve as engines of economic development and growth of defence industrial base in the country.
- They span across Chennai, Hosur, Coimbatore, Salem and Tiruchirappalli in Tamil Nadu and Aligarh, Agra, Jhansi, Kanpur, Chitrakoot and Lucknow in Uttar Pradesh.

(vii) Mission Raksha Gyan Shakti

- This framework aims to provide a boost to the IPR culture in the indigenous defence industry.

Topic- GS Paper 3 –Defence

5. Mission Solar Charkha

The Ministry of Micro, Small and Medium Enterprises (MSME) has launched the Mission Solar Charkha in 2018-19 for implementation of 50 Solar Charkha Clusters across the country.

Objective:

- To ensure inclusive growth by the generation of employment, especially for women and youth and sustainable development through solar charkha cluster in rural areas.
- To boost the rural economy and help in arresting migration from rural to urban areas.
- To leverage low-cost, innovative technologies and processes for substance.

Project Coverage

- The target is to cover 50 solar clusters across the country, whereby approx. 1,00,000 artisans/beneficiaries are to

be covered under the various scheme components.

- The scheme shall be implemented in all states of India.
- The geographical distribution of the clusters throughout the country, with at least 10% located in the North Eastern Region (NER), J&K and hilly states, will also be kept in view.
- Special focus will be given to 117 aspirational districts for soliciting project proposals under the scheme.

Current Status

- Till date, 10 projects have been approved under Mission Solar Charkha.
- One Solar Charkha cluster has been identified in Andhra Pradesh.
- The scheme envisages generating direct employment to nearly one lakh persons.

Project Intervention

One cluster of Solar Charkha would involve a maximum subsidy of Rs. 9.599 crore. The scheme would cover three types of project interventions.

- **Capital Subsidy for individual and for Special Purpose Vehicle (SPV)**
- **Interest subvention for Working Capital:** It is proposed to have a ceiling of 8% of interest subvention on working capital irrespective of the interest rates being charged by the Banks/Financial Institutions for a period of six months.
- **Capacity building**

6. Gross Enrolment Ratio (GER) for females

Union Minister for Human Resource Development informed Lok Sabha about Gross Enrolment Ratio (GER) for females.

Related Information

- The Gross Enrolment Ratio (GER) for females in higher education is higher than the National Gross Enrolment Ratio (GER).
- As per All India Survey of Higher Education 2018-19, females constitute 48.6% of the total enrolment in higher education and the Gross Enrolment Ratio for females in

higher education at 26.4% is higher than the national GER of boys at 26.3%.

- The Gender Parity Index (GPI) has increased during the last 5 years, from 0.92 in 2014-15 to 1 in 2018-19.
- As per All India Survey on Higher Education (AISHE) 2018-19, there are 39931 colleges in India, out of which 60.53% are located in rural areas.
- Further, the majority of the colleges provide higher education to both males and females and 11.04% of colleges are exclusively for females.

7. Oculudentavis khaungraae: tiny Dinosaurs

Scientists have identified a 100-million-year-old flying dinosaur called Oculudentavis khaungraae encased in amber in Myanmar that may be the smallest yet discovered.

- The preserved skull is just 7.1mm (less than one-third of an inch) long.
- It would have been smaller than the smallest bird alive today, the bee hummingbird.
- Despite its minuscule size, researchers believe it hunted insects, using its sharp teeth and large eyes to home in on prey

Topic- GS Paper 3 –Science and Technology

Source- Indian Express

8. South India’s vultures

The South India Vulture Conservation Group has come up with a blueprint for the

conservation of vulture population in five South Indian States.

Conservation Strategy

- Need to restrict the availability of Nonsteroidal Anti-Inflammatory Drugs (NSAID) for veterinary use.
- NSAIDs had wiped out about 90 % of vulture population and disposal of cattle waste in forest peripheries was still rampant.
- To create a vulture safe zone in each south Indian State.

Conservation Status of Indian Vultures

- White-backed vulture, long-billed vulture, slender-billed vulture and red-headed vulture (out of nine vulture species in India) are listed as critically endangered by the IUCN and also listed in Annexure 1 of the Convention on Migratory Species framework.
- The entire vulture is in the Schedule-1 of the Wildlife Protection Act.
- Except for slender-billed vulture, the three other critically endangered species are found in the Moyar valley in the Nilgiris.

Topic- GS Paper 3 –Environment

9. Indian Culture Portal

Minister of State (I/c) of Culture and Tourism has informed the Lok Sabha about the Indian Culture Portal.

About the Indian Culture Portal

- Indian Culture Portal was launched on 10th December 2019 to showcase information about the rich cultural heritage of India across the globe.

- The Indian Culture Portal is available in two languages i.e. Hindi and English.
- The portal will create awareness about both the tangible and intangible cultural heritage of India.
- The portal, which comprises mainly of rare books, e-books, manuscripts, artefacts from museums, virtual galleries, archives, photo archives, gazetteers, Indian National Bibliography, videos, detailed accounts of Indian UNESCO World Heritage site.
- It also comprises of musical Instruments of India, write-ups and beautiful pictures on cuisines, festivals, paintings, folk art and classical art from different States of India etc.

1. Unnat Bharat Abhiyan

Why in news?

Recently, Union Minister for Human Resource Development has informed about the 'Unnat Bharat Abhiyan' in a written reply in the Lok Sabha.

Objective of the Abhiyan

To involve professional and other higher educational institutions of the country in the process of indigenous development of self-sufficient and sustainable village clusters in tune with the notion of '**GrāmSwaraj**' propounded by Mahatma Gandhi. It aims to create a vibrant relationship between society and the higher educational institutes.

उन्नत भारत अभियान
UNNAT BHARAT ABHIYAN

About the Unnat Bharat Abhiyan

- It is a flagship programme of the **Ministry of Human Resources Development**, with the intention to enrich Rural India.
- It was launched in 2014 by the Ministry of Human Resource Development (HRD) and its upgraded version **Unnat Bharat Abhiyan 2.0** was launched in 2018.
- **IIT Delhi** has been designated to function as the **National Coordinating Institute** for this programme.
- The Ministry intends to extend the coverage to all the reputed Higher Educational Institutes, in a phased manner.
- Each selected institute would adopt a **cluster of villages/panchayats** and gradually expand the outreach over a period of time.

What impact it is expected to create in society?

- To engage the faculty and students of **Higher Educational Institutions (HEIs)** in identifying development issues in rural areas and finding sustainable solutions for the same.
- Identify & select existing innovative technologies, enable customization of technologies, or devise implementation method for innovative solutions, as required by the people.
- To allow HEIs to contribute to devising systems for smooth implementation of various Government programmes.

About Unnat Bharat Abhiyan 2.0

- It is the upgraded version of Unnat Bharat Abhiyan 1.0.
- The scheme is extended to all educational institutes; however, under Unnat Bharat Abhiyan 2.0 Participating institutes are selected based on the fulfilment of certain criteria.

Topic- GS Paper 2–Governance

Source- PIB

2. Grand Ethiopian Renaissance Dam

Ethiopia is building one of the largest dams in the world named Grand Ethiopian Renaissance Dam.

About the Grand Ethiopian Renaissance Dam

- It is formerly known as the **Millennium Dam** and sometimes referred to as **Hidase Dam**.
- It is a **gravity dam** on the **Blue Nile River** in Ethiopia that has been under construction since 2011.
- **Location:** It is in the **Benishangul-Gumuz Region** of Ethiopia, about 15 km east of the border with Sudan.
- The dam will be the **largest hydroelectric power plant in Africa** when completed, as well as the **seventh-largest in the world**.

What is a gravity dam?

- A **gravity dam** is a dam constructed from **concrete or stone masonry** and designed to **hold back water by primarily using the weight of the material alone** to resist the horizontal pressure of water pushing against it.
- Gravity dams are designed so that **each section of the dam is stable** and independent of any other dam section.

Contentious issue

- The contentious issue around the **GERD, Africa's biggest hydropower project**, concerns control of the flow of water in the world's longest river among the riparian states.
- **Ethiopia, Africa's second-most populated country** and a manufacturing hub, views the mega-dam as a symbol of its sovereignty.
- **Egypt fears** the project will allow Ethiopia to **control the flow of Africa's longest river**.
- Hydroelectric power stations do not consume water, but the speed with

which Ethiopia fills up the dam's reservoir will affect the flow downstream.

3. Jasmonic acid

Why in news?

Researchers in the United States have discovered a communication network in plants that helps them respond to a hormone involved in pest resistance. They observed that the hormone called jasmonic acid is particularly important for a plant's defence response against fungi and insects.

Jasminum grandiflorum

Methyl jasmonate

Broad beans (*Vicia faba*)

(-)-Jasmonic acid

Broad beans fruits

(+)-7-iso jasmonic acid

Other findings by the Scientists

- The study team could identify genes important for the plant's response to jasmonic acid, and for the cellular cross-communication with other plant hormone pathways.
- According to the scientists, the genes MYC2 and MYC3 rose to the top in

their degree of importance across the system.

- They said the two genes are involved in producing proteins that regulate the activity of thousands of other genes.
- It also helped them to understand which genes are turned on and off during a plant's defence response.

Ultimately, the process helps in identifying breeding crops that are able to better withstand attacks from pests.

4. Usage of Modern Contraceptives

Why in news?

The Minister of State (Health and Family Welfare) stated about the usage of Modern Contraceptives in the Rajya Sabha.

GoI Measures

In this regard, measures taken by the Government to increase the availability, awareness and usage of modern contraceptives:

(i) Mission Parivar Vikas

The Government has launched Mission Parivar Vikas on 10th November 2016 for substantially increasing access to contraceptives and family planning services in 146 high fertility districts with Total Fertility Rate (TFR) of 3.

(ii) New Contraceptive Choices

- New contraceptives viz. Injectable contraceptive (Antara program) and Centchroman (Chhaya) have been added to the existing basket of choices in 2015-16.
- A new method of IUCD insertion immediately after delivery i.e. post-partum IUCD (PPIUCD) has been introduced in 2010.
- Emphasis on Post pregnancy Family Planning services which includes promotion of Post-Partum and Post-Abortion contraception.

Redesigned Contraceptive Packaging:

The packaging for Condoms, OCPs and ECPs has been improved and redesigned since 2015 in order to increase the demand for these commodities.

Family Planning Logistic Management and Information System (FP-LMIS): It is a dedicated software launched in 2017, to ensure smooth forecasting, procurement and distribution of family planning commodities across all the levels of health facilities.

About the National Family Planning Indemnity Scheme

- In this scheme, the clients are insured in the eventualities of death, complication and failure following sterilization.
- The scheme was introduced in 2005 and implemented through an insurance company.
- It was revised in 2013 and is now being operated by the state governments directly with NHM funding.

About the Clinical Outreach Teams (COT) Scheme

The scheme has been launched in 146 Mission ParivarVikas districts from December 2017 for providing family planning services through mobile teams from accredited organizations in far-flung, underserved and geographically difficult areas.

Topic- GS Paper 2–Governance

5. Polymerase chain reaction

Why in news?

Recently the **Indian Council of Medical Research (ICMR)** has said designated labs will use the **conventional real-time polymerase chain reaction (PCR)** test for **SARS-COV-2**.

About Polymerase chain reaction

- It uses a technique that creates **copies of a segment of DNA**. 'Polymerase' refers to the enzymes that make the copies of DNA.
- The '**chain reaction**' is how the DNA fragments are copied, exponentially — one is copied into two, the two are copied into four, and so on.
- **Kary Mullis**, the American biochemist who **invented the PCR technique**, was awarded the **Nobel Prize for Chemistry in 1993**.

About Indian Council of Medical Research

- It is the apex body in India for the formulation, coordination and promotion of biomedical research is one of the oldest and largest medical research bodies in the world.
- The ICMR is funded by the Government of India through the Department of Health Research, Ministry of Health and Family Welfare.

Topic- GS Paper 3-Science and Technology

6. Former CJI Ranjan Gogoi nominated to Rajya Sabha

Recently the former Chief Justice Ranjan Gogoi has been nominated as a member of Rajya Sabha.

- Gogoi headed a five-judge bench that gave the verdict on the sensitive Ayodhya land dispute on 9 November last year
- **Justice Gogoi** was the **46th Chief Justice of India**.

Constitutional Provision

- Under **Article 80 of the Constitution**, Rajya Sabha is composed of **not more than 250 members**, of whom **12 are nominated** by the **President of India**.
- The nominated members are usually amongst persons having special knowledge or practical experience in literature, science, art and social service.

Who are the nominated members?

- The nominated members are usually amongst persons having special knowledge or practical experience in literature, science, art and social service.
- Nearly a fifth of all Rajya Sabha seats are falling vacant and elections for them will take place on 26 March 2020.

Topic- GS Paper 2-Governance

Source- AIR

7. Premium subsidy Sharing Pattern

Why in news?

Agriculture Minister has informed the Lok Sabha that the premium subsidy sharing pattern between Centre and North Eastern States has been changed from 50: 50 to 90:10.

How it will impact?

- It will allow more States to notify the scheme and existing States to notify more crops and areas to facilitate greater coverage of farmers under the scheme.
- For remaining States, subsidy sharing pattern will continue as 50: 50.
- Also, the insurance companies will now be selected by the States for 3

years in a go instead of one year thereby increasing their commitment and accountability to the farmers.

Topic- GS Paper 2-Governance

Source- AIR

8. Starch-based materials developed to stop rapid blood loss during accidents

Why in news?

Scientists from the **Institute of Nano Science and Technology (INST)**, an autonomous institute under the **Department of Science & Technology, Ministry of Science and Technology in India**, have developed a starch-based 'hemostat' material.

Objective:

This will help to concentrate the natural clotting factors in blood by physically absorbing excess fluid.

How does it work?

- These are the **biodegradable microparticles** that combine to form a gel on a wound **offer significant improvements** over existing alternatives.
- The product has **increased absorption capacity**, improved absorption, **inexpensive, biocompatible** as well as **biodegradable**.
- **Hemostat materials** absorb excel fluid by concentrating the natural clotting factors in the blood that are critical for stopping the blood flow; however, the bleeding can restart when non-biodegradable materials are removed.

Topic- GS Paper 3-Science and Technology

Source- PIB

19.03.2020

1. Coronavirus and Contact Tracing

Why in news?

Recently the Indian Council of Medical Research has said that the contact tracing is an integral part of fighting the coronavirus epidemic on the ground.

About contact tracing

- Contract tracing is the process of identifying, assessing, and managing

people who have been exposed to a disease to prevent transmission.

- Any person who has had contact with the index patient under investigation/treatment for suspected, probable or confirmed case of SARS-COV-2, should be monitored for the appearance of symptoms.

Symptomatic contacts

- Persons who have fever and cough and a history of contact with a confirmed case within the last 28 days should be referred for isolation for strict infection control.

Asymptomatic contacts

- They must remain at home (home quarantine) for at least 28 days after the last exposure with the patient.
- The contacts should start monitoring their health and watch for symptoms of fever and cough, within 28 days of the last exposure to the patient, and maintain a list of people they are in contact with, on a daily basis.

Topic- GS Paper 3-Science and Technology

Source- The Hindu

2. Appropriation Bill

Why in news?

The Lok Sabha has recently passed the **Appropriation Bill 2020-21**. It will empower the government to draw over **₹110 lakh crore** from the Consolidated Fund of India for its working, as well as for the implementation of its programmes and schemes.

About Appropriation Bill

- It is a money bill that **allows the government to withdraw funds**

from the **Consolidated Fund of India** to meet its expenses during the course of a financial year.

- As per **Article 114 of the Constitution**, the government can withdraw money from the Consolidated Fund **only after receiving approval from Parliament**.

Passing of Appropriation Bill

- The government introduces the Appropriation Bill in the lower house of Parliament after **discussions on Budget proposals and Voting on Demand for Grants**.
- The Appropriation Bill is first **passed by the Lok Sabha** and then sent to the Rajya Sabha.
- The Rajya Sabha has the power to recommend any amendments in this Bill.
- However, it is the prerogative of the Lok Sabha to either accept or reject the recommendations made by the upper house of Parliament.
- The **unique feature of the Appropriation Bill** is its automatic repeal clause, whereby the Act gets repealed by itself after it meets its statutory purpose.
- It is to be noted that state assemblies also have to pass appropriation bills as a part of their respective budget exercises, so as to be enabled to withdraw money from the Consolidated Fund of India.
- Since India subscribes to the **Westminster system of parliamentary democracy**, the defeat of an Appropriation Bill (and also the Finance Bill) in a parliamentary vote would necessitate resignation of a government or a general election.

Note: The Finance Bill contains provisions on financing the expenditure of the government, and Appropriation Bill specifies the quantum and purpose for withdrawing money.

Topic- GS Paper 2–Polity

3. Danube-Oder-Elbe Canal

Why in news?

Recently the environmental organizations from different European Countries wrote a joint letter to the European Union's Commissioners for Environment, Virginijus Sinkevičius calling for the canal project to be halted.

About the Danube-Oder-Elbe Canal

- The Danube Oder Elbe canal is an **artificial waterway project** that seeks to connect the **Rivers Danube, Oder and Elbe** and provide a navigable link between the **Black Sea and the Baltic and North Seas**.

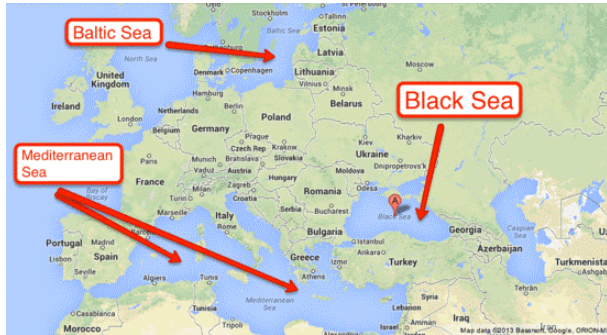

About European Commissioner for the Environment

- The **Commissioner for the Environment** is the member of the European Commission responsible for **EU environmental policy**.
- The **European Union** has made a number of environmental moves, partially in regard to climate change.
- Most notably it signed the **Kyoto Protocol in 1998**, set up its **Emission Trading Scheme in 2005** and is currently **agreeing to unilaterally cut its emissions by 20% by 2020**.

About Baltic Sea

- The Baltic Sea is positioned in Northern Europe.
- It is bordered by Sweden, Finland, Russia, Estonia, Latvia, Lithuania, Poland, northeastern Germany and Denmark.

About the Black Sea

- The Black Sea is an inland sea located between far-southeastern Europe and the far-western edges of the continent of Asia and the country of Turkey.
- It is bordered by Turkey, Bulgaria, Romania, Ukraine, Russia and Georgia.

Topic- GS Paper 1-Geography

4. Giant exoplanet: WASP-76b

Why in news?

Recently, astronomers have observed an exoplanet named Wasp-76b where they suspect it rains iron instead of water.

About Wasp-76b

- It is an exoplanet that is twice the width of our Jupiter whose name comes from the UK-led Wasp telescope system that detected it four years ago.
- It is 640 light-years from the Earth and is so close to its star that it takes just 43 hours to complete one revolution.

According to researchers, the iron rain happens because the exoplanet always presents the same face to the star which is called as tidally locked, meaning it takes as long to rotate around its axis as it does to go around the star

Note: Exoplanet means planet which orbits a star outside the solar system

7. Fake Currency

Why in news?

Recently, the Minister of State for Finance & Corporate Affairs has informed the Lok Sabha about the initiative taken by the government to curb fake currency notes.

As per data of the **National Crime Records Bureau (NCRB)**, there is a declining trend in **Fake Indian Currency Notes (FICN)** seized during the years **2017, 2018** and **2019**.

These initiatives are:

- **FICN Coordination Group**
- It has been formed by the Ministry of Home Affairs.
- Its objective is to share **intelligence/information among the security agencies** of the state/centre to counter the problem of circulation of fake currency cases.
- **Terror Funding and Fake Currency Cell**
- A Terror Funding and Fake Currency Cell (TFFC) have been constituted in the **National Investigation Agency (NIA)** to investigate terror funding and fake currency cases.
- A **Memorandum of Understanding (MoU)** has also been signed between India and Bangladesh to prevent and counter-smuggling and circulation of fake currency notes.

1. Potential Fishing Zone (PFZ) advisories

Why in news?

The Minister of State for Fisheries, Animal Husbandry has given a written reply in Lok Sabha about the Potential Fishing Zone advisories.

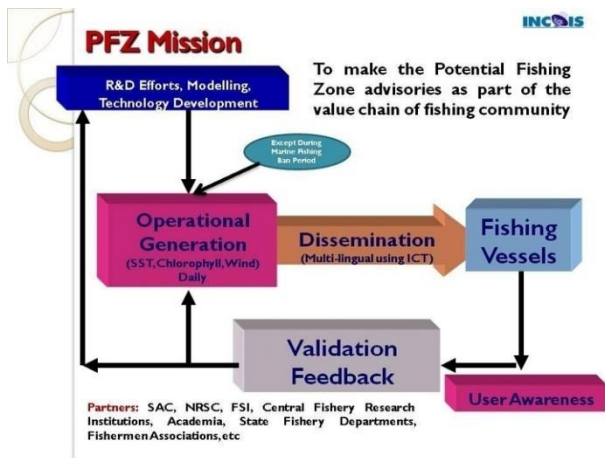

About Potential Fishing Zone

- These are the regions where the **fishes aggregate due to an abundance of food** and they are demarcated by tracing those regions in the ocean.
- These zones are identified using chlorophyll concentration obtained from **Indian Space Research Organization (ISRO)'s Oceansat-2 satellite** and the sea surface temperature from the **National Oceanic Administration (NOAA / USA satellites)**.

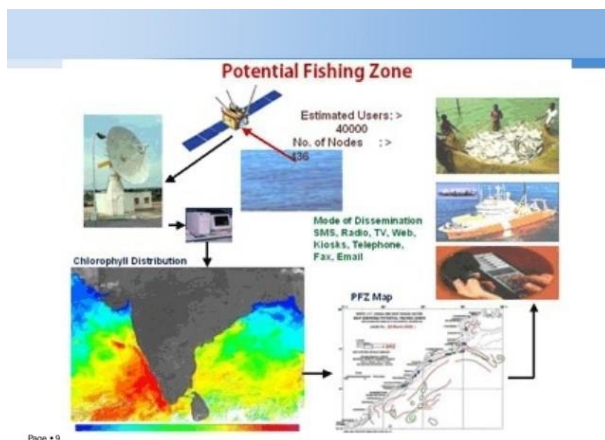

Background

- Indian Space Research Organization (ISRO) has developed this methodology for the generation of **fishery advisories** and transfer to **Indian National Centre for Ocean Information Services (INCOIS)** since 2002 as an operational service for providing PFZ advisories.
- **Oceansat Satellite data** from Indian Space Research Organization (ISRO) are used to prepare the Potential Fishing Zone (PFZ) advisories on the potential rich fishing areas and provide to the seafaring fishermen in all states.

How do 'Potential Fishing Zone' advisories work?

- It provides information on daily basis in the local language to the fishing community.
- The PFZ advisories help in an increased fish catch (2-5 times) and reducing searching time (about 30-70%), which leads to savings towards the cost of fuel.
- It will also help them in avoiding the unwanted search for fish shoals ultimately lead to protect the environment.

About Oceansat-2

It was launched in 2009 by the Indian Space Research Organization (ISRO) to provide service continuity for Oceansat-1.

Objectives:

- To study surface winds and ocean surface strata
- observation of chlorophyll concentrations
- monitoring of phytoplankton blooms

- study of atmospheric aerosols and suspended sediments in the water.

About Indian National Centre for Ocean Information Services (INCOIS)

- It is an autonomous organization under the Ministry of Earth Sciences.
- It is in Hyderabad & was established in 1999 under the MoES and is a unit of the Earth System Science Organization.
- It is mandated to provide the best possible ocean information and advisory services to society, industry, government agencies and the scientific community.

Topic- GS Paper 1-Geography

Source- PIB + ISRO.org

2. GreenCo Rating System

Why in news?

Recently the Union Ministry of Railways has informed about the applications of GreenCo Ratings on Workshops and Production Units of Indian Railways.

About GreenCo Ratings System

- GreenCo Rating System has been acknowledged in India's Intended Nationally Determined Contribution (INDC) document, submitted to United Nations Framework Convention on Climate Change (UNFCCC) in 2015.
- It is developed by Confederation of Indian Industry's (CII) Sohrabji Godrej Green Business Centre.

Features:

- It is the **“first of its kind in the World”** holistic framework that evaluates companies on the **environmental friendliness** of their activities using life cycle approach.
- **Implementation of GreenCo rating provides** leadership and guidance to companies on how to make products, services and operations greener.
- It helps the industrial units in identifying and implementing various possible measures in **terms of energy conservation, material conservation, recycling, utilization of renewable energy, Green House Gases (GHG) reduction.**

Topic- GS Paper 3–Environment

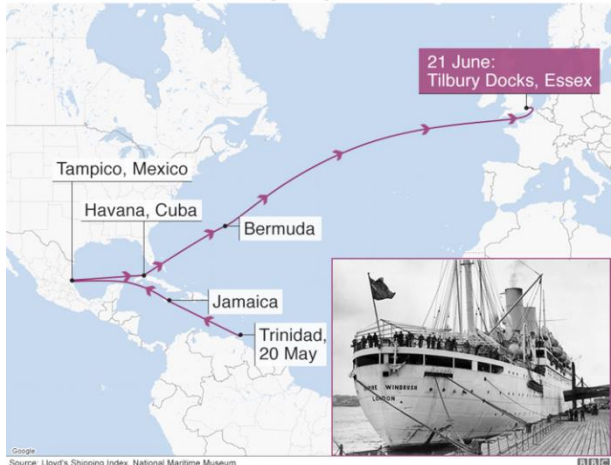

Source- PIB

3. Windrush scandal

Why in news?

The British government has recently **apologized for its treatment of Britons of Caribbean origin**, which were **wrongly detained** or deported for being **illegal immigrants**, after the publication of a **devastating official report.**

The Windrush's journey May-June 1948

What was the Windrush scandal?

- It is a 2018 British political scandal concerning people who were wrongly detained, denied legal rights, threatened with deportation, and, in at least 83 cases, wrongly deported from the UK by the Home Office.
- Many of those affected had been born British subjects and had arrived in the UK before 1973, particularly from Caribbean countries as members of the "Windrush generation."

About the Windrush generation

- It refers to migrants from the Caribbean Commonwealth who had come to the U.K. at a time when they had the right to remain indefinitely in Britain but had had their rights questioned under a toughened immigration regime.
- The Windrush generation is named after one of the many vessels that ferried some half a million people from the Caribbean islands to the U.K. in the late 1940s.

In 2018, the Caribbean migrants were told that they were in the United Kingdom illegally despite having lived and worked there for decades. Many citizens gathered in the past for the 'Windrush generation' solidarity protests.

5. Electricity production in India

Why in news?

According to a report, Karnataka is the **largest market for solar power** in the open access mode based on total installations at the end of December 2019.

- It was followed by **Andhra Pradesh, Maharashtra, Uttar Pradesh, Telangana** and **Haryana**.
- **Uttar Pradesh, Haryana, Tamil Nadu, Maharashtra, and Andhra Pradesh** have favourable policies for captive and group captive projects.
- The average open access tariff in these states range from **Rs 3.50 to Rs 5 per kWh** with a yearly **escalation of 1 per cent to 2 per cent** depending on contract terms.

India's status globally,

- As per the latest key world energy statistics published by the **International Energy Agency** in 2019, **India** is the **3rd largest producer** of electricity in the world.
- It also ranks **106th** in terms of per capita consumption in

About the International Energy Agency

- It is a Paris-based autonomous intergovernmental organization.
- It has been established in the framework of the Organization for Economic Co-operation and Development (OECD) in 1974 in the wake of the 1973 oil crisis.
- The IEA acts as a policy adviser to its member states but also works with non-member countries, especially China, India, and Russia.
- The Agency's mandate has broadened to focus on the "3Es" of effectual energy policy: energy security, economic development, and environmental protection.

6. Commission for Sub-Categorisation of OBCs

Why in news?

Minister of State for Social Justice and Empowerment has informed about the **Commission for Sub-Categorization of OBCs** in Rajya Sabha. The Government has notified the latest extension of the Commission to examine the issues of sub-categorization of Other Backward Classes, by six months, till **31st July 2020**.

Objective

This order aims to further **study the various Entries in the Central List of OBCs** and **recommend correction** of any repetitions, ambiguities, inconsistencies and errors of spelling or transcription.

About Commission for Sub-Categorization of OBCs

- The committee has been set up to examine sub-categorization of Other Backward Classes on **2nd October 2017** under **Article 340 of the Constitution** to examine the issues of the sub-categorization of **Other Backward Classes**.
- The committee has been set up under **Justice G Rohini**.

Tasks of the Committee:

1. To examine the extent of inequitable distribution of benefits of reservation among the castes or communities included in the broad category of Other Backward Classes with reference to such classes included in the Central List.
2. To work out the mechanism, criteria, norms and parameters in a scientific approach for sub-categorization within such Other Backward Classes; and
3. To take up the exercise of identifying the respective castes or communities or sub-castes or synonyms in the Central List of Other Backward Classes and classifying them into their respective sub-categories.
4. The sub-categorization of OBCs can ensure increased access to benefits such as reservations in educational institutions and government jobs for less dominant OBCs

7. Health Scheme for Jammu and Kashmir

Why in news?

Recently, the Lieutenant Governor of Jammu and Kashmir, Girish Chander Murmu has announced the rolling out the '**J&K Health Scheme**' for **universal health coverage**.

About Health Scheme for Jammu and Kashmir

- The scheme will provide **universal health coverage at free of cost**.
- It will **cover all the residents** of the union territory of J&K.
- The beneficiaries shall be **entitled to free health insurance cover of 5 lakh rupees per family per year on floater basis**.
- The scheme does not have any restriction based on family size, age or gender.
- All **pre-existing illnesses** shall also be covered.

Topic- GS Paper 2-Governance

1. Probe-free detection assay

Why in news?

- Researchers at the Indian Institute of Technology here have developed a method called **Probe-free detection assay** to detect COVID-19.
- The **National Institute of Virology, Pune**, is in the process of validating this test on clinical samples.

What is a probe?

- **Probes** are **complementary to the gene of interest** and labelled with a molecular beacon.
- A probe is a **single-stranded sequence of DNA or RNA** used to search for its complementary sequence in a sample genome.
- A probe is generally labelled with a **radioactive or chemical tag** that allows its binding to be visualized.

Therefore, in the case of COVID-19 detection, 'Probe-free detection assay' has been developed.

How will it benefit?

- Probe-free detection assay method will significantly reduce the test cost.
- This initiative will make the test toolkit for detection of COVID-19 affordable for large sections.
- Large clusters of society where the outbreak has taken place can be detected.

What tests are performed presently?

- Currently, the government of India has allowed private laboratories with NABL accreditation to carry out the tests for real-time PCR SA for RNA virus to conduct COVID-19 tests.
- These tests are in line with the *Indian Council of Medical Research(ICMR)*

About ICMR

- The Indian Council of Medical Research is the apex body in India for the formulation, coordination and promotion of biomedical research.
- The institute is one of the oldest and largest medical research bodies in the world.

About the National Institute of Virology

- The National Institute of Virology, Pune is an Indian Virology Research Institute.

- It is one of the translational science cell's part of the Indian Council of Medical Research (ICMR).
- Previously it was known as 'Virus Research Center' and was founded in collaboration with the Rockefeller Foundation.
- It has been designated as a WHO H5 reference laboratory for the South-East Asia region.

Note: The WHO H5 Reference Laboratory Network was established, as an ad hoc component of the WHO. Global Influenza Surveillance and Response System (GISRS), in response to the public health needs arising from avian influenza A(H5N1) infection in humans and influenza pandemic preparedness.

2. Resolution for removal of 'socialism' from Constitution

Why in news?

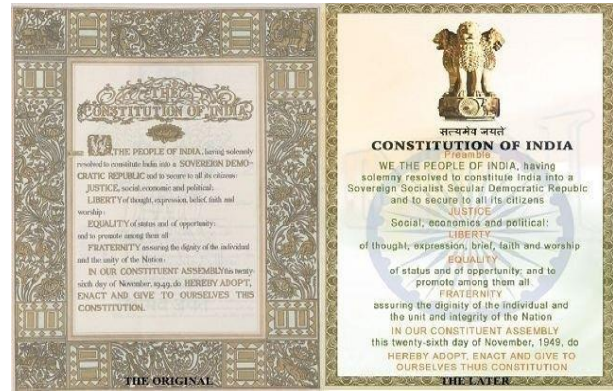

Recently a member of the Rajya Sabha, Rakesh Sinha has issued a notice to the Chairman to move a resolution to move in the House. The resolution is sought the removal of the phrase "socialism" from the preamble of the Constitution.

What the resolution about?

- The resolution aims to remove the word 'socialism' as the member finds it redundant in the current scenario.
- He wants to create a space for 'economic thinking' by dropping the word 'socialism'.

Preamble as of now

- The preamble of Constitution declares India to be a sovereign, socialist, secular and democratic republic.
- The terms 'socialist' and 'secular' had been inserted in the preamble by the 42nd Amendment Act, 1976 which was passed during the Emergency.

What does socialist emphasize?

'Socialist' means the achievement of socialist ends through democratic means.

- It is basically a 'Democratic Socialism' that holds faith in a mixed economy where both private and public sectors co-exist side by side.
- The Indian brand of socialism is a 'democratic socialism' and not a 'communistic socialism' (also known as 'state socialism') which involves the nationalization of all means of production and distribution and the abolition of private property.
- **Democratic socialism**, on the other hand, holds faith in a 'mixed economy' where both public and private sectors co-exist side by side.
- Democratic socialism aims to end poverty, ignorance, disease and inequality of opportunity.
- Indian socialism is a blend of Marxism and Gandhism, leaning heavily towards Gandhian socialism.

Can preamble be amended?

- Supreme Court in Kesavnanda Bharti case, 1973 pronounced that the preamble is a part of the Constitution and the Parliament has full rights to amend the Preamble.
- The Preamble has been amended only once so far, in 1976, by the 42nd Constitutional Amendment Act, which has added three new words— Socialist, Secular and Integrity—to the Preamble.

3. V K Paul Committee

Why in news?

The **government of India** has recently constituted a high-level technical committee of **Public Health Experts** for **COVID-19** to guide the **prevention and control activities** in the country.

About the V K Paul Committee

- It is a **twenty-one-member committee** headed by NITI Aayog member b.
- **Union Health Secretary** and **Director General Indian Council of Medical Research** is the Co-Chair.

Some additional information

- V.K. Paul is an incumbent member of the National Institution for Transforming India (NITI Aayog).
- In NITI Aayog, he leads the Health and Nutrition verticals.
- Paul has recently been appointed as the **Chairman of The Board of Governors of Medical Council of India**.
- He has played a pivotal role in formulating the **POSHAN Abhiyaan** and the **Ayushman Bharat initiative**.
- Prior to the NITI Aayog, he has been a member of the faculty at the **All India Institute of Medical Sciences, New Delhi**.
- Paul is an **internationally renowned** paediatrician, academic, medical research and public health exponent.
- He was conferred the prestigious **Ihsan Dogramaci Family Health Foundation Prize** by **WHO** at the **2018 World Health Assembly**.

Topic- GS Paper 2–health issue

4. Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme

Why in news?

The Union Cabinet has approved financial assistance to the Modified Electronics Manufacturing Clusters (EMC2.0) Scheme.

Objective:

- To develop the world class infrastructure along with common facilities and amenities through Electronics Manufacturing Clusters (EMCs).
- The Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme would support setting up of both Electronics Manufacturing Clusters (EMCs) and Common Facility Centers (CFCs).
- The Scheme will create a robust infrastructure base for electronic industry to attract flow of investment in ESDM sector and lead to greater employment opportunities.

How will the move be helpful?

The scheme will ensure availability of ready infrastructure and Plug & Play facility for attracting investment in electronics sector:

- EMCs are expected to aid the growth of the Electronics and Design Management (ESDM) sector.
- Jobs creation by the manufacturing units.
- Revenue in the form of taxes paid by the manufacturing units
- EMCs also expected to help development of entrepreneurial ecosystem, drive innovation.
- New investment in electronics sector is expected.
- EMCs will help catalyze the economic growth of the region by attracting investments in the sector, increasing

employment opportunities and tax revenues.

Where will the scheme be implemented?

- An Electronics Manufacturing Cluster (EMC) would set up in geographical areas of certain minimum extent, preferably contiguous, where the focus is on development of basic infrastructure, amenities and other common facilities for the ESDM units.
- The Common Facility Centre (CFC), there should be a significant number of existing ESDM units located in the area and the focus is on upgrading common technical infrastructure and providing common facilities for the ESDM units in such EMCs, Industrial Areas/Parks/industrial corridors.

About the Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme

- It is the scheme of Ministry of Electronics and Information Technology (MeitY) would support setting up of both Electronics Manufacturing Clusters (EMCs) and Common Facility Centers.
- The scheme would support setting up of both Electronics Manufacturing Clusters (EMCs) and Common Facility Centers (CFCs).
- These CFC focused on upgrading common technical infrastructure and providing common facilities for the ESDM units in such EMCs, Industrial Areas/Parks/industrial corridors.

5. Eighth Schedule of constitution

Why in news?

Recently the Union Government is taking positive steps for the listing of three languages **Bhojpuri, Rajasthani and Bhoti** into the Eighth Schedule of the Constitution.

About 8th Schedule of constitution

- It is a list of **official languages** recognized by the Constitution.
- The Eighth Schedule to the Indian Constitution contains a list of **22 scheduled languages**.
- These languages were added in the Eighth Schedule by the following amendments:

- **By 21st Amendment Act, 1967:** Assamese, Bengali, Gujarati, Hindi, Kannada, Kashmiri, Malayalam, Marathi, Odia, Punjabi, Sanskrit, Tamil, Telugu, Urdu, Sindhi
- **By 71st Amendment Act, 1992:** Konkani, Manipuri, Nepali
- **By 92nd Amendment Act, 2003:** Bodo, Dogri, Maithili, Santal
- The list had originally **14 languages** only but subsequently through amendments **8 new languages** were added.

6. Indo-US Science & Technology Forum

Why in news?

- Recently a **total of 14 students** from India will undertake a research internship at **Viterbi School of Engineering, University of Southern California, LA, USA**.
- The **Viterbi Program of IUSSTF** was developed between IUSSTF and the **Viterbi School of Engineering, University of Southern California (USC)**.

Objective

This program is a part of the **Government's endeavour to encourage research and development** amongst the bright **young Indian minds** to create long-term, sustainable, and vibrant linkages between India and the US.

About the Indo-US Science & Technology Forum

- It was **established under an agreement** between the **Governments of India and the United States of America in March 2000**.
- It is an autonomous bilateral organization jointly funded by both the Governments that promote Science, Technology, Engineering, and Innovation through substantive interaction among government, academia, and industry.
- The **Department of Science & Technology (DST)**, Governments of India, and the U.S. Department of State are respective nodal departments.

8. World Happiness Report 2020

Why in news?

- The United Nations has released the World Happiness Report 2020.
- The theme of **World Happiness Report 2020** is **Environment for Happiness**.

About the report

- The World Happiness Report is an annual report originally launched in 2012.
- It is released by the Sustainable Development Solutions Network for the United Nations on March 20, the UN's annual International Day of Happiness.
- The report ranks 156 countries on the state of global happiness using the Gallup World Poll and six factors namely
 1. Levels of GDP
 2. Life expectancy
 3. Generosity
 4. Social support
 5. Freedom
 6. Corruption income

India and the report

- India is ranked 144, way lower than its neighbours.
- Nepal is ranked 15; Pakistan is at the 29, Bangladesh at 107 and Sri Lanka at 130.
- It was at 140th position in 2019.

Highlights of the report

- Finland has been ranked first followed by Denmark and Switzerland.
- Zimbabwe, South Sudan and Afghanistan were among those classified as the least happy countries.
- Canada is ranked 11, Australia at 12 and the United Kingdom at 13.

- The US is in the 18th spot.

1. **National Supercomputing Mission**

Why in news?

- Recently, the **Department of Science and Technology (DST), Ministry of Science and Technology, New Delhi** officially declared that **14 new supercomputers** will be deployed this year. This initiative will undertake **4500 Crore-National Computing Mission (NSM)**.
- The National Supercomputing Mission (NSM) has gathered momentum and is moving fast to create a computer infrastructure and capacity building for India.

Objective:

With a transformative approach in supercomputing, it is aimed to develop the next generation of supercomputer expertise. It is a first of its kind of mission which attempts to boost the country's computing power.

About the National Supercomputing Mission

It is the joint initiative of the institutions:

- Ministry of Electronics and Information Technology (MeitY), New Delhi
- Department of Science and Technology (DST), New
- Centre for Development of Advanced Computing (C-DAC), Pune
- Indian Institute of Science (IISc), Bengaluru.
- CDAC and IISC are the mission implementing agencies

How will it impact?

- The mission was set up to provide the country with supercomputing infrastructure to meet the increased computational demands of academia, researchers, MSMEs, and startups by creating the capability design, manufacturing, of supercomputers indigenously in India.
- The target of the mission was set to establish a network of supercomputers ranging from a few Tera Flops (TF) to Hundreds of Tera Flops (TF).
- The three systems with greater than or equal to 3 Peta Flops (PF) in academic and research institutions of National importance across the country by 2022.

Places where these supercomputers assembled indigenously:

1. Param Shivay, IIT (BHU)
 2. Param Shakti , IIT-Kharagpur and
 3. Param Brahma, IISER, Pune.
- These are equipped with applications from domains like Weather and Climate, Computational Fluid

Dynamics, Bioinformatics, and Material science.

- Three more supercomputers are planned to be installed by April 2020, one each at IIT Kanpur, JN Centre for Advanced Scientific Research, Bengaluru and IIT Hyderabad. Doing so will enhance the supercomputing facility to 6 Peta Flops (PF).

2. Long-tailed macaques

Why in news?

- According to a study from IISER Mohali, the Long-tailed macaques have shown rich tool-use behaviour to simplify their efforts. The research was carried out in Great Nicobar Island.

Research findings

It was observed that males were more frequently involved in tool use than females. The crucial difference lies between the tool and object usage. A tool helps the user for better outcomes.

Significance of research

Though the long-tailed macaques are farther from human in relatedness than chimpanzees or apes. Yet, the study could offer a perspective on evolutionary origins of tool use behaviour.

About the Long-tailed macaques

- The lion-tailed macaque (*Macaca silenus*) are endemic to the Western Ghats of India.
- It is a diurnal animal meaning it is active exclusively in daylight hours.

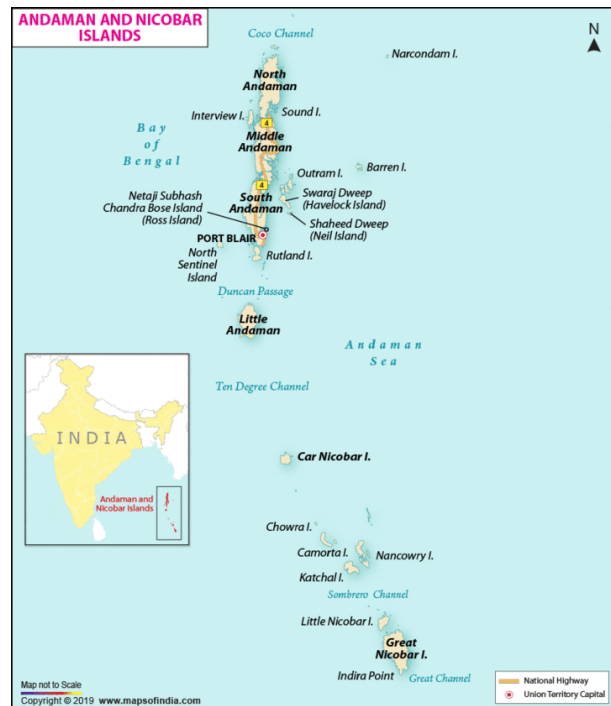

Conservation status:

- It is listed as Endangered by IUCN.
- Schedule I of the Wildlife (Protection) Act 1972
- It is also protected under Appendix I of CITES

About Great Nicobar

- **Great Nicobar is** the southernmost and largest of the Nicobar Islands of India. It is located in the north of **Sumatra** (one of the Sunda Islands of western Indonesia).
- The island was severely affected by the Indian Ocean Tsunami in the year 2004.
- The island is inhabited by **Shompen tribe, the indigenous people** of the Great Nicobar Island.
- **Great Nicobar Biosphere Reserve** is also located in the Indira Point, the southernmost point of India.

- The southernmost air station of the Indian Armed Forces is also established here. It is named as 'INS Baaz' naval air station. It is located near Campbell Bay under the joint services of Andaman and Nicobar

Command (ANC) of the Indian Armed Forces.

Topic- GS Paper 3–Environment

Source- Business Standard

3. Section 188 IPC

Why in news?

Nation-wide, the Janata Curfew was observed on 22nd March 2020 on Central govt's advice to enforce a full lockdown in districts to contain the spread of COVID-19. The orders issued have been framed under the Epidemic Disease Act, 1897.

- The Act lays down punishment as per **Section 188 of the Indian Penal Code, 1860**, for flouting such orders –leading to **imprisonment of up to 6 months or fine up to Rs 1000 or both**.
- In this regard, Maharashtra and many other state governments have announced Section 188 IPC curfew-like measures across the state for people to keep indoors.

Purpose

The orders are issued to curb the spread of the coronavirus and to enforce a full lockdown to avert the spread of COVID-19.

What is Section 188 of the Indian Penal Code?

- Section 3 of the Epidemic Diseases Act, 1897, provides penalties for disobeying any regulation or order made under the Act.
- These are according to Section 188 of the Indian Penal Code (disobedience to order duly promulgated by public servant).

Under Section 188, there two offences:

(i) Disobedience to an order lawfully promulgated by a public servant, If such disobedience causes obstruction, annoyance or injury to persons lawfully employed

(ii) Punishment: Simple Imprisonment for 1 month or fine of Rs 200 or both

- If such disobedience causes danger to human life, health or safety, etc the punishment would be simple Imprisonment for 6 months or fine of Rs 1000 or both
- According to the **First Schedule of the Criminal Procedure Code (CrPC), 1973**, both offences are

cognizable, bailable, and can be tried by any magistrate.

Why have governments in the country imposed these curbs?

- The novel coronavirus, which is known to spread mainly person-to-person (first emerged in China's Wuhan late last year) and has since spread to at least 177 countries and territories, infecting thousands.
- The virus has shown community transmission in many areas of the world.
- To counter its outbreak, several states in India enforced measures aimed at reducing public gatherings– called "social distancing"
- Offices, schools, concerts, conferences, sports events, weddings, and the like were ordered shut or cancelled around the world, including in many Indian states.

Topic- GS Paper 2–Governance

Source- PIB

4. Finance Bill

Why in the news?

- The Lok Sabha passed the **Finance Bill** by **voice vote without discussion** due to the Coronavirus outbreak.

What is a Finance Bill?

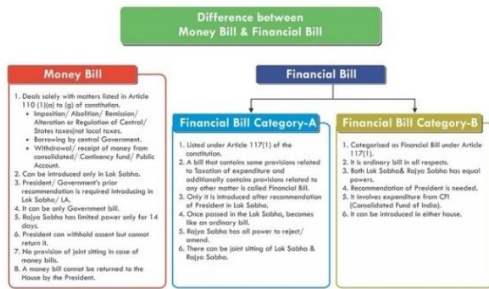

- Finance Bill is part of the budget every year. It is introduced to pave the way for financial proposals of the country for the financial year.

Key highlights

- The **Finance Minister** tables the **bill in the Parliament** immediately **after the Union Budget**.
- The government uses the **bill to amend the Finance Act** and **notify changes** in direct and indirect taxes, including proposals for (a) levy of new taxes (b) of existing tax structures to the Parliament.
- The govt in power seeks parliamentary approval for a set of proposals.
- **Rajya Sabha** cannot **amend** the Money **Bill** directly; it **can** only **recommend amendments** to the **bill**
- **Rajya Sabha** must return the Money **Bill** to Lok Sabha **within fourteen days** from its receipt. Lok Sabha may either accept or reject all or any of the

recommendations made by the Raja Sabha.

- The bill must be passed by Parliament **within 75 days** after its introduction.

- Finance Bill is accompanied by a Memorandum that contains the explanations of the provisions that are included in the bill.
- The bill is classified into three categories:
 - (a) The Money Bill – **Article 110**
 - (b) Finance Bill (I) – **Article 117 (1)**
 - (c) Finance Bill (II)- **Article 117 (3)**
 - The Finance Bill I and II contain provisions relating to taxation and expenditure.
 - Money Bill contains provisions related to borrowings, withdrawal of money from Contingency Fund and amendments to tax laws at the centre or state level. Also, appropriation of money out of the Consolidated Fund of India.

CRITERIA FOR BEING A MONEY BILL	
Article 110 of the Constitution defines the Money Bill	
<p>Money Bills are those Bills which contain "only" provisions dealing with all or any of the matters specified in Article 110 sub-clauses:</p> <ul style="list-style-type: none"> ➤ Imposition, abolition, remission, alteration, regulation of any tax ➤ Regulation of borrowing of money or the giving of any guarantee by govt ➤ Custody of the Consolidated Fund or the Contingency Fund of India, the payment of moneys into or the withdrawal of moneys from any such fund 	<p>A Bill which has any provision other than money provision (as mentioned in sub-clauses) is not a Money Bill</p> <p>Constitution gives power to the Lok Sabha Speaker to take a final call if any question arises whether a Bill is a Money Bill or not</p> <p>Speaker's decision is final and cannot be challenged in any court of law</p> <p>RS has limited powers with respect to Money Bills</p> <p>Lok Sabha has supreme power in terms of Money Bills</p>
<ul style="list-style-type: none"> ➤ Appropriation of moneys out of Consolidated Fund of India ➤ Declaring of any expense to be expenditure charged on the Consolidated Fund of India or the increasing of the amount of any such expenditure ➤ Receipt of money on account of Consolidated Fund of India or Public Account of India or the custody or issue of such money or the audit of the accounts of a State 	

Therefore, it is clear from the classification that money bills are simply a part of the financial bill. Hence, all money bills are financial bills, but all financial bills are not money bills.

Note: Only those financial bills are money bills which contain exclusively those matters which are mentioned in Article 110.

5. Digital e-Learning platforms Why in news?

Union Human Resource Development Minister has asked students to continue their learning through 'Digital e-Learning platforms' amid the COVID-19 outbreak.

Some of the digital initiatives/platforms of Ministry of HRD

(i) DIKSHA

- It offers teachers, students and parents engaging learning material relevant to the prescribed school curriculum.
- Diksha has more than 80000 e-Books for class 12th created by CBSE, NCERT and States/UTs which are available in multiple languages.

(ii) e-PATHSHALA

- It is a joint initiative of Ministry of HRD and NCERT to showcase and disseminate all educational e-resources including textbooks, audio, video, periodicals and a variety of other digital resources.
- In this web portal, NCERT has deployed 1886 audios, 2000 videos, 696 e- e-books (e-Pubs) and 504 Flip Books for classes 1st to 12th in different languages.

(iii) SWAYAM

- Study Webs of Active Learning for Young Aspiring Minds (SWAYAM) is an integrated platform for offering online courses, covering school (9th to 12th) to Postgraduate Level.

(iv) SWAYAM Prabha

- It is an initiative to provide 32 High-Quality Educational Channels through DTH (Direct to Home) across the length and breadth of the country on a 24X7 basis.

(v) **National Digital Library of India**

- It is a project to develop a framework of virtual repository of learning resources with a single-window search facility.

6. World Water Day 2020

Why in news?

Every year the **World Water Day** is observed on **March 22 by the United Nations**. This year the theme was **'Water and Climate Change'** and how the two are inextricably linked.

Campaign highlights

- The campaign shows how our use of water will help reduce floods, droughts, scarcity and pollution, and will help fight climate change itself.
- By adapting to the water effects of climate change, we will protect health and save lives. And, by using water more efficiently, we will reduce greenhouse gases.

Key messages by the UN:

- The UN suggested to keep water at the core of climate policymakers and incorporated it in the action plans.
- Water can help fight climate change. There are **sustainable, affordable and scalable water and sanitation** solutions.
- Everyone has a role to play. In our daily lives, there are surprisingly easy steps we can all take to address climate change.

Background

- In 1992, the United Nations Conference on Environment and Development took place in Rio de Janeiro.
- That same year, the **UN General Assembly** adopted a resolution by

which **March 22 of each year** was declared **World Day for Water**, to be observed **starting 1993**.

1. Hantaviruses

Why in News?

- According to the **Global Times**, a man from **China's Yunnan province** died from Hantavirus while on a bus to the **Shandong province**.

What is Hantavirus?

- Hantaviruses are **RNA viruses** transmitted to humans by **rodents (rodent-borne)**.
- Hantaviruses in the Americas are known as **"New World"** Hantaviruses and may cause **hantavirus pulmonary syndrome (HPS)**.
- Other hantaviruses, known as **"Old World," hantaviruses**, are found mostly in Europe and Asia and may cause **hemorrhagic fever with renal syndrome (HFRS)**.
- There is **no vaccine available** to prevent **Hantavirus infection or pulmonary syndrome**.
- **So far**, the transmission of hantavirus in the US has **not transferred from human-to-human contact**.

Note: The most important hantavirus in the United States that can cause HPS is the Sin Nombre virus, spread by the deer mouse.

Host-specific

- Each hantavirus serotype has a specific rodent host species

Hantavirus is spread to humans by particles of:

- rodent urine

- faeces
- saliva

Therefore, caution is needed from airborne particles containing these excretions.

2. Advocate Welfare Scheme

Why in news?

- Several lawyers have moved the Delhi High Court seeking direction to the city government to extend the benefit of '**Chief Minister's Advocates' Welfare Scheme**' to all lawyers enrolled with the **Bar Council of Delhi (BCD)**, irrespective of whether their names appear in the voter's list of the Capital or not.

About Advocate Welfare Scheme

- The Delhi government has made a **provision of Rs 50 crore budget for lawyers' welfare** under the '**Chief Minister's Advocate Welfare Scheme**' in 2019.
- An **e-library with 10 computers** will be set up **in all the District Courts** - Tis Hazari Court, Patiala House Court, Karkardooma Court, Saket Court, Dwarka Court and Rohini Court along with **e-journal, web editions and other facilities**.
- It also includes **SCC Online, Delhi Law Times** as well as **heavy-duty printers**.
- All courts will have the **facility of the creche**.
- Lawyers will get **group life insurance, family medical claim policy**, along with other facilities.

Key Highlights of the scheme

- Group (Term) insurance providing **life cover of Rs. 10,00,000/- per advocate**.
- Group **medi-claim coverage** for advocates, their spouses, two dependable children upto the age of 25 years, for a family floater sum insured of Rs 5,00,000/-

Eligibility:

- All those advocates who are practising in **Delhi** registered with **Delhi Bar Council** and **advocate-voters of**

Delhi will be able to apply for this scheme.

Topic- GS Paper 2-Governance

Source- The Hindu

3. Members of Parliament Local Area Development Scheme (MPLAD)

Why in news?

- The **Union government** has **relaxed norms for use of discretionary funds available** with **Indian lawmakers** for buying medical equipment that will be needed to fight COVID-19 outbreak.
- The **Ministry of Statistics and Programme Implementation (MoSPI)** has issued a circular granting **one-time dispensation for utilizing funds** under the **Members of Parliament Local Area Development Scheme**.

How will it impact?

- This will **facilitate Members of Parliament to recommend funds** for the purchase of equipment for Government Hospitals / Dispensaries for medical testing and screening of patients and also **facilitate in setting up other related facilities in their respective constituencies**.

The fund can be utilized for:

- **Infra-Red thermometers (Non-contact)** to enable doctors and medical personnel to record and track a person's temperature.
- **Personal Protection Equipment (PPE) Kits** to keep the medical personnel well-protected and enable them to function efficiently by minimizing the risk of transmission.
- **Thermal imaging scanners** or cameras for railway stations, airports and other points of entry which allow detecting of temperature from a safe distance.
- **CORONA testing kits** approved by M/o Health and Family Welfare
- **ICU Ventilator and Isolation/Quarantine Wards** within their approved facilities.
- **Face masks, gloves and Sanitizers** for medical personnel.
- Any other **medical equipment** recommended by the Ministry of

Health and Family Welfare for prevention, control and treatment of COVID-19.

About the Members of Parliament Local Area Development Scheme

- It is an **ongoing Central Sector Scheme** which was launched in 1993-94.
- The Scheme **enables the Members of Parliament to recommend works** for the creation of **durable community assets** based on locally felt needs to be taken up in their constituencies in the area of national priorities namely drinking water, education, public health, sanitation, roads etc.

Implementing agency

- The **Ministry of Statistics and Programme Implementation** has been responsible for the policy formulation, release of funds and prescribing monitoring mechanism for implementation of the Scheme.

Features

- The MPLADS is a **Plan Scheme fully funded by Government of India**.
- The annual MPLADS **fund entitlement per MP constituency is Rs. 5 crores**.
- MPs are to recommend every year, works costing at least **15 per cent** of the MPLADS entitlement for the year for areas inhabited by **Scheduled Caste population** and **5 per cent** for areas inhabited by **S.T. population**.

4. Kurzarbeit scheme

Why in news?

- Amid the all-round disruption caused to the economy by the novel coronavirus outbreak, a concern across the world is the **possibility of a loss of jobs**.
- Various governments have unveiled various measures to address such concerns, and one of the most talked-about is **Kurzarbeit, Germany's existing scheme**.

Objectives of the Scheme

- The Kurzarbeit scheme **aims to address workers** who are

impacted by the **loss of income due to shortened work hours** during such times.

- They can apply for **short-term work benefits under the scheme**, with the government stepping in to pay employees a part of their lost income.
- This helps the companies retain their employees instead of laying them off and allows the latter to sustain themselves for a **period of up to 12 months**.

How does the scheme work?

- **Kurzarbeit** is the German word for "short-work".
- The policy provides for a **short-time work allowance**, called **kurzarbeitgeld**, which partially **compensates for lost earnings during uncertain economic situations**.
- The policy was **rolled out during the 2008 economic crisis** while its origins date back as far as the **early 20th century, before and after World War I**.
- When companies face a loss of earnings due to unforeseen economic situations, they often need to cut back on their working hours or send some of their employee's home.

5. Adjourned sine die

Why in News?

- The Lok Sabha was **adjourned sine die** recently after the **passage of the Finance Bill, 2020** without any debate due to the **situation arising out of the Coronavirus pandemic**.

About the Adjournment sine die

- It means **terminating a sitting of Parliament for an indefinite period**.
- In other words, when the **House is adjourned without naming a day for reassembly, it is called adjournment sine die**.
- The power of adjournment, as well as adjournment sine, die lies

with the **presiding officer of the House**. He can also call a sitting of the House before the date or time to which it has been adjourned or at any time after the House has been adjourned sine die.

Who is a Presiding Officer?

- The **Speaker of the Lok Sabha** is the presiding officer of the Lok Sabha.
- The speaker is **elected generally in the first meeting of the Lok Sabha** following general elections.
- Serving for a **term of five years**, the speaker chosen from sitting members of the Lok Sabha and is by convention a member of the ruling party or alliance.

6. **The UK confirmed as the first co-chair of India-led global climate initiative**

Why in news?

- The UK has been confirmed as the first co-chair of the governing council of India-led global Coalition for Disaster Resilient Infrastructure (CDRI).

About the Coalition for Disaster Resilient Infrastructure (CDRI)

- It is a **voluntary international coalition of countries**, the **United Nations (UN) agencies**, multilateral development banks, the private sector, and academic institutions.
- It was launched at the **UN Secretary-General’s Climate Action Summit in New York**, the US in 2019.
- The **secretariat is based in New Delhi**, India.
- CDRI aims to bring together the largest number of state heads to generate commitments to combat the effects of climate change and resulting disasters.

Related Highlights

- The memorandum and regulations of the CDRI society were prepared by the **National Disaster Management Authority**.
- India has announced **480 crores** to the CDRI for the **next five years**.
- It will help fund **technical assistance and research projects**, setting up offices and covering recurring expenditures under the initiative.

Governing Council

- The Governing Council is the **highest policy-making body** of the CDRI.
- It is **co-chaired by India** and a representative of **another national government nominated by rotation every two years**.
- The UK Secretary of State for Business, Energy, and Industrial Strategy, **Alok Sharma**, **represented the UK at the first council meeting**.
- The **United Kingdom will host COP26 in Glasgow in November 2020**.

Topic- GS Paper 3–Environment

1. Consider the following statements about the Members of Parliament Local Area Development Scheme (MPLADS):

1) It was launched to enable the members of Parliament to recommend the works of developmental nature.

2) Currently, the nodal ministry for the scheme is the Ministry of Rural Development.

3) It emphasizes the creation of durable community assets, such as drinking water facility, and health and family welfare.

Which of the statements given above are correct?

- A. 1 and 2 only
- B. 2 and 3 only
- C. 1 and 3 only
- D. 1, 2 and 3

26.03.2020

1. MACS 4028: a semi-dwarf variety of wheat

Why in News?

- Scientists from **Agharkar Research Institute (ARI), Pune** have developed a **biofortified durum wheat variety MACS 4028**, which shows high protein content.

About the MACS 4028

- It is a **semi-dwarf variety**, which **matures in 102 days** and has shown the **superior and stable yielding ability** of 19.3 quintals per hectare.
- It is **resistant to stem rust, leaf rust, foliar aphids, root aphids, and brown wheat mite**.

- The wheat showed **high protein content** of about 14.7%, better

nutritional quality having zinc 40.3 ppm, and iron content of 40.3ppm and 46.1ppm respectively, good milling quality and overall acceptability.

- The MACS 4028 variety is also included by the **Krishi Vigyan Kendra (KVK) programme for United Nations Children's Fund (UNICEF)** to alleviate malnutrition sustainably.
- It also helps in boosting the **Vision 2022 "Kuposhan Mukh Bharat", the National Nutrition Strategy**.

About the National Nutrition Strategy

NITI Aayog published National Nutrition Strategy (NNS) in 2017. MoHFW, under the umbrella of the National Health Mission (NHM), has implemented many schemes and programmes to address malnutrition.

Objectives and targets:

- 3-point percentage/year **reduction in underweight prevalence in children (0-3 years) by 2022** from NFHS-4 levels. These include addressal at (i) Key strategic areas of action, (ii) Nutrition specific interventions and (ii) Funding (leveraging).
- 1/3rd reduction in anaemia in children, **adolescent & Women of Reproductive Age (WRA)**

Under the 3-point percentage, the 'Funding' is leveraged through:

- National Health Mission
- National Nutrition Mission
- Integrated Child Development Scheme
- Swachh Bharat Mission
- Increased provision of 25% Flexi funds for States in Centrally sponsored schemes

Other ongoing schemes and programs to prevent malnutrition in India:

- **"MAA- Mothers' Absolute Affection"** Government has implemented "MAA- Mothers' Absolute Affection" program to improve breastfeeding coverage and

appropriate breastfeeding practices in the country.

1. **National Iron Plus Initiative**

- It has been launched as an effective strategy for supplementation and treatment of anaemia in children, adolescents, pregnant and lactating women, in programme mode through a life cycle approach.
- Vitamin A supplementation (VAS) for children until the age of 5 years.
- Specific program to prevent and treat micronutrient deficiencies through Iron & Folic Acid (IFA) supplementation across life stages are:

1. Bi-weekly IFA syrup supplementation to children 6 – 59 months.
2. Weekly IFA tablet supplementation to children 5 – 10 years and adolescents 10 – 19 years.
3. IFA tablets to pregnant and lactating women.

- **National Deworming Day** is a fixed day strategy to administer Albendazole tablets to all the children in the age group of 1-19 years through the platform of AWCs and Schools.

- **Intensified Diarrhoea Control Fortnight (IDCF)** is being observed during July-August, increasing awareness about the use of ORS and Zinc in diarrhoea, aiming '**zero child deaths due to childhood diarrhoea**'.

1. **Rashtriya Bal Swasthya Karyakram (RBSK)**, aimed to detect nutrition deficiency among children and adolescents respectively with systematic efforts.

2. **Mission Indradhanush**

- Launched on 25th December 2014 to ensure high coverage of children with all vaccines in identified districts.
- It is aimed at achieving 90% full immunization coverage in India.

1. **Rashtriya Bal Swasthya Karyakram (RBSK)** provides child health screening for 30 common health conditions by expanding the reach of mobile health teams at the block level and establishment of

District Early Intervention Centres (DEICs) at the districts for early interventions services.

2. **Village Health and Nutrition Days** and **Mother and Child Protection Card** are the joint initiatives of the Ministry of Health & Family Welfare and the Ministry of Woman and Child Development.

- It is aimed to address the nutrition concerns in children, pregnant women and lactating mothers.
- Village Health and Nutrition Days (VHNDs) are monthly days held at village level in Anganwadi centre to bring awareness and desired changes in the dietary practices.
- It also emphasizes on the promotion of breastfeeding.

Note: Recently National Nutrition Mission has been approved under the Ministry of Women and Child Development for addressing malnutrition status of the country comprehensively.

2. **Indelible ink**

Why in the news?

- Election Commission has recently decided to allow usage of indelible ink on persons for stamping for home quarantine by health authorities because of COVID-19.

About the Indelible ink

- It is a **purple-coloured ink** which is applied on the **left-hand index finger of the voter** in a polling booth.
- Once applied, the ink cannot be **removed by any chemical, detergent, soap or oil** for several months.

- It is popularly known as **voter's ink**, used in the general elections.
- The **Mysore Paints and Varnish Limited** is the sole supplier of this ink.

Chemical constituents

- Its main constituent is **silver nitrate** (vary between 7% to 25 %,) which reacts with the skin protein and makes a strong bond.
- It leaves a **dark stain**, which remains for several days to even weeks but will not harm your skin.
- The mark will wear off only **when the old skin cells begin to die** and are replaced by new ones.

3. WHO launches global mega trial 'Solidarity' of the four most promising coronavirus treatments

Why in the news?

- The World Health Organization (WHO) has recently announced a sizeable global trial, called **SOLIDARITY**.

Objectives

- The trial consists of the study, testing, and development of antidote against coronavirus through four most promising therapies, which are as follows:
- **Remdesivir Compound** This experimental **antiviral compound** was **widely used to combat Ebola** and **other dangerous viruses** in the past.

1. **Chloroquine and hydroxychloroquine:**

This is used to treat patients suffering from malaria. Indian Council for Medical Research (ICMR) has also recommended this for healthcare workers and caregivers looking after positive COVID-19 patients.

2. **Combination of lopinavir and ritonavir**

- This drug combination is used for treating human immunodeficiency virus (HIV).
- This combination slows down the process of deterioration of organs.

- In India, it was used to treat the first case of coronavirus, who were a couple from Italy.

3. **Ritonavir/lopinavir plus interferon-beta**

- It combines the two antivirals with interferon-beta, a molecule involved in regulating inflammation in the body.

4. Agencies for approving diagnostic kits in India

Why in the news?

- The **Indian Council for Medical Research (ICMR)** has recently approved three other centres, alongside the **National Institute of Virology (NIV)**, as agencies for approving diagnostic kits.

These are:

1. National AIDS Research Institute, Pune;
 2. National Institute of Cholera and Enteric Diseases, Kolkata
 3. National Institute of Pathology, New Delhi
- Before that, the rules require that only kits approved by the **U.S. Food and Drug Administration (FDA)** and **European CE** be allowed, but now this was no longer mandatory.
 - **Mylab**, a diagnostic kit maker in Pune, was the first such **indigenous maker of kits** to be validated.

About Indian Council for Medical Research

- The Indian Council of Medical Research (ICMR), the apex body in India for the formulation, coordination and promotion of biomedical research.
- The council promotes biomedical research in the country through intramural as well as extramural research.
- The Government of India funds the ICMR through the Department of Health Research, Ministry of Health and Family Welfare.

5. Laser surface micro-texturing

Why in the news?

- **International Advanced Centre for Powder Metallurgy & New Materials (ARCI)** has developed **ultrafast laser surface texturing technology**, which can improve the fuel efficiency of internal combustion engines.

About the Laser surface micro-texturing

- This technology provides **precise control of the size**, shape and density of micro-surface texture features has gained momentum as a way to control friction and wear.

How do these technologies work?

- In this technology, a **pulsating laser beam** creates **micro-dimples or grooves** on the surface of materials in a very controlled manner.
- Such textures can trap wear debris when operating under dry sliding conditions and sometimes provide effects like enhancing oil supply (lubricant reservoir) which can lower friction coefficients and may enable reduced wear rate.

Source- Indian Express

6. Kuril islands

Why in the news?

- Recently U.S. authorities put out tsunami warnings after an earthquake of magnitude 7.8 struck off **Russia's Kuril Islands**.

About the Kuril Islands

- The **Kuril Islands** or Kurile Islands is a **volcanic archipelago** in **Russia's Sakhalin Oblast**.
- It stretches **approximately 1,300 km (810 mi)** northeast from **Hokkaido, Japan to Kamchatka, Russia, separating the Sea of Okhotsk from the North Pacific Ocean**.
- There are 56 islands and many minor rocks.
- It also consists of the **Greater Kuril Chain** and the **Lesser Kuril Chain**.

Disputed Island

- It is a **disputed island** between **Russia and Japan** which is mainly on four islands viz. **Iturup, Kunashir, Shikotan and Habomai rocks**, which are in possession of **Russia** and **claimed by Japan**.
- Further, the **ownership of the South Kuril Islands** is also claimed by **Ainu people** (they are indigenous people of some parts of Japan).

7. Hubballi-Ankola rail line

Why in the news?

- The **Karnataka state government** has recently cleared the proposed **Hubballi-Ankola railway line**.
- The railway line passes through the dense forests between two major protected areas — **Kali Tiger Reserve** and **Bedthi Conservation Reserve** which are part of **Western Ghats**.

About the Kali Tiger Reserve

- **Kali Tiger Reserve** is a protected area and tiger reserve.
- It is in **Uttara Kannada** district, in **Karnataka, India**.
- It is named after the **Kali River** which flows through the tiger reserve and is the **lifeline of the ecosystem**.

1. Keqiang Index

Why is the news?

- Recently the Keqiang Index' amid the questions surrounding **China's most recent COVID-19 numbers**, with authorities saying for several days now the **country had zero local infections**.

What is Li Keqiang index?

- Li Keqiang index or Keqiang index is an **economic measurement index** created by **The Economist** to measure China's economy using three indicators.

- These indicators are
 1. Electricity consumption
 2. Railway cargo volume
 3. Bank lending
- The "Keqiang index" is also **used by Haitong Securities released in 2013**, suggesting **decelerating China's economic growth** since the beginning of 2013.

2. G20 Summit 2020

Why in the news?

- Recently the **G20 countries** committed to **injecting more than \$5 trillion** into the **global economy**, and **contribute to the COVID-19 solidarity response fund** led by the **World Health Organization**
- The G20 Summit 2020 will be **held on November 21-22, 2020**, in **Saudi Arabia's capital city of Riyadh**.

About G20 Summit 2020

- It will be the **fifteenth G20 Summit**.
- The **recent editions of the G20 Summit** focused on global issues which **impact the economy, including macroeconomy and trade**.
- Some of the issues addressed before including climate change, health, migration, terrorism, water crises etc.

G20 Summit 2020 themes

- The **fifteenth G20 Summit** will be carried out under the theme of **'Realizing Opportunities of the 21st Century for All'**.

It will focus on three aims:

- **Empowering People** by creating the conditions in which all people especially women and youth can live, work and thrive

- **Safeguarding the Planet** by fostering collective efforts to protect our global commons
- **Shaping New Frontiers** by adopting long-term and bold strategies to share the benefits of innovation and technological advancement

About the G20 countries

- It is formally known as the '**Summit on Financial Markets and the World Economy**'.
- The members of **G20 include the European Union and 19 other countries**, including India.
- It was **founded in 1999** by the finance ministers of the **G7 countries** to discuss policy about the **promotion of international financial stability**.
- G20 countries represent **around 85% of global gross domestic product** and over **75% of global trade**. They form **two-thirds of the world's population**.

4. Recapitalisation of RRBs

Why in the news?

- The **Union Cabinet** has approved a **₹1,340-crore recapitalisation plan** for **regional rural banks (RRBs)**. This will **improve their capital-to-**

risk weighted assets ratio (CRAR), strengthening these institutions that are critical to the **provision of credit in rural areas**.

About the Regional Rural Banks

- These are the **Indian Scheduled Commercial Banks (Government Banks)** operating at **the regional level in the different states of India**.
- These banks were set up based on the **recommendations of the Narasimham Working Group (1975)**, and after the legislation of the **Regional Rural Banks Act, 1976**.
- The first **Regional Rural Bank "Prathama Grameen Bank"** was set up on **2nd October 1975**.
- The equity of a regional rural bank is held by the **Central Government, concerned State Government and the Sponsor Bank** in the proportion of **50:15:35**.
- They have been created with a view of serving the rural areas of India with basic banking and financial services primarily.
- However, **RRBs** may have branches set up for **urban operations**, and their area of operation may include urban areas too.

Functions of RRBs:

- Providing **banking facilities to rural and semi-urban areas**.
- Carry out government operations like **disbursement of wages of MGNREGA workers, distribution of pensions** etc.
- Providing **Para-Banking facilities** like **locker facilities, debit and credit cards, mobile banking, internet banking, UPI** etc.
- **Small financial banks**.

Topic- GS Paper 3-Economics

5. Mahatma Gandhi Bunkar Bima Yojana

Why in News?

- Recently, the **Minister of Textiles has** provided information regarding **Mahatma Gandhi Bunkar Bima Yojana (MGBBY)** in the **Lok Sabha**.

About Mahatma Gandhi Bunkar Bima Yojana

- It was **introduced in December 2003**, which was a combination of **Janshree Bima Yojana** and **Add-on Group Insurance Scheme** being implemented **in collaboration with the Life Insurance Corporation of India**.
- Since **2005-06** this scheme was revised and has been implemented revised with the title **"Mahatma Gandhi Bunkar Yojana"**.
- During the **XII Plan, the Mahatma Gandhi Bunkar Yojana** will continue to be implemented with the same benefits as were given in **the 11th plan period**.

Objective

- The primary aim of the scheme is to **provide enhanced insurance cover** to the **handloom weavers** in the case of **natural as well as accidental death** and in **cases of total or partial disability**.

Eligibility

- The weaver should be earning at least **50% of his income** from handloom weaving.
- All weavers, whether male or female, between the age group of **18 and 59 years**, are **eligible to be covered** under the scheme.
- Weavers being regular members of a **Co-operative Society** will be **eligible to benefit** from the scheme.
- Weavers affiliated to **State Handloom Development Corporations** will also be eligible.

6. Quantum chemistry

Why in the news?

- **IIT Bombay** has developed **new methods for quantum chemistry** and implements them in the efficient and free software to **study electron attachment to aqueous DNA**.
- This **study** has many **implications in radiation therapy-based treatment of cancer**.

About Quantum Chemistry:

- **Quantum chemistry** is one of the **new branches of chemistry** which tries to understand the **chemical properties of atoms and molecules without performing a lab experiment**.
- Instead, in quantum chemistry, the Scientists try to solve the **Schrödinger equation for the molecules**, and it **gives every measurable quantity** about that **particular molecule**, without actually doing the measurement.
- However, the mathematical equations resulting from the application of the **Schrodinger equation** are **very complicated** and **can only be solved using computers**.
- Therefore, one needs to **develop new theories** and write **efficient computer programs** to solve these equations.

7. Programme for International Student Assessment (PISA)

Why in the news?

- Recently, the **Delhi government has allocated over rs. 15000 crore budget** for the **education sector** which stressed upon the **participation of students of Delhi** in '**Programme for International Student Assessment Test in 2024**'.

About the Programme for International Student Assessment

- It is a comprehensive **study programme of Organisation for Economic Co-operation and Development (OECD)**. It measures **15-year-olds' ability to use their reading, mathematics and science**

knowledge and skills to meet real-life challenges.

- It was **started in the year 2000** and then it is conducted every three years.
- **PISA 2018** was the **7th study of PISA** in which **China topped** the ranking **followed by Singapore**.
- **India** is participating in **PISA 2021** with students from **Kendriya Vidyalaya Sangathan (KVS), Navodaya Vidyalaya Samiti (NVS)** and other schools in the **Union Territory of Chandigarh** as the participants.

About the Organisation for Economic Co-operation and Development

- The OECD is an **intergovernmental economic organisation** with **36 member countries**, founded in 1961.
- Its objective is to **stimulate economic progress** and **world trade**.
- The OECD is an **official United Nations observer**.
- Its **headquarters is in Paris, France**.
- The official founding members are: Austria, Belgium, Canada, Denmark, France, West Germany, Greece, Iceland, Ireland, Italy, Luxembourg, The Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, United Kingdom and the United States

Other agencies of OCED

1. The **OECD Development Centre** (1961)
2. **International Energy Agency (IEA)**, 1974)
3. **Financial Action Task Force** on Money Laundering.

2. Hydroxychloroquine now a schedule H1 drug

Why in news?

- The Union Health Ministry has notified **anti-malarial drug hydroxychloroquine** under **Schedule-H1**.
- This was done in exercise of its powers conferred by **Section 26B of the Drugs and Cosmetics Act, 1940 (23 of 1940)**.
- The move is aimed at **stopping misuse of the drug** which has now been allowed by the government for **prophylactic use in high-risk contacts of Covid-19 patients and healthcare workers treating such patients**.

About the Drugs and Cosmetics Rules, 1945

- It contains provisions for classification of drugs under given schedules and there are guidelines for the storage, sale, display and prescription of each schedule.

These Schedules are:

Schedule H1

- It aims to check the indiscriminate use of antibiotics, anti-TB and some other drugs.
- It **cannot be sold without a valid prescription**.
- The Package of the drugs has a mandatory warning printed in a box with a red colour border.

Schedule H

- It cannot be sold without a valid prescription.
- The labels of any Schedule H drug must display the **text "Rx" on the top left corner** of the label

Schedule X

- The Labels of any **Schedule X drug** must display the **text "XRx"** on the top left corner of the label.
- It also includes **narcotic and psychotropic substances-based drugs**.
- It also cannot be sold without a valid prescription.
- Drug retailer has to preserve the copy of the prescription for two years

3. Sections 269 & 270 IPC

Why in news?

- Recently during the coronavirus outbreak, penal provisions, such as Sections 188, 269 and 270 of the IPC, are being invoked to enforce the lockdown orders in various states.

What are Sections 269 and 270 of the IPC?

- **Sections 269 and 270** of the IPC come under Chapter XIV of the Indian Penal Code– '**Of Offences Affecting the Public Health, Safety, Convenience, Decency and Morals**'.
- **Sections 269** (negligent act likely to spread infection of disease dangerous to life) provides for a **jail term of six months and/or fine**.
- **Section 270** (malignant act likely to spread infection of disease dangerous to life) provides for a **jail term of two years and/or fine**.

- The word '**malignantly**' indicates a **deliberate intention** on the part of the accused.
- Both Sections have been used for over a century to punish those disobeying orders issued for containing epidemics.

4. Employees' Provident Fund Organisation (Amendment) Scheme 1952

Why in news?

- Ministry of Labour and Employment has recently amended the EPF Scheme 1952.

Highlights of the amendment

- It allows **withdrawal of non-refundable advance** by **EPF members** in the wake of **COVID-19 pandemic** in the country.
- The notification permits **withdrawal not exceeding the basic wages and dearness allowance for three months or upto 75 per cent of the amount standing to member's credit** in the EPF account in the event of an outbreak of epidemic or pandemic.
- A sub-para (3) under para 68L has been in the **EPF scheme, 1952**.
- The amended scheme **Employees Provident Fund (Amendment) scheme, 2020** has come into force from **28th March 2020**.

About the Employees' Provident Fund Organization

- It is an organization tasked to assist the **Central Board of Trustees, Employees' Provident Fund** a statutory body formed by the **Employees' Provident Fund and Miscellaneous Provisions Act, 1952**.
- It is under the administrative control of the **Ministry of Labour and Employment, Government of India**.

About Universal Account Number (UAN)

- It is a **12-digit number** allotted to an employee working in an organisation.

- If a person has multiple member ID's issued by multiple organisations, all the ID's will come under one single **UAN number** which will be the same for a lifetime.
- This **number will not change** even when an employee changes his organisation.

6. The US Defense Production Act

Why in news?

- The US President Donald Trump has recently invoked the **Defense (defence) Production Act** in order to boost the **production of ventilators** as part of efforts to deal with the coronavirus outbreak.

What is the Defense Production Act?

- The Defense Production Act, 1950 gives the President the **power to mobilise domestic industry so that the supply of essential materials and services is maintained** for purposes of **national defence**.
- For instance, by invoking this Act the **President can require persons, including businesses and corporations, to undertake government contracts** so that production and supply are maintained.

Why are ventilators needed for coronavirus patients?

- Amid the coronavirus pandemic, the demand for ventilators has shot up in many countries. Ventilators, also described as "life support", are not required for all COVID-19 patients.
- But in some patients who develop breathing difficulties due to the infection, their breathing needs to be supported by ventilators.
- According to a WHO report, based on an analysis of over **55,000 laboratory-confirmed patients**, 18.6 per cent of the patients with COVID-19 experienced shortness of breath.
- Overall, **1 per cent of the cases** were critical and suffered from complications that include respiratory failure, septic shock and multiple organ failure.

7. UAE observes Earth Hour 2020

Why in news?

- UAE is recently observing **Earth Hour 2020** in cooperation with the **Dubai Supreme Council of Energy and Emirates Nature** in association with the **World Wide Fund for Nature**.

What is Earth Hour?

- Earth Hour is a **global grassroots movement uniting people** to take action on **environmental issues and protect the planet.**
- The Earth Hour is held every year on the **last Saturday of March.**
- The main aim of the marking Earth Hour is to **call attention towards global warming, loss of biodiversity and climate change**
- The event was **first started in Sydney, Australia.**

About the 'Earth Hour logo'

- Earlier it was 60 (60 symbolizes 60 minutes) but since 2011 it is 60+.
- Here + represents the commitment to go beyond the earth hour (i.e. switching off non – essential lights in day to day life)

1. Three Seas Initiative summit

Why in news?

- The **Three Seas Initiative summit** and **business forum** which was to take place in **Estonia in June 2020** have been rescheduled due to the spread of coronavirus.

About the Three Seas Initiative (3SI)

- It is a cooperation format that brings together **12 European Union member states** between the **Adriatic Sea, the Baltic Sea** and the **Black Sea**.
- The 12 countries that have joined the 'Three Seas format' are **Austria, Bulgaria, Estonia, Croatia, Lithuania, Latvia, Poland, Romania, Slovakia, Slovenia, the Czech Republic** and
- The partner countries of the 3SI are the United States and Germany.

Aim and Objective

- It is designed to **accelerate the development of energy, transport and digital infrastructure** in order to increase the **region's economic growth, reinforce its economic resilience** and further the **vision of an integrated, cohesive and undivided Europe**.

2. Biological Weapons Convention

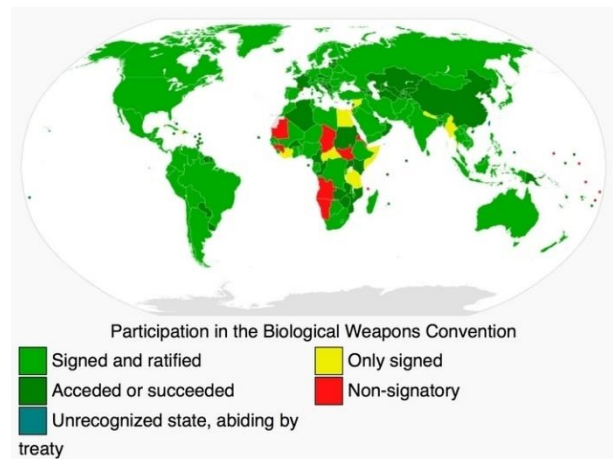

Why in news?

- Recently the **March 26** marked the **45th anniversary** of the entry into force of the **Biological Weapons Convention**, the **first multilateral disarmament treaty** to **ban an**

entire category of weapons of mass destruction.

About the Biological Weapons Convention

- It is a **legally binding treaty** that **outlaws' biological arms**.
- It was opened for signature on **April 10, 1972**, and **entered into force on March 26, 1975**.
- It currently has **183 states-parties**, including **Palestine**, and **four signatories (Egypt, Haiti, Somalia, Syria, and Tanzania)**.
- **Ten states** have **neither signed nor ratified** the BWC (**Chad, Comoros, Djibouti, Eritrea, Israel, Kiribati, Micronesia, Namibia, South Sudan and Tuvalu**).

Membership and Duration

- The BWC is a multilateral treaty of indefinite duration that is open to any country.

The **BWC bans** the development, stockpiling, acquisition, retention, and production of:

1. **Biological agents and toxins** "of types and in quantities that have **no justification for prophylactic, protective or other peaceful purposes**;"
2. **Weapons, equipment, and delivery vehicles** "designed to use such **agents or toxins for hostile purposes** or in armed conflict."
3. The **transfer of or assistance** with **acquiring the agents, toxins, weapons, equipment, and delivery vehicles** described above.

Biological weapons

Biological toxins were historically employed in warfare until their use was banned.

Sources: Al Jazeera, UNODA | Icons: Vanessa Choi, Ben Davis, BomSymbols - The Noun Project

Exceptions:

- It does not ban the **use of biological and toxin weapons** but reaffirms the **1925 Geneva Protocol**, which **prohibits such use**.
- It also **does not ban biodefense programs**.

3. Convalescent plasma therapy

Why in news?

- The **US Food and Drug Administration (FDA)** last week approved the **use of blood plasma from recovered patients to treat severely critical COVID-19 patients**.
- **New York** will be the first state to test the treatment of coronavirus with blood from recovered patients.
- The **method dates back more than a century**, but it has not been used widely in the United States in decades.

How does Convalescent plasma therapy work?

- The method involves **harvesting virus-fighting antibodies** from the **blood of previously infected patients**.
- It seeks to make use of the **antibodies developed in the recovered patient against the coronavirus**.
- The whole blood or plasma from such people is taken, and the **plasma is then injected in critically ill patients** so that the **antibodies are**

transferred and boost their fight against the virus.

- According to the study in 'The Lancet Infectious Diseases, last month said a **COVID-19**' patient usually develops **primary immunity against the virus in 10-14 days**.
- Therefore, if the **plasma is injected at an early stage**, it can **possibly help fight the virus and prevent severe illness**.

Note: In 2014, the **World Health Organization** released guidelines to **treat Ebola patients with convalescent whole blood and plasma**.

4. Sodium hypochlorite

Why in news?

- Recently **Uttar Pradesh government** has sprayed **Sodium hypochlorite solution (1 % concentration)** to the migrant workers **apparently to sanitize them**.

What is Sodium hypochlorite?

- Sodium hypochlorite, **commonly known as bleach**, is most frequently used as a **disinfecting agent**.
- It is used for a variety of **cleaning and disinfecting purpose** which releases chlorine which is a disinfectant.
- It is a **broad-spectrum disinfectant** that is effective for the **disinfection of viruses, bacteria, fungi, and mycobacterium**. However, sodium hypochlorite is **not effective in the disinfection of bacterial spores and prions**.

Health impact

- Sodium hypochlorite is **corrosive and is not recommended to be**

used on human beings, certainly not as a spray or shower.

- A 1% solution, if it comes in contact with human being, can cause -

 1. damage to the skin
 2. serious harm to the lungs (if inhaled)
 3. Serious eye damage/eye irritation
 4. Chronic aquatic toxicity

The concentration of the chemical in the solution varies according to the purpose it is meant for.

- Normal household bleach usually is a 2-10% sodium hypochlorite solution.
- At a much lower 0.25-0.5%, this chemical is used to treat skin wounds like cuts or scrapes.
- An even weaker solution (0.05%) is sometimes used as a hand wash.
- It is commonly used as a bleaching agent, and to sanitize swimming pools.

Does the chemical get rid of the novel coronavirus?

- The World Health Organization, and the US Centers for Disease Control and Prevention, recommends homemade bleach solutions of about 2-10% concentration to clean hard surfaces to clear them of any presence of the novel coronavirus and not on human beings.
- If sodium hypochlorite comes in contact with other cleaners containing ammonia or chlorine compounds, fatal levels for ammonia gas or chlorine gas can be produced. Therefore, it is advisable to never mix bleach with other chemicals. Also, hand gloves are advisable for the usage of high concentration.

5. System of Air Quality and Weather Forecasting And Research (SAFAR)

Why in news?

- According to the Centre-run System of Air Quality and Weather Forecasting And Research (SAFAR), the measures against

COVID-19 have led to a drop in PM2.5 (fine particulate pollutant) by 30% in Delhi and by 15% in Ahmedabad & Pune, respectively.

About the System of Air Quality and Weather Forecasting and Research

- It is a national initiative introduced by the Ministry of Earth Sciences (MoES) to measure the air quality of a metropolitan city, by measuring the overall pollution level and the location-specific air quality of the city.
- It was indigenously developed by Indian Institute of Tropical Meteorology (IITM), Pune and is run by India Meteorological Department.

Objectives

- Its objective is to provide Real-time air quality index on a 24x7 basis with colour-coding along with 72-hour advance weather forecast.
- It also issues Health advisory to prepare citizens well in advance.

Parameters monitored

- Pollutants like PM1, PM2.5, PM10, Ozone, CO, NOx (NO, NO2), SO2, BC, Methane (CH4), Non-methane hydrocarbons (NMHC), VOC's, Benzene, Mercury
- Monitored Meteorological Parameters: UV Radiation, Rainfall, Temperature, Humidity, Wind speed, wind direction, solar radiation
- This is the first of such kind of network in India which continuously monitors all these parameters and maintain up to date database with robust quality control and quality assurance.

6. Companies Fresh Start Scheme, 2020 and revised the "LLP Settlement Scheme, 2020"

Why in news?

- **Ministry of Corporate Affairs (MCA)**, has introduced the **“Companies Fresh Start Scheme, 2020”** and revised the **“LLP Settlement Scheme, 2020”** to provide relief to law-abiding companies and **Limited Liability Partnerships (LLPs)** in the wake of COVID 19

About the Schemes

- The Schemes gives **longer timelines** for **corporates to comply with various filing requirements** under the Companies Act 2013 and LLP Act, 2008.
- The objective of the **scheme to reduce the related financial burden on them**, especially for those with long-standing defaults, thereby giving them an **opportunity to make a “fresh start”**.
- Both the schemes are a **one-time waiver of additional filing fees** for **delayed filings by the companies or LLPs** with the **Registrar of Companies** during the currency of the Schemes.
- Both the Schemes also **contain a provision for giving immunity from penal proceedings**, including against imposition of penalties for late submissions.
- It also provides **additional time for filing appeals** before the concerned

Regional Directors against the imposition of penalties, if already imposed.
