1. Report of National Health Account Estimates for India for 2017-18

Why in News

• The **Ministry of Health & Family Welfare** released findings of the **National Health Accounts (NHA) Estimates** for India for 2017-18.

• This is the fifth consecutive NHA

report produced by National Health Systems Resource Centre (NHSRC), designated as National Health Accounts Technical Secretariat (NHATS) in 2014 by the Union Health Ministry.

Key Points

- The NHA estimates are prepared by using an accounting framework based on the internationally accepted System of Health Accounts 2011, provided by the World Health Organization (WHO).
- The NHA estimates for 2017-18 clearly show that there has been an increase in the share of government health expenditure in the total GDP of the country. It has increased from 1.15% in 2013-14 to 1.35% in 2017-18.
- Additionally, the share of Government Health Expenditure in total health expenditure has also increased overtime.
- In 2017-18, the share of government expenditure was 40.8%, which is much higher than 28.6% in 2013-14.
- The government's efforts to improve public health care are evident with Out-Of-Pocket Expenditure (OOPE) as a share of total health expenditure coming down to 48.8% in 2017-18 from 64.2% in 2013-14.
- Even in the case of per capita OOPE there has been a decline from Rs.2336 to Rs.2097 between 2013-14 to 2017-18.
