## Legal Reasoning

- A locks B inside a room. B has a duplicate key of the room. However, A was not aware of it. B in a panic mode forgets about the duplicate key. B remains locked for 3 hours after which A comes and opens the room. B brings a suit against A. Which of the following is correct?
  - A is liable because he did not know B had a duplicate key to the room.
  - A is not liable because B suffered due to forgetfulness.
  - A is not liable as B already had the duplicate key and can come out if he wishes.
  - A is liable as he acted against the law.
- If X, who is unsound mind not knowing the nature of the act attacks Y. Here Y acts in self-defense and in order to escape the attack, hits him thereby causing him hurt. Here:
  - Y commits the offence of assault.
  - Y commits the offence of simple hurt.
  - Y commits the offence of grievous hurt.

D. Y is not liable for any offence.

3. Principle :- Battery is the intentional application of physical force to another person to cause bodily harm. On the other hand, assault is an attempt or threat to do a corporeal hurt to another causing a reasonable apprehension of immediate violence in the mind of the threatened person.

Facts: Samuel thought of playing a prank on his old friend, Rita. Samuel went to the cafe where Rita worked and informed her in a frantic manner that her son, Ken got involved in a fight with some strangers who have now ganged up to beat him with hockey sticks. There was no truth in his statement. However, on hearing this Rita suffers a nervous shock and gets seriously ill. She had to be immediately hospitalized and her family had to incur medical expenses for her treatment and recovery. Based on the given facts, choose the appropriate answer:

- A. Samuel will be held liable for battery as the body is controlled by the nervous system and therefore nervous shock amounts to bodily injury.
- B. Samuel will not be held liable for assault or battery as he did not intend the harm, which was caused to Rita, and it was unforeseeable.
- C. Samuel will not be held liable for assault or battery as there was no threat to do corporeal hurt.

## Reading Comprehension

**Read the following passage and answer the questions:**

Rudyard Kipling is best known to Indians as the author of the Jungle Book which is hugely popular among children and adults alike. A much lesser known fact about Kipling is his part in colonialism. Central to the ideologies of colonialism is its inherent belief that the people of the East are fundamentally different from the people of the West and not only that they are different but also inferior to the people of the West. The Writers, artists and travellers played as much an important role in spreading ideologies of colonialism as did soldiers and officials. The same is manifested in Kipling's words when he writes "The East is East and the West is West, and never the twain shall meet." A more abhorrent expression of his racial prejudice is seen in the poem titled "The White Man's Burden". Written in the context of the America invasion of Philippines this title has gone on to become the justification for colonialism. Kipling through this poem says that it is the White man's burden to civilize the people of the East. Inherent in Kipling's idea is the belief that it is only the west who can educate and guide the people of the East to progress. Kipling through this poem was cleverly masking the violence and plunder of the East by the Western colonizers. Through this poem Kipling was expressing the colonizers hegemonic view that they are the colony for the benefit of the colonized.

- D. The people of the East had become a burden to Europe

**Read the following passage and answer the questions:**

To reap the benefits of modern technology, we pay a huge price in the form of attacking the purity of our environment. For getting the benefit of transportation by automobile we pay a huge price by getting diseases which are exacerbated by smog; due to the impact of modern insecticides, wildlife is getting declined and disturbing the dynamics of equation between living things and their environment; we expose ourselves to the biological hazards of radioactive radiation by using nuclear fuel. We use harmful fertilizers to increase agricultural production; this, on the other hand, adds to water waste and pollution. The world's most prosperous countries are undoubtedly reaping the gains of technology, but they are still the direct casualties of the environmental disease that technology breeds. In the earlier period, the environmental hazards which came along with technological development were limited to a small and moderately short' time. However, the modern technical threats, on the other hand, are neither localized not transient. Enormous areas of the continents are covered by Modern air pollution: The radioactive fallout from the nuclear blast can be seen all around the world. Moreover, for years to come, nuclear materials can be present on the earth's atmosphere, Carbon-14 is expected to be around for hundreds to thousands of years.
