## Most Expected

## Questions For SIDBI

 Grade A Exam 2022

Direction: Study the following information and answer the given questions.

Five people P, Q, R, S, and T are seated around a Pentagonal table, with one seating at the corners, facing inside the table. They have different brands of laptops viz. Acer, Apple, Dell, HP, and Lenovo of different colours viz. Black, Blue, Platinum, Silver, and Red, but not necessarily in the same order.
$P$ has an Acer laptop of neither Blue nor Red. R sits immediately left of T, neither adjacent to P. T has a laptop of neither Lenovo nor HP. The person having a Red laptop sits second to the right of the one having a Platinum laptop. The Platinum laptop does not belong to S. The Red laptop does not belong to R. S owns neither Dell nor HP laptops. The owner of the Lenovo laptop which is Blue is adjacent to $T$ who does not own a Red laptop. P does not own a Silver laptop.

1. How many persons are seated between the persons having Red and Blue when counted anticlockwise from the Red laptop owner?
A. No one
B. One
C. Three
D. Five
E. Four
2. Which colour of laptop S owns?
A. Black
B. Red
C. Silver
D. Platinum
E. None of the above
3. Who among the following is not an immediate neighbour of $R$ ?
A. P
B. T
C. Q
D. Both P and Q
E. Both $P$ and $T$
4.Q has $\qquad$ laptop.
A. HP
B. Dell
C. Lenovo
D. Apple
E. None of the above
5.R sits
to the left of
coloured laptop owner.
A. $1^{\text {st }}$, Red
B. $2^{\text {nd }}$, Platinum
C. $3^{\text {rd }}$, Black
D. $4^{\text {th }}$, Silver
E. None of the above

Direction: Study the data carefully and answer the questions accordingly.

There are eight members in a family with three generations and three married couples. Q is the mother-in-law of $U . W$ is the sister of $T$, who is the nephew of $S$. $V$ is the granddaughter of $R$. $T$ is the

SBI \& IBPS 2022: A Sure Shot Success batch
Clear All SBI \& IBPS 2022 Exams in First Attempt
brother-in-law of M. $U$ is not married to $W$. $U$ is a married woman. There are more than three male members. S is not the sibling of Q . M has no child.
6. How $M$ is related to $R$ ?
A. Grandson
B. Son
C. Nephew
D. Son-in-law
E. None of these
7. How S is related to T ?
A. Brother
B. Aunt
C. Daughter
D. Uncle
E. None of these
8.Four from the following are similar in a certain way and forms a group. Find out the one, which does not belong to that group.
A. M
B. S
C. $T$
D. R
E. V

Direction: Study the digit-letter sequence carefully and answer the questions given below:

T1YVA9BN2LPO5KW4ZD FC6GU3H7JE8M
9. Which amongst the following element is tenth to the right of eighteenth element from the left end?
A. 7
B. E
C. 8
D. J
E. None of these
10.How many numbers are there which are immediately preceded by a vowel and immediately followed by a consonant?
A. Three
B. Four
C. Two
D. Five
E. None of these
11.If all the odd numbers are removed from the given series then which amongst the following element is seventeenth element from the left end?
A. F
B. 6
C. C
D. G
E. None of these
12.If last ten elements are removed from the given series then which amongst the following is eleventh from the right end?
A. 2
B. $P$
C. L
D. O
E. None of these

Clear All SBI \& IBPS 2022 Exams in First Attempt
13. How many numbers are there between the fifth element from the right end and ninth element from the left end?
A. Five
B. Four
C. Six
D. Three
E. None of these

Direction: Study the following information carefully and answer the following question.

Eight people i.e., A, B, C, D, E, F, G, and H born on the $2^{\text {nd }}$ and $13^{\text {th }}$ of four different months i.e., February, March, June, July. All the information is not necessarily in the same order.

H was born on an even-numbered date in the month having less than 31 days. The number of people who were born after H is one more than before A. Three people were born between $A$ and $G$. One person was born between A and C . Three people were born between F and E . E was born in the same month as G. Only one person was born between E and $B$. $B$ and $H$ was not born in the same month.
14. Which amongst the following person was born on $2^{\text {nd }}$ June?
A. B
B. G
C. E
D. C
E. None of these
15. Which amongst the following pair born in the same date?
A. E-H
B. A-F
C. H-G
D. C-B
E. None of these
16.How many people were born before G ?
A. Two
B. One
C. Three
D. None
E. More than three
17.D was born in which date?
A. $2^{\text {nd }}$ July
B. $13^{\text {th }}$ February
C. $13^{\text {th }}$ July
D. $2^{\text {nd }}$ February
E. None of these
18. Find the odd one?
A. F-B
B. $\mathrm{A}-\mathrm{C}$
C. E-B
D. H-G
E. D-A

Direction: In each question below, some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows/follow from the given statements, disregarding commonly known facts.

Clear All SBI \& IBPS 2022 Exams in First Attempt

## 19. Statements:

No rings are barred.
Only a few calls are barred.
Only a few barred are missed.
Conclusions:
I. All calls being missed is a possibility.
II. Some missed are not calls.
A. If only conclusion I follows.
B. If only conclusion II follows.
C. If either conclusion I or II follows.
D. If neither conclusion I nor II follows.
E. If both conclusions I and II follow.

## 20.Statements:

No rings are barred.
Only a few calls are barred.
Only a few barred are missed.
Conclusions:
I. Some calls which are barred being missed is a possibility.
II. All rings are missed.
A. If only conclusion I follows.
B. If only conclusion II follows.
C. If either conclusion I or II follows.
D. If neither conclusion I nor II follows.
E. If both conclusions I and II follow.

## 21.Statements:

All talks are motive.
Only a few brains are rough.
No motive are rough.

## Conclusions:

I. Some brains are not motive.
II. All brains being rough is a possibility.
A. If only conclusion I follows.
B. If only conclusion II follows.
C. If either conclusion I or II follows.
D. If neither conclusion I nor II follows.
E. If both conclusions I and II follow.

## 22.Statements:

All talks are motive.
Only a few brains are rough.
No motive are rough.
Conclusions:
I. All brains are talks.
II. Some talks are rough.
III. All motive being brains is a possibility.
A. Only I follows
B. Only I and II follows
C. Only III follows
D. Either I or III follows
E. All of these follows
23.If a meaningful word can be formed using $2^{\text {nd }}$ and $3^{\text {rd }}$ letters of AMAZING and $5^{\text {th }}$ and $6^{\text {th }}$ letters of NATURE, what will be the first letter of the newly formed word? If more than one words can be formed, mark your answer as X. If no meaningful word can be formed, mark your answer as $Z$.
A. E
B. R
C. M
D. X
E. Z

SBI \& IBPS 2022: A Sure Shot Success batch

Clear All SBI \& IBPS 2022 Exams in First Attempt

Direction: Study the following data carefully and answer the questions accordingly.

Goli starts walking from point B, walks 40 m towards the east direction to reach point J. Then, he starts walking in the north direction for 30 m to reach point Z . Now, he takes a right turn and walks for 60 m to reach point U. Finally, he starts walking in the south direction for 24 m to reach point X .
24. Point $U$ is in which direction of point J?
A. South
B. North-East
C. South-West
D. West
E. None of these
25. What is the shortest distance between X and J ?
A. $7 \sqrt{ } 91 \mathrm{~m}$
B. 40 m
C. $6 \sqrt{ } 101 \mathrm{~m}$
D. 47 m
E. None of these
26.If point Q is 30 m north of point $B$ then what is the distance between
U and Q ?
A. 90 m
B. 120 m
C. 115 m
D. 100 m
E. None of these

Direction: Study the following information carefully and answer the questions given below.

Nine boxes of all of the different shapes - Circle, Square, Rectangle, Triangle, Pentagon, Trapezium, Hexagon, Octagon, and Oval are placed one above another. Each box has a number written on it from 1 to 9 but not necessarily in the same order. Number 1 is at the bottom and number 9 is at the top and others accordingly.

There is at most one box between the triangle box and the oval box. The pentagon box is immediately below the Hexagon box. The rectangle box is below the square box. The circle box is placed at the topmost position. The trapezium box is immediately below the oval box. Two boxes are placed between Circle box and the triangle box. The square box and rectangle box have six boxes in between them.
27. Which of the following statements is true?
A. Number 7 is written on the oval box.
B. Three boxes are placed between the square and pentagon box.
C. Octagon box is placed at the bottommost position.
D. Two boxes between the box on which number 3 is written and oval box.
E. None of these

Clear All SBI \& IBPS 2022 Exams in First Attempt
28. Which of the following pairs is correctly matched?
A. Oval, 8
B. Square, 7
C. Rectangle, 2
D. Trapezium, 3
E. None of these
29. Which of the following numbers is written on the octagon box?
A. 1
B. 3
C. 5
D. 7
E. 6
30.What is the shape of the box on which number 2 is written?
A. Hexagon
B. Pentagon
C. Oval
D. Octagon
E. Rectangle
31. What is the shape of the box on which number 4 is written?
A. Trapezium
B. Square
C. Octagon
D. Hexagon
E. Cannot be determined
32.In a class of 90 students, Prakash, who is a boy is ranked $13^{\text {th }}$ from the top. If there are five girls ahead of Prakash, in the class, number of boys is twice the number of girls. Now find out how many boys are after him in the class?
A. 48
B. 58
C. 52
D. 50
E. None of the above

Direction: In the question below, there is a statement followed by two conclusions numbered I and II. You have to assume everything in the statement to be true. Then consider the two conclusions together and decide which of them follows beyond a reasonable doubt from the information given in the statement.

## 33. Statement:

The quality and pace of course correction on the GST in the coming months will determine if India can hold its 100th position or move up further.

## Conclusions:

I. GST is a flop
II. GST is a hit
A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusion I and II follows
D. Neither conclusion I nor II follows
E. Either conclusion I or II follows

Direction: In each question below is given a statement followed by two assumptions numbered I and II. An assumption is something supposed or taken for granted. You have to consider the following assumption and decide which of the assumption is implicit in the statement.

## 34. Statement:

Jet Airways has in the last two months trimmed its fleet by 28 planes and will ground about a dozen more aircraft in March mainly

Clear All SBI \& IBPS 2022 Exams in First Attempt
due to non-payment of rentals. Eight ATR turboprop jets, a Boeing 737 Max recently included into the fleet, a Boeing 777 and an Airbus A330 plane, and at least seven Boeing 737 NG planes are among the 40 odd aircraft that have been or are in the process of being taken off the fleet. Earlier, Jet had a fleet of 123 planes, which means it will have cut its fleet by close to a third by April.

## Assumptions:

I. The airline has undertaken certain proactive adjustments to its flight schedule and is keeping its guests informed of these interim changes, offering them alternate choices, including re-accommodation on the airline's alternate flights, in line with applicable guidelines.
II. The systematic trimming of the fleet has impacted Jet's operations as the airline struggles to get approvals for a resolution plan from various stakeholders.
A. Both I and II are implicit
B. Either I or II is implicit
C. None is implicit
D. Only II is implicit
E. Only I is implicit

Direction: In the question below a statement followed by two courses of actions. On the basis of information given in the statement, you have to assume everything in the statement is true then decide which of the suggested course of action is worth pursuing.

## 35. Statement:

It is obligatory to embrace suitable measures to prevent a repetition of bad debts by learning from the past experiences of mounting nonperforming assets of the bank.
Courses of actions:
I. Before granting loans to customers, their eligibility for loans should be assessed strictly.
II. To ensure the payment of installations of loan, the work, for which the loan was sanctioned, should be administered minutely on regular basis.

Of these:
A. Only I follows
B. Only II follows
C. Either I or II follows
D. Neither I nor II follows
E. Both I and II follow

Direction: Study the data carefully and answer the questions accordingly.

A certain number of people are sitting in a row. Some of them are facing north and some are facing south direction. Q sits fourth to the right of $G$, who sits third from an end. Five people sit between Q and $R$, who sits second to the left of $P$. $M$ sits fourth to the right of $P$. Seven people sit between N and M . N and $P$ face the opposite direction. At most eleven people sit to the right of N . Five people sit between N and S, who sits fourth from an end. S faces the north direction. J sits fifth

to the right of S. R and J (both face the opposite directions) are not sitting to the right of $\mathrm{M} . \mathrm{M}$ and Q (who is not sitting to the right of J) face the opposite directions.
36. How many people sit to the right of Q?
A. Five
B. Six
C. Eight
D. Nine
E. None of these
37. What is the position of $J$ with respect to P?
A. Fifth to the right
B. Fourth to the right
C. Second to the left
D. Third to the left
E. None of these
38. How many people are sitting in this arrangement?
A. 17
B. 18
C. 21
D. 20
E. None of these
39.Who among the following sits between J and Q?
A. R
B. M
C. N
D. S
E. None of these
40.Four from the following are similar in a certain way and forms a group. Find out the one, which does not belong to that group.
A. M, S
B. $\mathrm{N}, \mathrm{J}$
C. G, R
D. M, N
E. S, R

Direction: The following Linegraph shows the Profit percentage of 5 different companies for 3 different years.
Study the Line-graph and answer the questions based on it.

Profit - Income - Expenditure Profit $\%=\frac{\text { income- Expenditure }}{\text { Expenditure }} \times 100$
41. The Income of Company C in 2019 was 56 Lakh then what was its Expenditure in 2019 ?
A. 40 Lakh
B. 78.4 Lakh
C. 58 Lakh
D. 56 Lakh
E. 42 Lakh

Clear All SBI \& IBPS 2022 Exams in First Attempt
42.The Expenditure of Company A in 2018 is 35 Lakh then what was its Income in the same year ?
A. 35 Lakh
B. 81 Lakh
C. 42.5 Lakh
D. 50.75 Lakh
E. 37.5 Lakh
43.The sum of Income of Company A, B, C in the year 2018 was 72 Lakh then find the sum of their Expenditure in the same year?
A. 72 Lakh
B. 90 Lakh
C. 1.08 crore
D. 54.5 Lakh
E. Can't be determined
44.The Income of Company A in 2019 is 55 Lakh, then find its Profit in this year?
A. 12 Lakh
B. 9.875 Lakh
C. 19.25 Lakh
D. 14.26 Lakh
E. 17.35 Lakh
45.If the Expenditure of Company D in 2018 \& 2019 is equal then find the ratio of Income of Company D in 2018 \& 2019 ?
A. $29: 37$
B. $30: 31$
C. $21: 29$
D. $43: 53$
E. 52 : 69

Direction: What will come in the place of the question mark (?) in the following number series?
46. 100, 102, 310, 1556, ?, 98110
A. 11700
B. 11900
C. 10600
D. 10900
E. None of these

Direction: What will come in place of the question mark (?) in the following number series?
47. $14,70,98,112,119$, ?
A. 122.5
B. 121.5
C. 112.5
D. 124
E. None of these

Direction: What will come in the place of the question mark (?) in the following number series?
48. $2,18,82,338,1362$, ?
A. 5488
B. 5478
C. 5258
D. 5338
E. 5458

Direction: What should come in place of the question mark ('?') in the following number series?
49. 6, 22, 46, 78, 118, ?
A. 165
B. 166
C. 167
D. 168
E. 169

Clear All SBI \& IBPS 2022 Exams in First Attempt

Direction: What should come in place of the question mark ('?') in the following number series?
50. 9.5, 47.5, 213.75, ?, 2992.5, 8977.5, 22443.75
A. 855
B. 755
C. 852
D. 853
E. 854

Direction: In the following question two equations are given in variables $x$ and $y$. You have to solve these equations and determine the relation between x and y .
51. I. $2 x^{2}-5 x+2=0$
II. $3 y^{2}+28 y+9=0$
A. $x>y$
B. $x<y$
C. $x \leq y$
D. $x \geq y$
E. $x=y$ or no relation can be established

Direction: In the following question two equations are given in variables $x$ and $y$. You have to solve these equations and determine the relation between $x$ and $y$.
52. I. $x^{2}-8 x+\sqrt{144}=0$
II. $2 y^{2}-21 y=3 y$
A. if $x>y$
B. if $x \leq y$
C. if $x<y$
D. if $x \geq y$
E. if $x=y$ or relationship between $x$ and $y$ can't be established

Direction: In the following question two equations are given in variables $X$ and $Y$. You have to solve these equations and determine the relation between $X$ and $Y$.
53. I. $14 X^{2}+6 X=3 X+2$
II. $5 Y^{2}+8 Y=6 Y+3$
A. $X>Y$
B. $X<Y$
C. $X \leq Y$
D. $X \geq Y$
E. $X=Y$ or no relation can be established
54.I. $8 X^{2}+\frac{1}{4}=\frac{12 X}{4}$
II. $9 Y^{2}-6 Y+1=0$
A. $X>Y$
B. $X<Y$
C. $X \leq Y$
D. $X \geq Y$
E. $X=Y$ or no relation can be established
55.
I. $x^{2}-27 x+162=0$
II. $y^{2}-43 y+450=0$
A. if $x>y$
B. if $x \leq y$
C. if $x<y$
D. if $x \geq y$
E. if $x=y$ or relationship between $x$ and $y$ can't be established
56. In 2018, number of males in the village are 50\% more than the number of females in it. Male population of the village increases by $25 \%$ every year while the female population of the village decreases by $20 \%$ every year. Population of
the village in 2020 is how much percent less/more than the population of the village in 2018?
A. 19.35\% more
B. $10.25 \%$ less
C. $21.25 \%$ more
D. $15.5 \%$ less
E. $12.5 \%$ more
57.In a business Anmol invests $\frac{2}{3}$ of the capital for $\frac{1}{3}$ of the time, Sneha invests $\frac{1}{4}$ of the capital for $\frac{2}{3}$ of time and Chirag invests the remaining capital for full time. Find the sneha's share if the total profit is Rs. 3060.
A. Rs. 1080
B. Rs. 1280
C. Rs. 800
D. Rs. 680
E. none of these
58.A group of friends travelled a certain distance upstream in a boat in 4 hours. If the downstream speed is one and half times the upstream speed of boat then find the time taken to cover the same distance when boat is moving just because of stream?
A. 15 h
B. 12 h
C. 16 h
D. 18 h
E. None of the above
59. Cost prices of a mobile and an earphone are same. The shopkeeper marked the mobile and the earphone $60 \%$ and $50 \%$
respectively above their cost prices. The mobile is sold after a discount of $25 \%$ while the earphone is sold after a discount of $30 \%$. Find the cost price of the mobile if the total profit earned after selling the mobile and earphone is Rs. 2500
A. Rs. 10000
B. Rs. 8000
C. Rs. 6000
D. Rs. 12000
E. Rs. 14000
60.10 men or 25 women can do a piece of work in 12 days. ' $x$ ' men and ' $x+8$ ' women started the work and the work got completed in 20 days. Find the number of women who started the work.
A. 10
B. 8
C. 12
D. 11
E. None of these

Direction: What approximate value will come in place of the question mark (?) in the following question? (You are not expected to calculate the exact value)
$61.15 \times(?)^{3}+(14.96)^{2}=(39.94)^{2}$
$-399.86$
A. 5
B. 4
C. 3
D. 6
E. 9

D. 36
E. 15

Direction: Study the passage given below and answer the following questions.
Students applied for three posts in the IBPS examination Probationary officer, specialist officer and clerk. Male students applied for clerk are 3 times the male students applied for P.O. and male students applied for S.O. are 120 more than male student applied for P.O. Ratio of male to female students applied for P.O. is 2: 3 and female students applied for S.O. and clerk are same. Male applied for P.O. are $25 \%$ less than female applied for clerk. Total number of students applied for the examination is 1220 .
66. Find the total students applied for the post of Clerk.
A. 520
B. 540
C. 420
D. 560
E. 460
67.Find the ratio of total male students to total female students applied in the examination.
A. $31: 25$
B. $42: 19$
C. $36: 25$
D. $36: 23$
E. None of these

Clear All SBI \& IBPS 2022 Exams in First Attempt
68.Total students applied for P.O. are what percent less than total students applied for S.O.?
A. $15 \%$
B. $25 \%$
C. $35 \%$
D. $10 \%$
E. $40 \%$
69.Male students applied for P.O. and clerk together are what percent of female students applied for clerk and S.O. together?
A. $100 \%$
B. $50 \%$
C. $125 \%$
D. $150 \%$
E. 200\%
70.Female students applied for P.O and S.O. together are how much more or less than male students applied for same posts?
A. $25 / 9 \%$
B. 50/3 \%
C. $25 / 3$ \%
D. $50 / 9$ \%
E. None of these
71.Anuj observed that he required 45 seconds less to cross a circular ground along its diameter than to complete one round along its boundary. If his speed was 40 $\mathrm{m} / \mathrm{min}$, what is the radius of the circular ground? (take $п=22 / 7$ )
A. 10.25 m
B. 7 m
C. 5 m
D. 4.50 m
E. 8.25 m
72.There are two mixtures, $A$ and $B$, of acid and alcohol. In mixture A , the ratio of acid to alcohol is $7: 5$. After adding 18 L of mixture B in which ratio of alcohol to acid is 1 : 2 in the mixture $A$, the quantity of acid becomes $60 \%$ more than that of alcohol in the final mixture. Find the total quantity of acid in the final mixture.
A. 28 L
B. 24.4 L
C. 32.4 L
D. 28.6 L
E. 28.8 L
73.The ratio of sum of salaries of Anik and Bhuvan to the difference of their salaries is $9: 2$ and the ratio of sum of the salaries of Bhuvan and Charlie to the difference of their salaries is also $9: 2$. If Anik's salary is the highest and Charlie's the lowest, then what is Bhuvan's salary, given total of their salaries to be Rs. 494000?
A. Rs. 164000
B. Rs. 154000
C. Rs. 200000
D. Rs. 72000
E. None of these
74.Two vessels $A$ and $B$ of capacity 100 liters and 270 liters contains mixture of milk and water in the ratio of $3: 2$ and $5: 4$. When $30 \%$ of the mixture from vessel $A$ is taken out and added to vessel B. After mixing it thoroughly in vessel $B$ $50 \%$ of the mixture from vessel $B$ is taken out and added to vessel A

then find the ratio of milk and water in vessel A after the two procedure?
A. $19: 15$
B. $14: 17$
C. $63: 47$
D. 18:67
E. 16:89
75.A book consists of 110 pages, 32 lines on each page and 16 characters on each line. If this content is written in another notebook consisting of 44 pages and 20 lines on each page then the required number of character per line will be how much percentage more than the number of characters per line in first book?
A. $300 \%$
B. $250 \%$
C. $100 \%$
D. $175 \%$
E. $225 \%$

Direction: Study the following information carefully and answer the given question.

The given below pie chart shows the percentage distribution of population of seven villages of a block in 2006. There are only these 7 villages in block.

The given below table shows percentage of population below poverty line and ratio of number of males to females in every village.

| Village | Percentage of population <br> below poverty line | Ratio of number of <br> males to females |
| :---: | :---: | :---: |
| A | 45 | $2: 3$ |
| B | 50 | $1: 2$ |
| C | 60 | $5: 7$ |
| D | 40 | $12: 13$ |
| E | 20 | $7: 5$ |
| F | 25 | $1: 1$ |
| G | 30 | $3: 5$ |

76. If the total population of all the villages in 2006 is 120 lakhs than find the difference between the number of people who are above poverty line in Villages A and C?
A. 4.74 lakhs
B. 5.70 lakhs
C. 2.87 lakhs
D. 5.44 lakhs
E. 6.54 lakhs
77.If the number of people below poverty line in village $G$ is 9 lakhs then find the difference between the number of males and females in village $E$ ?

Clear All SBI \& IBPS 2022 Exams in First Attempt
A. 8 lakhs
B. 10 lakhs
C. 6 lakhs
D. 12 lakhs
E. 5 lakhs
78.The male population of village $F$ in 2007 is 10 lakhs which is $150 \%$ more than the male population of village F in 2006 then find the number of people above poverty line in village $F$ in 2006?
A. 17 lakhs
B. 12 lakhs
C. 16 lakhs
D. 6 lakhs
E. None of these
79.If the total population of village $B$ and $D$ is 99 lakhs then find the difference between the female population of village A and male population of village $C$.
A. 5.8 lakhs
B. 15.5 lakhs
C. 13.4 lakhs
D. 2.12 lakhs
E. 12.9 lakhs
80.If the number of people below poverty line in village $G$ is 18 lakhs then find the difference between the male population of village $E$ and female population of village $E$ ?
A. 40 lakhs
B. 30 lakhs
C. 20 lakhs
D. 12 lakhs
E. 18 lakhs

Direction: Read the following passage carefully and the questions given below it. Certain words/ phrases are given in bold to help you locate them while answering some of the questions.

Globalization is entering a new era, defined not only by cross-border flows of goods and capital, but also, and increasingly, by flows of data and information. This shift would seem to favor the advanced economies, whose industries are at the frontier in employing digital technologies in their products and operations. Will developing countries be left behind?

For decades, vying for the world's low-cost manufacturing business seemed to be the most promising way for low-income countries to climb the development ladder. Global trade in goods rose from $13.8 \%$ of world GDP in 1985 ( $\$ 2$ trillion) to $26.6 \%$ of GDP ( $\$ 16$ trillion) in 2007. Propelled by demand and outsourcing from advanced economies, emerging markets won a growing share of the soaring trade in goods; by 2014, they accounted for more than half of global trade flows.

Since the Great Recession, however, growth in global merchandise trade has stalled, mainly owing to anemic demand in the world's major economies and plummeting commodity prices. But

SBI \& IBPS 2022: A Sure Shot Success batch
(Batch 5)
START FREE TRIAL
Clear All SBI \& IBPS 2022 Exams in First Attempt
deeper structural changes are also playing a role. Many companies are simplifying and shortening their supply chains. For a range of goods, automation means that production location and outsourcing decisions no longer depend primarily on labor costs. Quality of talent, infrastructure, energy costs, and speed to market are assuming greater weight in such decisions. In the near future, 3D printing could further reduce the need to ship goods across long distances.

If trade in global goods has indeed peaked relative to global GDP, it will be harder for poor countries in Africa, Latin America, and Asia to develop by becoming the world's next workshops. But globalization itself is not in retreat. While global goods trade has stalled and crossborder financial flows have fallen sharply since 2007, flows of digital information have surged: Crossborder bandwidth use has grown 45 -fold over the past decade, circulating ideas, intellectual content, and innovation around the world.

New research from the McKinsey Global Institute (MGI) finds that cross-border flows of goods, services, finance, people, and data during this period increased world GDP by roughly $10 \%$ - roughly an additional $\$ 7.8$ trillion in 2014 alone. Data flows accounted for an estimated $\$ 2.8$ trillion of this gain,
exerting a larger impact than global goods trade - a remarkable finding, given that the world's trade networks developed over centuries while cross-border data flows were nascent just 15 years ago.

Digitization disrupts everything: the nature of goods changing hands; the universe of potential suppliers and customers; the method of delivery, and the capital and scale required to operate globally. It expands opportunities for more types of firms, individuals, and countries to participate in the global economy. It also gives countries and companies everywhere an opportunity to redefine their comparative and competitive advantage. For example, while the United States may have been at a disadvantage in a world where low labor costs were paramount in global manufacturing value chains, digital globalization plays directly to its strengths in technology and innovation.

On its face, this shift to digital globalization would seem to work against developing countries that have large pools of low-cost labor but inadequate infrastructure and education systems. Advanced economies dominate MGI's latest Connectedness Index, which ranks countries on both inflows and outflows of goods, services, finance, people, and data relative to their size and share in each type of global
flow. These flows are disproportionately concentrated among a small set of countries, including the US, the United Kingdom, Germany, and Singapore, with huge gaps between the leaders and laggards. China is the only emerging economy to have made it to the top ten on the index.

Yet digital flows offer developing countries new ways of engaging with the global economy. The nearzero marginal costs of digital communications and transactions create new possibilities for conducting cross-border business on a massive scale. Alibaba, Amazon, eBay, Flipkart, and Rakuten are turning millions of small enterprises around the world into "micro-multinational" exporters. Companies based in developing countries can overcome local market constraints and connect with customers, suppliers, financing, and talent worldwide. Twelve percent of global goods trade is already conducted in ecommerce channels.

Moreover, a country need not develop its own Silicon Valley to benefit. Countries on the periphery, of the network of global data flows, can benefit more than countries in the center. Digital connections promote productivity growth; indeed, they can help developing economies move to the productivity frontier by exposing
their business sectors to ideas, research, technologies, and best management and operational practices, and by building new channels to serve large global markets.

Source: https://www.projectsyndicate.org
81. How Countries on the perimeter of the network of global data flow benefits?
A. Cross-border bandwidth use has grown 45 -fold over the past decade, circulating ideas, intellectual content, and innovation around the world
B. Companies based in developing countries can overcome local market constraints and connect with customers, suppliers, financing, and talent worldwide
C. Digital connections promote productivity growth and they can help developing economies move to the productivity frontier by exposing their business sectors to ideas, research, technologies, and best management and operational practices by building new channels to serve large global markets
D. Both A and B
E. None of the above
82. Which among the following is TRUE according to the passage given above?
A. automation means that production location and outsourcing

SBI \& IBPS 2022: A Sure Shot Success batch

decisions no longer depend primarily on labor costs.
B. Alibaba, Amazon, eBay, Flipkart, and Rakuten are turning millions of small enterprises around the world into "micro-multinational" exporters.
C. Globalization is entering a new era, defined not only by crossborder flows of goods and capital, but also, and increasingly, by flows of data and information.
D. China is the only emerging economy to have made it to the top ten on the index.
E. All of above
83. What according to the author create new possibilities for conducting cross-border business on a massive scale?
A. The near-zero marginal costs of digital communications and transactions
B. by flows of data and information
C. the nature of goods changing hands; the universe of potential suppliers and customers
D. Both A and C
E. All of the above
84. How according to the passage Digitization disrupts everything?
A. the nature of goods changing hands; the universe of potential suppliers and customers; the method of delivery, and the capital and scale required to operate globally
B. the political backlash against globalization is gaining momentum
in many places even as digitization increases the opportunities and economic benefits that globalization has to offer
C. Digitization gives countries and companies everywhere an opportunity to redefine their comparative and competitive advantage.
D. both A and C
E. All of the above
85. What is the central theme of the passage?
A. New innovations around the world
B. Globalization is entering a new era
C. Twenty- first - century globalization
D. Digital globalization and developing world
E. All of the above
86. Which among the following is MOST SIMILAR in meaning to the word "periphery"?
A. mainstream
B. marrow
C. boundary
D. intermediacy
E. kernel
87. Which among the following is MOST OPPOSITE in meaning to the word "laggards"?
A. lingerer
B. loiterer
C. poke
D. procrastinator
E. workaholic

Direction: In the following passage, some of the words have been left out, each of which is indicated by a number. Find the suitable word from the options given against each number and fill up the blanks with appropriate words to make the paragraph meaningfully complete.
The coronavirus is a serious and largely (\#\#\#Q1\#\#\#) situation, one not to be taken lightly. Yet, amid the swirling vortex of uncertainty, you can't help but gawp in wonderment at how a stockpile of toilet rolls has become the new status symbol.
Hand sanitiser is a (\#\#\#Q2\#\#\#) being traded like gold. Common sense is often nowhere to be found. Think of the millions of merchandise items - aprons, keyrings, mugs and coasters - bearing the slogan, "Keep Calm and Carry On", that have been sold in recent years. This (\#\#\#Q3\#\#\#) did not age well. Keep Calm and Carry On. No bother. But first, just let me pop to Costco and buy 200 loo rolls.
I do wonder, though, if the folk (\#\#\#Q4\#\#\#) stockpiling toilet paper have confused coronavirus with norovirus? It's not an item high on my list.
Curiously, while there have been grumbles about (\#\#\#Q5\#\#\#) soap supplies on some supermarket shelves, this has sparked less of a frenzy than the new national (\#\#\#Q6\#\#\#) with hand sanitiser. Which doesn't say much for the
general standards of hygiene precoronavirus.
The disparaging term "the great unwashed" coined by Victorian writer Edward Bulwer-Lytton could be (\#\#\#Q7\#\#\#) and repurposed quite literally. As an airport worker wearily lamented: "The number of people who hand you their passport or boarding pass after they have had it in their mouth ..."
88. Find out the appropriate word in each case.
A. unprecedented
B. fertile
C. fatal
D. ruinous
E. None of these

C. Manohar Parrikar Institute for Defence Studies and Analyses
D. Observer Research Foundation

E . None of the above
140.Pradhan Mantri MUDRA Yojana is aimed at:
A. bringing the small entrepreneurs into formal financial system
B. providing loans to poor farmers for cultivating particular crops
C. providing pension to old and destitute persons
D. funding the voluntary organizations involved in the promotion of skill development and employment generation
E. None of the above
141.Which state has won the National Para-Swimming Championships 2022?
A. Tamil Nadu
B. Maharashtra
C. Uttarakhand
D. Karnataka
E. Goa
142.According to the Atal Ranking of Institutions on Innovation Achievements (ARIIA) 2021, which institute has been recognised as the Most Innovative Educational

Institute in India, in the technical ranking?
A. Indian Institute of Technology Bombay
B. Indian Institute of Technology Delhi
C. Indian Institute of Technology Madras
D. Indian Institute of Technology Roorkee
E. Indian Institute of Technology Kanpur
143. Which bank has signed a Memorandum of Understanding (MoU) with Assam Rifles to provide 'Central Forces Salary Package'?
A. Punjab National Bank
B. Bank of Baroda
C. State Bank of India
D. Canara Bank
E. Union Bank of India
144.Payment Banks are licensed under which of the following section of the Banking Regulation Act, 1949?
A. Section 32
B. Section 22
C. Section 38
D. Section 52
E. Section 36
145.According to Brand Finance's Global 500 study for 2022 which has retained its title as the world's most valuable brand?
A. Amazon
B. Google
C. Microsoft
D. Apple
E. Facebook

Clear All SBI \& IBPS 2022 Exams in First Attempt
146. Who won the Formula One Saudi Arabia Grand Prix 2022 held at Jeddah Corniche Circuit, Saudi Arabia?
A. Charles Leclerc
B. Max Verstappen
C. Carlos Sainz Jr.
D. George Russell
E. Lewis Hamilton
147.The RBI's Digital Payment Index, which shows the deepening of payments through digital modes in India, rose by what per cent in September 2021 against 217.74 in the year-ago month?
A. 32.75 per cent
B. 39.64 per cent
C. 42.67 per cent
D. 43.50 per cent
E. 57.50 per cent
148.According to Hurun Global Unicorn Index 2021, what is India's rank in having highest number of unicorns?
A. $3^{\text {rd }}$
B. $4^{\text {th }}$
C. $5^{\text {th }}$
D. $6^{\text {th }}$
E. $7^{\text {th }}$
149. Which regulatory body has launched Saa ₹thi mobile app to empower investors with the accurate knowledge of security market?
A. RBI
B. SEBI
C. SIDBI
D. NHB
E. FSDC
150.Miguel Van Damme passed away, was related to which sports?
A. Tennis
B. Badminton
C. Football
D. Archery
E. Swimming
151. Who has taken charge of Forest Research Institute as the new Director?
A. Arun Singh Rawat
B. Omkar Singh
C. Renu Singh
D. Lalaram Thanga
E. Preeti Desai
152. Which of the following is the most valued company in terms of Mcap?
A. Reliance Industries
B. TCS
C. HDFC Bank
D. Infosys
E. ICICI Bank
153.The country's first Digital Water Bank 'AQVERIUM' was launched in
$\qquad$ .
A. Ahmedabad
B. Jaisalmer
C. Bengaluru
D. Jaipur
E. Ranchi
154. Which institution releases the 'Financial Stability Report (FSR)'?
A. International Monetary Fund (IMF)
B. NITI Aayog
C. Reserve Bank of India (RBI)
D. World Bank
E. Asian Development Bank (ADB)
155.SHWAS and AROG Schemes are two quick delivery schemes for COVID Preparedness. It has been launched by $\qquad$ .
A. NABARD
B. SIDBI
C. PFRDA
D. RBI
E. IDBI
156. Which of the following statements is/are correct regarding the eligibility norms for entities tapping into data from credit information companies (CICs), or credit bureaus, laid down by the Reserve Bank of India?

1. Company must be owned and controlled by resident Indian citizens to become a specified user with a credit bureau.
2. In order to be eligible as a 'specified user', an entity must be a company incorporated in India or a statutory corporation established in India.
3. Companies should have a net worth of not less than 2 crore rupees as per the latest audited balance sheet.
A. Only 2 and 3
B. Only 1 and 3
C. Only 1 and 2
D. Only 3
E. All 1, 2 and 3
157.In partnership with the National Payments Corporation of India (NPCI) which bank has
launched a `RuPay Select Contactless Debit Card' with a host of benefits for its premium/HNI (High Networth Individuals) customers?
A. UCO Bank
B. Union Bank of India
C. Bank of Maharshtra
D. Indian Bank
E. Canara Bank
4. Which of the following National Park is not situated in Andaman and Nicobar?
A. Galathea National Park
B. Mahatma Gandhi Marine National

Park
C. Mount Harriet National Park
D. Darrah National Park
E. None of the above
159.According to the World Economic Outlook report released in January 2022, what will be India's economic growth rate in the fiscal 2021-22 (FY22)?
A. 8.0 percent
B. 8.5 percent
C. 9.0 percent
D. 9.5 percent
E. 9.8 percent
160.Digital marketplace for consumer credit, paisabazaar.com has partnered with which bank to launch a pre-qualified program for unsecured loans on its platform?
A. ICICI Bank
B. IndusInd Bank
C. HDFC Bank
D. Axis Bank
E. Yes Bank

Clear All SBI \& IBPS 2022 Exams in First Attempt

## ANSWERS

1. Ans. A.

The Platinum laptop does not belong to $S$.
The owner of the Lenovo laptop which is Blue is adjacent to $T$ who does not own a Red laptop. P does not own a Black laptop.
$P$ have an Acer laptop of neither Blue or Red.

$R$ sits immediate left of $T$, neither is adjacent to P .
Thas a laptop of neither Lenovo nor HP.

The person having Red laptop sits second to the right of the one having Platinum laptop. R's laptop is not Red.

CASE III

S owns neither Dell nor HP laptop. The owner of Lenovo laptop which is Blue in colour is adjacent to T . Thus, case I is invalid.

Therefore, this is the final arrangement.

Clear All SBI \& IBPS 2022 Exams in First Attempt

Thus, no person is seated between the persons having Red and Blue when counted anti-clockwise from the Red laptop owner.
2. Ans. B.

The Platinum laptop does not belong to S .
The owner of the Lenovo laptop which is Blue is adjacent to T who does not own a Red laptop. P does not own a Black laptop.
$P$ have an Acer laptop of neither Blue or Red.

$R$ sits immediate left of $T$, neither is adjacent to P .
Thas a laptop of neither Lenovo nor HP.

P Acer

The person having Red laptop sits second to the right of the one having Platinum laptop.

R's laptop is not Red.
Conel
Case II

CASE III

S owns neither Dell nor HP laptop. The owner of Lenovo laptop which is Blue in colour is adjacent to T . Thus, case I is invalid.

Clear All SBI \& IBPS 2022 Exams in First Attempt

Therefore, this is the final arrangement.
Thus, S owns Red laptop.
3. Ans. D.

The Platinum laptop does not belong to S .
The owner of the Lenovo laptop which is Blue is adjacent to T who does not own a Red laptop. P does not own a Black laptop.
$P$ have an Acer laptop of neither Blue or Red.

$R$ sits immediate left of $T$, neither is adjacent to P .
Thas a laptop of neither Lenovo nor HP.

The person having Red laptop sits second to the right of the one having Platinum laptop. R's laptop is not Red. Case 1

Case II

CASE III

S owns neither Dell nor HP laptop.

Clear All SBI \& IBPS 2022 Exams in First Attempt

The owner of Lenovo laptop which is Blue in colour is adjacent to T .
Thus, case I is invalid.

Therefore, this is the final arrangement.
Thus, S is immediate neighbour of R.
4. Ans. A.

The Platinum laptop does not belong to S .
The owner of the Lenovo laptop which is Blue is adjacent to $T$ who does not own a Red laptop. P does not own a Black laptop.
$P$ have an Acer laptop of neither Blue or Red.

$R$ sits immediate left of $T$, neither is adjacent to P .
Thas a laptop of neither Lenovo nor HP.

The person having Red laptop sits second to the right of the one having Platinum laptop. R's laptop is not Red. Case I

CASE III

S owns neither Dell nor HP laptop.

Clear All SBI \& IBPS 2022 Exams in First Attempt

The owner of Lenovo laptop which is Blue in colour is adjacent to T .
Thus, case I is invalid.

Therefore, this is the final arrangement.
Q has HP laptop.
5. Ans. C.

The Platinum laptop does not belong to S .
The owner of the Lenovo laptop which is Blue is adjacent to $T$ who does not own a Red laptop. P does not own a Black laptop.
$P$ have an Acer laptop of neither Blue or Red.

$R$ sits immediate left of $T$, neither is adjacent to P .
Thas a laptop of neither Lenovo nor HP.

The person having Red laptop sits second to the right of the one having Platinum laptop. R's laptop is not Red. Case 1

Case II

S owns neither Dell nor HP laptop. The owner of Lenovo laptop which is Blue in colour is adjacent to T .
Thus, case I is invalid.

Therefore, this is the final arrangement.

Clear All SBI \& IBPS 2022 Exams in First Attempt

Hence, R sits third to the left of the Black coloured laptop owner.
6. Ans. D.

| Symbol | Relation |
| :---: | :---: |
| + | Male |
| - | Female |
| - | Sibling |
| $\bar{z}$ | Couple |
|  | Child |

Hence, $M$ is the son-in-law of $R$.
7. Ans. D.

| Symbol | Relation |
| :---: | :---: |
| + | Male |
| - | Female |
| - | Sibling |
| $\overline{ }$ | Couple |
|  | Child |

Hence, $S$ is the uncle of $T$.
8. Ans. E.

| Symbol | Relation |
| :---: | :---: |
| + | Male |
| - | Female |
| - | Sibling |
| $\overline{ }$ | Couple |
| $\square$ | Child |

V is a female.
9. Ans. B.

Clearly, ' $E$ ' is tenth to the right of eighteenth element from the left end.
10. Ans. B.

A 9 B, O $5 \mathrm{~K}, \mathrm{U} 3 \mathrm{H}, \mathrm{E} 8 \mathrm{M}$
Clearly, there are four numbers which are immediately preceded by a vowel and immediately followed by a consonant.
11. Ans. C.

If all the odd numbers are removed from the given series:
TYVABN2LPOKW4ZDFC6 GUHJE8M
Clearly, 'C' is seventeenth element from the left end.
12. Ans. C.

If last ten elements are removed from the given series:

Clear All SBI \& IBPS 2022 Exams in First Attempt

T1 Y V A 9 B N 2 LPO5KW4ZD F C
Clearly, 'L' is eleventh letter from the right end.
13. Ans. B.
' 7 ' is the fifth element from the right end and ' 2 ' is the ninth element from the left end.
T1 Y VA 9 BN 2 LPO5KW4Z DFC6GU3H7JE8M
Clearly, four numbers are there between the fifth element from the right end and ninth element from the left end.
14. Ans. D.

1) H was born on even numbered date in the month having less than 31 days.
2) Number of people were born after H is one more than before A .
Here we have 2 cases:

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February $2^{\text {nd }}$ | H |  |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ |  | A |
| March $13^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ |  | H |
| June $13^{\text {th }}$ |  |  |
| July $2^{\text {nd }}$ | A |  |
| July $13^{\text {th }}$ |  |  |

3) Three people were born between A and G.
4) One person was born between $A$ and $C$.

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February 2 |  |  |
| 年d | H | C |
| March 2 $^{\text {nd }}$ |  |  |
| March 13 | G | A |
| June $2^{\text {th }}$ |  |  |
| June 13 | C | H |
| July $2^{\text {th }}$ |  |  |
| July $13^{\text {th }}$ | A | G |

5) Three people were born between $F$ and $E$.
6) E born in the same month with G.
7) Only one person born between $E$ and $B$.
8) $B$ and $H$ does not born in the same month.
Case 2 eliminated:

| Month and date | People |
| :---: | :---: |
| February $2^{\text {nd }}$ | H |
| February $13^{\text {th }}$ | D |
| March $2^{\text {nd }}$ | G |
| March $13^{\text {th }}$ | E |
| June $2^{\text {nd }}$ | C |
| June $13^{\text {th }}$ | B |
| July $2^{\text {nd }}$ | A |
| July $13^{\text {th }}$ | F |

Hence, C was born on $2^{\text {nd }}$ June 15. Ans. C.

1) H was born on even numbered date in the month having less than 31 days.
2) Number of people were born after $H$ is one more than before $A$.
Here we have 2 cases:

Clear All SBI \& IBPS 2022 Exams in First Attempt

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February 2 2 | H |  |
| February 13 |  |  |
| March $3^{\text {nd }}$ |  |  |
| March $13^{\text {th }}$ |  | A |
| June 2 $^{\text {th }}$ |  |  |
| June 13 |  | H |
| July $3^{\text {th }}$ |  |  |
| July $13^{\text {th }}$ | A |  |
|  |  |  |

3) Three people were born between A and G.
4) One person was born between $A$ and $C$.

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February $2^{\text {nd }}$ | H | C |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ | G | A |
| March $13^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ | C | H |
| June $13^{\text {th }}$ |  |  |
| July $2^{\text {nd }}$ | A | G |
| July $13^{\text {th }}$ |  |  |

5) Three people were born between $F$ and $E$.
6) E born in the same month with G.
7) Only one person born between $E$ and $B$.
8) $B$ and $H$ does not born in the same month.
Case 2 eliminated:

| Month and date | People |
| :---: | :---: |
| February 2 | H |
| February $13^{\text {th }}$ | D |
| March $2^{\text {nd }}$ | G |
| March $13^{\text {th }}$ | E |
| June $2^{\text {nd }}$ | C |
| June $13^{\text {th }}$ | B |
| July $2^{\text {nd }}$ | A |
| July $13^{\text {th }}$ | F |

Hence, $H$ and $G$ were born in the same date
16. Ans. A.

1) H was born on even numbered date in the month having less than 31 days.
2) Number of people were born after $H$ is one more than before $A$.
Here we have 2 cases:

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February $2^{\text {nd }}$ | H |  |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ |  | A |
| March $13^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ |  | H |
| June 13 ${ }^{\text {th }}$ |  |  |
| July $2^{\text {nd }}$ | A |  |
| July $13^{\text {th }}$ |  |  |

3) Three people were born between A and G.
4) One person was born between $A$ and $C$.

Clear All SBI \& IBPS 2022 Exams in First Attempt

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February 2 ${ }^{\text {nd }}$ | H | C |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ | G | A |
| March $13^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ | C | H |
| June 13 |  |  |
| July $2^{\text {th }}$ | A | G |
| July $13^{\text {th }}$ |  |  |

5) Three people were born between $F$ and $E$.
6) E born in the same month with G.
7) Only one person born between $E$ and $B$.
8) $B$ and $H$ does not born in the same month.
Case 2 eliminated:

| Month and date | People |
| :---: | :---: |
| February $2^{\text {nd }}$ | H |
| February $13^{\text {th }}$ | D |
| March $2^{\text {nd }}$ | G |
| March $13^{\text {th }}$ | E |
| June $2^{\text {nd }}$ | C |
| June $13^{\text {th }}$ | B |
| July $2^{\text {nd }}$ | A |
| July $13^{\text {th }}$ | F |

Hence, two people were born before G
17. Ans. B.

1) H was born on even numbered date in the month having less than 31 days.
2) Number of people were born after H is one more than before A . Here we have 2 cases:

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February $\mathbf{2}^{\text {nd }}$ | H |  |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ |  | A |
| March $13^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ |  | H |
| June $13^{\text {th }}$ |  |  |
| July $2^{\text {nd }}$ | A |  |
| July $13^{\text {th }}$ |  |  |

3) Three people were born between A and G.
4) One person was born between $A$ and $C$.

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February $\mathbf{2}^{\text {nd }}$ | H | C |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ | G | A |
| March $13^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ | C | H |
| June 13 ${ }^{\text {th }}$ |  |  |
| July $2^{\text {nd }}$ | A | G |
| July $13^{\text {th }}$ |  |  |

5) Three people were born between $F$ and $E$.
6) E born in the same month with G.
7) Only one person born between $E$ and $B$.
8) $B$ and $H$ does not born in the same month.
Case 2 eliminated:

Clear All SBI \& IBPS 2022 Exams in First Attempt

| Month and date | People |
| :---: | :---: |
| February $2^{\text {nd }}$ | H |
| February $13^{\text {th }}$ | D |
| March $2^{\text {nd }}$ | G |
| March $13^{\text {th }}$ | E |
| June $2^{\text {nd }}$ | C |
| June $13^{\text {th }}$ | B |
| July $2^{\text {nd }}$ | A |
| July $13^{\text {th }}$ | F |

Hence, D was born in $13^{\text {th }}$ February. 18. Ans. E.

1) H was born on even numbered date in the month having less than 31 days.
2) Number of people were born after H is one more than before A .
Here we have 2 cases:

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February $2^{\text {nd }}$ | H |  |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ |  | A |
| March 13 ${ }^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ |  | H |
| June $13^{\text {th }}$ |  |  |
| July $2^{\text {nd }}$ | A |  |
| July $13^{\text {th }}$ |  |  |

3) Three people were born between A and G.
4) One person was born between $A$ and $C$.

|  | Case 1 | Case 2 |
| :---: | :---: | :---: |
| Month and date | People | People |
| February $2^{\text {nd }}$ | H | C |
| February $13^{\text {th }}$ |  |  |
| March $2^{\text {nd }}$ | G | A |
| March $13^{\text {th }}$ |  |  |
| June $2^{\text {nd }}$ | C | H |
| June $13^{\text {th }}$ |  |  |
| July $2^{\text {nd }}$ | A | G |
| July $13^{\text {th }}$ |  |  |

5) Three people were born between $F$ and $E$.
6) E born in the same month with G. 7) Only one person born between $E$ and $B$.
7) $B$ and $H$ does not born in the same month.
Case 2 eliminated:

| Month and date | People |
| :---: | :---: |
| February 2 | H |
| February $13^{\text {th }}$ | D |
| March $2^{\text {nd }}$ | G |
| March $13^{\text {th }}$ | E |
| June $2^{\text {nd }}$ | C |
| June 13 |  |
| th | B |
| July $2^{\text {nd }}$ | A |
| July $13^{\text {th }}$ | F |

Hence, four people were born between D and $A$.
19. Ans. A.

All calls being missed is a possibility $====>$ follows

Required distance $=\sqrt{ } 60^{2}+6^{2}=$ $6 \sqrt{ } 101 \mathrm{~m}$
Therefore, option C is the correct answer.
26. Ans. D.

Therefore, option D is the correct answer.
27. Ans. E.

1) Circle box is placed at the topmost position.
2) Two boxes are placed between Circle box and the triangle box.
3) There are at most one box between triangle box and oval box.

| Number | Shape of Box |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Case I | Case II | Case III | Case IV |
| 9 | Circle | Circle | Circle | Circle |
| 8 | Oval |  |  |  |
| 7 |  | Oval |  |  |
| 6 | Triangle | Triangle | Triangle | Triangle |
| 5 |  |  | Oval |  |
| 4 |  |  |  | Oval |
| 3 |  |  |  |  |
| 2 |  |  |  |  |
| 1 |  |  |  |  |

4) Trapezium box is immediately below the oval box.
This is not possible in case II, thus case II is eliminated.

| Number | Shape of Box |  |  |
| :---: | :---: | :---: | :---: |
|  | Case I | Case III | Case IV |
| 9 | Circle | Circle | Circle |
| 8 | Oval |  |  |
| 7 | Trapezium |  |  |
| 6 | Triangle | Triangle | Triangle |
| 5 |  | Oval |  |
| 4 |  | Trapezium | Oval |
| 3 |  |  | Trapezium |
| 2 |  |  |  |
| 1 |  |  |  |

5) Square box and rectangle box have six boxes in between them.
6) Rectangle box is below square box.
This is not possible in case I, thus case I get eliminated.

| Number | Shape of Box |  |
| :---: | :---: | :---: |
|  | Case III | Case IV |
| 9 | Circle | Circle |
| 8 | Square | Square |
| 7 |  |  |
| 6 | Triangle | Triangle |
| 5 | Oval |  |
| 4 | Trapezium | Oval |
| 3 |  | Trapezium |
| 2 |  |  |
| 1 | Rectangle | Rectangle |

7) The pentagon box is immediately below the Hexagon box.
This is not possible in case IV, thus case IV is eliminated and we get,

Clear All SBI \& IBPS 2022 Exams in First Attempt

| Number | Shape of Box |
| :---: | :---: |
| 9 | Circle |
| 8 | Square |
| 7 | Octagon |
| 6 | Triangle |
| 5 | Oval |
| 4 | Trapezium |
| 3 | Hexagon |
| 2 | Pentagon |
| 1 | Rectangle |

Clearly, none of the statements is true.
28. Ans. E.

1) Circle box is placed at the topmost position.
2) Two boxes are placed between Circle box and the triangle box.
3) There are at most one box between triangle box and oval box.

| Number | Shape of Box |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Case I | Case II | Case III | Case IV |

| 5 | Oval |  |
| 4 | Trapezium | Oval |
| 3 |  | Trapezium |
| 2 |  |  |
| 1 | Rectangle | Rectangle |

7) The pentagon box is immediately below the Hexagon box.
This is not possible in case IV, thus case IV is eliminated and we get,

Clear All SBI \& IBPS 2022 Exams in First Attempt

| Number | Shape of Box |
| :---: | :---: |
| 9 | Circle |
| 8 | Square |
| 7 | Octagon |
| 6 | Triangle |
| 5 | Oval |
| 4 | Trapezium |
| 3 | Hexagon |
| 2 | Pentagon |
| 1 | Rectangle |

Clearly, none of the pairs is correctly matched.
29. Ans. D.

1) Circle box is placed at the topmost position.
2) Two boxes are placed between Circle box and the triangle box.
3) There are at most one box between triangle box and oval box.

| Number | Shape of Box |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Case I | Case II | Case III | Case IV |
| 9 | Circle | Circle | Circle | Circle |
| 8 | Oval |  |  |  |
| 7 |  | Oval |  |  |

| 4 | Trapezium | Oval |
| 3 |  | Trapezium |
| 2 |  |  |
| 1 | Rectangle | Rectangle |

7) The pentagon box is immediately below the Hexagon box.
This is not possible in case IV, thus case IV is eliminated and we get,

Clear All SBI \& IBPS 2022 Exams in First Attempt

| Number | Shape of Box |
| :---: | :---: |
| 9 | Circle |
| 8 | Square |
| 7 | Octagon |
| 6 | Triangle |
| 5 | Oval |
| 4 | Trapezium |
| 3 | Hexagon |
| 2 | Pentagon |
| 1 | Rectangle |

Clearly, the box on which number 4 is written is of trapezium shape.
32. Ans. C.

Number of boys is $=90 *(2 / 3)=60$
Number of girls $=90-60=30$
Prakash is ranked with 13 i.e. 12 students are ahead of him in who five are girls. So, number of boys who is ahead is 7 .
Number of boys after him in the class is $=60-7-1=52$ boys.
Hence option C is correct.
33. Ans. D.

There is no standard set in the statement that could tell us about the 'hit' or 'flop' status of GST. Hence, option D is the correct option.
34. Ans. E.

The correct answer is option E, i.e. Only I is implicit.
An assumption is a thing that is accepted as true or as certain to happen, without proof.
From the statement, it is evident that Jet Airways has trimmed its fleet by 28 planes and will ground about a dozen more aircraft in March mainly due to non-payment
of rentals. And other supporting information is also evident.
Assumption (I) can be assumed on the basis of the fact that since the airline is trimming down its fleet thus, it has to make adjustments for the customers and has to keep them informed regarding change of plans related to accommodation or flight schedules. It is a suitable assumption in the same direction as the flow of ideas and is not specific to a particular scenario.
Assumption (II) is specific in the sense of getting approval from the stake holders. It covers a specific aspect of the impact and is thus not backed up by the information stated. Thus, it is rejected.
Thus, only assumption (I) is relevant and hence and the most appropriate answer choice is option E
35. Ans. E.

The main statement talks about the measures to be taken to prevent the occurrence of bad debts. The given courses of action are some of the important steps to be taken in this process. To ensure that debts taken are repaid promptly, the customers' requirements and future prospects ought to be studies and their work constantly checked. Thus, both the courses follow.
36. Ans. B.

1. Q sits fourth to the right of $G$, who sits third from an end.
2. Five people sit between $Q$ and $R$, who sits second to the left of $P$.
3. $M$ sits fourth to the right of $P$.

(Here, case 1 will be eliminated and we will continue with the case 2 )

Case 1

Case 2

10. R and J (both face the opposite directions) are not sitting to the right of M .
11. M and Q (who is not sitting to the right of J) face the opposite directions.

$S$ and $R$ face the same direction.
41. Ans. A.

Income of Company C in $2019=56$ Lakh
Profit \% of Company C in 2019 = 40\%
Now applying the formula of Profit \% :
Profit $\%=\frac{\text { Income }- \text { Expenditure }}{\text { Expenditure }} \times 100$ 56,00,000-Expenditure
$40=$ Expenditure $\times 100$
$0.4 \times$ Expenditure $=56,00,000-$ Expenditure
$1.4 \times$ Expenditure $=56,00,000$
Expenditure $=\frac{56,00,000}{1.4}$
Expenditure $=40$ Lakh
42. Ans. D.

Expenditure of Company A in 2018 = 35 Lakh
Profit \% of Company A in $2018=$ 45\%
Now applying the formula of Profit \% :

$15,75,000=$ Income $-35,00,000$
Income $=15,75,000+35,00,000$
Income $=50.75$ Lakh
43. Ans. E.

Sum of Income of Company A, B , C in the year $2018=72$ Lakh
We can not find the sum of Expenditure of these Companies since they all have different Profit \% in the year 2018 and also the ratio their individual income is not given.
So, we Can't be determined the sum of their Expenditure.
44. Ans. D.

Income of Company A in $2019=55$ Lakh
Profit \% of Company A in $2019=$ 35\%
Now applying the formula of Profit \% :

SBI \& IBPS 2022: A Sure Shot Success batch (Batch 5)
Clear All SBI \& IBPS 2022 Exams in First Attempt
Profit $\%=\frac{\text { Income-Expenditure }}{\text { Expenditure }} \times 100$
$35=\frac{55,00,000-\text { Expenditure }}{\text { Expenditure }} \times 100$
$0.35 \quad \times \quad$ Expenditure $=$

55,00,000 - Expenditure
$1.35 \times$ Expenditure $=55,00,000$
Expenditure $=\frac{55,00,000}{1.35}$
Profit $=$ Income - Expenditure $\frac{55,00,000}{1.35}$ $0.35 \times 55,00,000$
Profit =
Profit $=14.26$ Lakh
45. Ans. B.

Let the Expenditure of Company D in 2018 \& 2019 equals to E .
Profit \% of Company D in $2018=$ 50\%
Profit \% of Company D in $2019=$ 55\%
Let the Income of Company $D$ in $2018=I_{1}$
Let the Income of Company $D$ in $2019=I_{2}$
For the year $2018: \frac{50}{100}=\frac{I_{1}-E}{E}$
$I_{1}=1.5 \times \mathrm{E} \ldots \ldots \ldots \ldots . .$. eqn. 1
For the year $2019: \frac{55}{100}=\frac{I_{2}-E}{E}$
$I_{2}=1.55 \times \mathrm{E}$ $\qquad$ eqn. 2
Divide eqn. 1 by eqn. 2 $\qquad$
$\frac{I_{1}}{I_{2}}=\frac{1.5 \times \mathrm{E}}{1.55 \times \mathrm{E}}$
$I_{1}: I_{2}=30: 31$
46. Ans. D.

Pattern of series is:
$100 \times 1+2=102$
$102 \times 3+4=310$
$310 \times 5+6=1556$
$1556 \times 7+8=10900$
$10900 \times 9+10=98110$
Hence, 10900 will come in place of question mark.
47. Ans. A.

The pattern of the series is:
$14+56=70$
$70+28=98$
$98+14=112$
$112+7=119$
$119+3.5=122.5$
Hence, the missing number is 122.5 .
48. Ans. E.

Pattern of the series is:
$2 \times 4+10=18$
$18 \times 4+10=82$
$82 \times 4+10=338$
$338 \times 4+10=1362$
$1362 \times 4+10=5458$
Hence, 5458 will come in place of question mark.
49. Ans. B.

Pattern of the series is:
$3^{2}-3=6$
$5^{2}-3=22$
$7^{2}-3=46$
$9^{2}-3=78$
$11^{2}-3=118$
$13^{2}-3=166$
50. Ans. A.

Pattern of the series is:
$9.5 \times 5=47.5$
$47.5 \times 4.5=213.75$
$213.75 \times 4=855$
$855 \times 3.5=2992.50$
$2992.50 \times 3=8977.50$

Clear All SBI \& IBPS 2022 Exams in First Attempt
$8977.50 \times 2.5=22443.75$
51. Ans. A.
I. $2 x^{2}-5 x+2=0$
$\Rightarrow 2 x^{2}-4 x-x+2=0$
$\Rightarrow 2 x(x-2)-1(x-2)=0$
$\Rightarrow(2 x-1)(x-2)=0$
$\Rightarrow \quad x=\frac{1}{2}, 2$
II. $3 y^{2}+28 y+9=0$
$\Rightarrow 3 y^{2}+27 y+y+9=0$
$\Rightarrow 3 y(y+9)+1(y+9)=0$
$\Rightarrow(3 y+1)(y+9)=0$
$\Rightarrow y=-\frac{1}{3},-9$
Hence, $y<x$.
52. Ans. E.
I. $x^{2}-8 x+\sqrt{144}=0$
$\Rightarrow x^{2}-6 x-2 x+12=0$
$\Rightarrow x(x-6)-2(x-6)=0$
$\Rightarrow(x-6)(x-2)=0$
$\Rightarrow x=6,2$
II. $2 y^{2}-21 y=3 y$
$\Rightarrow 2 y^{2}=3 y+21 y$
$\Rightarrow y^{2}=12 y$
$\Rightarrow y^{2}-12 y=0$
$\Rightarrow y(y-12)=0$
$\Rightarrow y=0,12$

| x | Relation | y |
| :---: | :---: | :---: |
| 6 | $<$ | 12 |
| 6 | $>$ | 0 |
| 2 | $>$ | 0 |
| 2 | $<$ | 12 |

Hence, relationship between $x$ and y can't be established.
53. Ans. E.
I. $14 X^{2}+6 X=3 X+2$
$\Rightarrow 14 \mathrm{X}^{2}+3 \mathrm{X}-2=0$
$\Rightarrow 14 X^{2}+7 X-4 X-2=0$
$\Rightarrow 7 X(2 X+1)-2(2 X+1)=0$
$\Rightarrow(2 X+1)(7 X-2)=0$
$\Rightarrow X=-\frac{1}{2}$ and $\frac{2}{7}$
II. $5 Y^{2}+8 Y=6 Y+3$
$\Rightarrow 5 Y^{2}+2 Y-3=0$
$\Rightarrow 5 Y^{2}+5 Y-3 Y-3=0$
$\Rightarrow 5 Y(Y+1)-3(Y+1)=0$
$\Rightarrow(Y+1)(5 Y-3)=0$
$\Rightarrow Y=-1$ and $^{5}$
Hence, no relation can be established.
54. Ans. B.
I. $8 \mathrm{X}^{2}+\frac{1}{4}=\frac{12 \mathrm{X}}{4}$
$\Rightarrow 32 \mathrm{X}^{2}-12 \mathrm{X}+1=0$
$\Rightarrow 32 \mathrm{X}^{2}-8 \mathrm{X}-4 \mathrm{X}+1=0$
$\Rightarrow 8 \mathrm{X}(4 \mathrm{X}-1)-1(4 \mathrm{X}-1)=0$
$\Rightarrow(4 X-1)(8 X-1)=0$
$\Rightarrow X={ }^{\frac{1}{4}}$ and ${ }^{\frac{1}{8}}$
II. $9 Y^{2}-6 Y+1=0$
$\Rightarrow 9 Y^{2}-3 Y-3 Y+1=0$
$\Rightarrow 3 Y(3 Y-1)-1(3 Y-1)=0$
$\Rightarrow(3 Y-1)(3 Y-1)=0$
$\Rightarrow Y=\frac{1}{3}$
Hence, $X<Y$.
55. Ans. B.
I. $x^{2}-27 x+162=0$
$\Rightarrow x^{2}-9 x-18 x+162=0$
$\Rightarrow x(x-9)-18(x-9)=0$
$\Rightarrow(x-9)(x-18)=0$
$\Rightarrow x=9,18$
II. $y^{2}-43 y+450=0$
$\Rightarrow y^{2}-18 y-25 y+450=0$

SBI \& IBPS 2022: A Sure Shot Success batch
Clear All SBI \& IBPS 2022 Exams in First Attempt
$\Rightarrow y(y-18)-25(y-18)=0$
$\Rightarrow(y-25)(y-18)=0$
$\Rightarrow y=18,25$

| $x$ | Relation | $y$ |
| :---: | :---: | :---: |
| 9 | $<$ | 18 |
| 9 | $<$ | 25 |
| 18 | $=$ | 18 |
| 18 | $<$ | 25 |

So, $x \leq y$.
Hence, option B is correct.
56. Ans. A.

Let the female population of the village in 2018 be ' $400 x^{\prime}$.
So, the male population of the village in $2018=400 x \times 1.5=600 x$ Male population of the village in $2020=1.25 \times 1.25 \times 600 x=$ 937.5x

Female population of the village in $2020=0.80 \times 0.80 \times 400 x=256 x$ So, the population of the village in $2020=937.5 x+256 x=1193.5 x$ Percentage increase in population $=$ 1193.5x-1000x

$$
1000 \mathrm{x} \times 100=19.35 \%
$$

57. Ans. A.

Capital invested by Chirag = 1 - ( $\left.\frac{2}{3}+\frac{1}{4}\right)$
$=\frac{1}{12}$
Ratio of profit $=\frac{2}{9}: \frac{1}{6}: \frac{1}{12}$
= 8: 6: 3
Sneha's share $=\frac{6}{8+6+3} \times 3060$
$=6 \times 180$
$=$ Rs. 1080
58. Ans. C.

Let speed of boat in still water be $\mathrm{V}_{\mathrm{b}}$ $\mathrm{km} / \mathrm{h}$.

Let speed of stream be $\mathrm{V}_{\mathrm{r}} \mathrm{km} / \mathrm{h}$ and distance travelled upstream be d km.
$\mathrm{V}_{\mathrm{b}}+\mathrm{V}_{\mathrm{r}}=\frac{3}{2}\left(\mathrm{~V}_{\mathrm{b}}-\mathrm{V}_{\mathrm{r}}\right)$
$\Rightarrow 2 \mathrm{~V}_{\mathrm{b}}+2 \mathrm{Vr}=3 \mathrm{~V}_{\mathrm{b}}-3 \mathrm{~V}_{\mathrm{r}}$
$\Rightarrow \mathrm{V}_{\mathrm{b}}=5 \mathrm{~V}_{\mathrm{r}}$
Let the distance travelled by boat be d km.

$$
\frac{d}{V_{b}-V_{\mathrm{f}}}=4
$$

$$
\Rightarrow \frac{\mathrm{d}}{5 \mathrm{~V}_{\mathrm{r}}-\mathrm{V}_{\mathrm{r}}}=4 \Rightarrow \frac{\mathrm{~d}}{\mathrm{~V}_{\mathrm{r}}}=16
$$

$\therefore$ Time taken $=16 \mathrm{~h}$
59. Ans. A.

Let the cost prices of each mobile and earphone be Rs. ' $x$ '.
Marked price of the mobile $=$ Rs. 1.6x

Selling price of the mobile $=1.6 \mathrm{x} \times$ $0.75=$ Rs. 1.2 x
Marked price of the earphone $=$ Rs. 1.5x

Selling price of the earphone $=1.5 x$ $\times 0.70=$ Rs. 1.05 x
According to question,

SBI \& IBPS 2022: A Sure Shot Success batch
Clear All SBI \& IBPS 2022 Exams in First Attempt
$1.2 \mathrm{x}+1.05 \mathrm{x}-2 \mathrm{x}=2500$
$\Rightarrow 0.25 x=2500$
$\Rightarrow x=10000$
So, the cost price of the mobile $=$
Rs. 10,000
60. Ans. A.

By the rule of M.D.H rule
$10 \mathrm{~m} \times 12=25 \mathrm{w} \times 12$
$\Rightarrow 120 \mathrm{~m}=300 \mathrm{w}$
$\Rightarrow \mathrm{m} / \mathrm{w}=300 / 120$
$\Rightarrow \mathrm{m} / \mathrm{w}=5 / 2$
Let total units of work $=10 \times 5 \times$ $12=600$ units
Units of work done in one day $=$ $600 / 20=30$ units
So,
$x \times 5+2(x+8)=30$
$\Rightarrow 5 \mathrm{x}+2 \mathrm{x}+16=30$
$\Rightarrow 7 x=14$
$\Rightarrow x=2$
Number of women $=2+8=10$ women
61. Ans. B.

By approximation, we get:
$15 \times(?)^{3}+(15)^{2}=(40)^{2}-400$
$\Rightarrow 15 \times(?)^{3}+225=1600-400$
$\Rightarrow 15 \times(?)^{3}+225=1200$
$\Rightarrow 15 \times(\text { ? })^{3}=1200-225$
$\Rightarrow 15 \times(?)^{3}=975$
$\Rightarrow(?)^{3}=975 \div 15$
$\Rightarrow(?)^{3}=65 \approx 64$
$\Rightarrow$ ? $=\sqrt[3]{64}=4$
62. Ans. A.

By approximation, we get:

$$
\begin{aligned}
& \frac{1040}{?}-1340=20 \% \text { of } 900-1440 \\
& \Rightarrow \frac{1040}{?}-1340=\frac{20}{100} \times 900-1440 \\
& \Rightarrow \frac{1040}{?}=1340+180-1440
\end{aligned}
$$

$\Rightarrow \frac{1040}{?}=80$
$\Rightarrow$ ? $=\frac{\frac{1040}{80}}{80} 13$
63. Ans. C.

By approximation, we get:

$$
\begin{aligned}
& \frac{50 \times \sqrt{?}}{60}=16^{2}-9^{2} \\
& \Rightarrow \frac{5 \times \sqrt{?}}{6}=(16+9)(16-9) \\
& \Rightarrow \sqrt{?}=\frac{25 \times 7 \times 6}{5} \\
& \Rightarrow \sqrt{?}=210 \\
& \Rightarrow ?=44100
\end{aligned}
$$

64. Ans. A.
$(9.12 \times 6.01-4.99 \times 7.89) \times ?=$ 6.99
$\Rightarrow(9 \times 6-5 \times 8) \times ?=7$
$\Rightarrow(54-40) \times$ ? $=7$
$\Rightarrow 14 \times$ ? $=7$
$\Rightarrow$ ? $=\frac{7}{14}$
$\Rightarrow$ ? $=1 / 2$
$\Rightarrow$ ? $=0.5$
65. Ans. B.

By approximation, we get:
$2730 \div 455+\sqrt{961}+?^{2}=\sqrt{5329}$
$\Rightarrow 2730 \times \frac{1}{455}+31+?^{2}=73$
$\Rightarrow 6+31+?^{2}=73$
$\Rightarrow ?^{2}=73-37=36$
$\Rightarrow$ ? $=6$
66. Ans. A.

Let the male students applied for P.O, S.O and clerk be $x, y$ and $z$ respectively,
In addition, female students applied for P.O, S.O and clerk be a, b and c respectively.

Clear All SBI \& IBPS 2022 Exams in First Attempt

Given conditions are
z $=3 x$--------- (I)
$y=120+x$--------- (ii)
x : a = 2: 3 --------- (iii)
b = c --------- (IV)
$x=0.75 c$--------- (v)
$x+y+z+a+b+c=1220$
---- (VI)
By putting the values in terms of $x$ from all the equations in equation (VI), we get,
$x+120+x+3 x+3 x / 2+x / 0.75$
$+x / 0.75=1220$
$39 x+16 x=1100 \times 6$
$x=120$
Therefore,
$y=120+x=120+120$
$=240$
$z=3 \times 120=360$
$a=3 x / 2=180$
$b=x / 0.75=160$
$b=c=160$

| Post for which <br> students applied | Male <br> students | Female <br> students |
| :--- | :--- | :--- |
| P.O | 120 | 180 |
| S.O | 240 | 160 |
| Clerk | 360 | 160 |
| Total | 720 | 500 |

Required answer $=360+160=520$ 67. Ans. C

Let the male students applied for P.O, S.O and clerk be $x, y$ and $z$ respectively,
In addition, female students applied for P.O, S.O and clerk be a, b and c respectively.
Given conditions are
$z=3 x$--------- (I)
$y=120+x$
$\mathrm{x}: \mathrm{a}=2$ : 3

```
b = c --------- (IV)
\(x=0.75 c\)--------- (v)
\(x+y+z+a+b+c=1220\)-----
---- (VI)
```

By putting the values in terms of $x$ from all the equations in equation (VI), we get,
$x+120+x+3 x+3 x / 2+x / 0.75$
$+x / 0.75=1220$
$39 x+16 x=1100 \times 6$
$x=120$
Therefore,
$y=120+x=120+120$
$=240$
$z=3 \times 120=360$
$\mathrm{a}=3 \mathrm{x} / 2=180$
$\mathrm{b}=\mathrm{x} / 0.75=160$
$\mathrm{b}=\mathrm{c}=160$

| Post for which <br> students applied | Male <br> students | Female <br> students |
| :--- | :--- | :--- |

Required answer $=\frac{360}{360} \times 100=$ 50/9\%
71. Ans. B.

Let the radius of circular field $=\mathrm{r} \mathrm{m}$
Speed of person in $\mathrm{m} / \mathrm{s}=\frac{40}{60}=\frac{2}{3} \mathrm{~m} / \mathrm{s}$ According to the question,
$\frac{2 \pi r}{2 / 3}-\frac{2 \mathrm{r}}{2 / 3}=45 \Rightarrow 3 \pi r-3 r=45$
$\Rightarrow\left(\frac{22}{7}-1\right) r=15$
$\Rightarrow 15 r=105$
$\Rightarrow r=7$
72. Ans. E.

Let quantity of acid and alcohol in mixture $A$ be $7 x$ and $5 x$ litres respectively
On addition of 18 liters of mixture $B$ in mixture $A$ :

Quantity of alcohol added = $\frac{1}{3} \times 18=6$
And quantity of acid added $=18-6$
= 12 L
ATQ,
$\frac{7 x+12}{5 x+6}=\frac{8}{5}$ (Since in final mixture, acid is $160 \%$ of alcohol)
$\Rightarrow 35 x+60=40 x+48$
$\Rightarrow x=\frac{12}{5}=2.4$
Hence volume of acid in mixture $A$ $=7 \times 2.4=16.8 \mathrm{~L}$
Total volume of acid in final mixture $=16.8+12=28.8 \mathrm{~L}$
73. Ans. B.

Let salaries of Anik, Bhuvan and Charlie be $x, y$ and $z$ respectively.
$\therefore \frac{x+y}{x-y}=\frac{9}{2}$
$\Rightarrow 2 x+2 y=9 x-9 y$
$\Rightarrow 7 x=11 y \ldots(1)$
$\Rightarrow x: y=11: 7$
And,
$\frac{y+z}{y-z}=\frac{9}{2}$
$\Rightarrow 2 y+2 z=9 y-9 z$
$\Rightarrow 7 y=11 z$
$\Rightarrow y: z=11: 7$
$\therefore x: y: z=121: 77: 49$
$\therefore$ Salary of Bhuvan =
$\frac{77}{121+77+49} \times 494000$
= Rs. 154000
74. Ans. C.

Milk and water in vessel $A=60$ liters and 40 liters
Milk and water in vessel $B=150$ liters and 120 liters

SBI \& IBPS 2022: A Sure Shot Success batch (Batch 5)

## START FREE TRIAL

Clear All SBI \& IBPS 2022 Exams in First Attempt

When $30 \%$ of mixture is taken out from vessel A
Milk taken out $=30 * 3 / 5=18$ liters
Water taken out= 12 liters
Milk and water in vessel B after $1^{\text {st }}$ procedure
Milk $=150+18=168$ liters
Water $=120+12=132$
New ratio between milk and water in vessel $B=168: 132=42: 33$
Total mixture $=300$ liters
When $50 \%$ percent is taken out from vessel B,
Milk taken out $=150 * 42 / 75=84$ liters
Water taken out=150-84=66 liters Now,
Milk in vessel $A=42+84=126$ liters Water in vessel $A=28+66=94$ liters
Required ratio in vessel $A=$ 126:94=63:47
75. Ans. A.

Total number of characters in the book $=110 \times 32 \times 16=56320$ characters
Number of pages in another notebook $=44$ pages
Number of lines on each page of another notebook $=20$
Let the number of characters in each line of another notebook $=x$
According to the data provided in the question,
$44 \times 20 \times x=56320$
$\Rightarrow \mathrm{x}=64$
Number of characters in each line of another Notebook $=64$

Required Percent $=\frac{64-16}{16} \times 100 \%=$ 48
$16 \times 100=300 \%$
76. Ans. A.

Population of village $\mathrm{A}=$ $\frac{13}{100} \times 120=15.6$ lakhs

Population of A above poverty line
$=15.6 \times \frac{55}{100}=8.58$ lakhs
Population of Village C above poverty line = $120 \times \frac{8}{100} \times \frac{40}{100}=3.84$ lakhs
Required difference $=8.58-3.84$ $=4.74$ lakhs
77. Ans. C.

Total population of village $\mathrm{G}=$ $\frac{9}{30} \times 100=30$ lakhs
$15 \%$ of the total population $=30$ lakhs
So, population of village $\mathrm{E}=$ $\frac{30}{15} \times 18=36$ lakhs
Required difference = $\frac{2}{12} \times 36=6$ lakhs
78. Ans. D.

Male population of village $F$ in 2006 $=\frac{10}{250} \times 100=4$ lakhs
Total population of village F in 2006 $=4 \times 2=8$ lakhs
So, number of people above poverty level in Village $F$ in $2006=$ $8 \times \frac{75}{100}=6$ lakhs
79. Ans. C.

Clear All SBI \& IBPS 2022 Exams in First Attempt

Total population of all the villages $=$ $\frac{99}{(16+17)} \times 100=300$ lakhs
Female population in village $\mathrm{A}=$ $\frac{3}{5} \times \frac{13}{100} \times 300=23.4$ lakhs
Male population in village $\mathrm{C}=$ $\frac{5}{12} \times \frac{8}{100} \times 300=10$ lakhs
Required difference $=23.4-10=$ 13.4 lakhs
80. Ans. D.

Total population of Village $\mathrm{G}=$ $\frac{18}{30} \times 100=60$ lakhs
Total population of all the village $=$ $\frac{60}{15} \times 100=400$ lakhs
Male population of village $E=$ $400 \times \frac{18}{100} \times \frac{7}{12}=42$ lakhs
Female population of village $\mathrm{E}=$ $400 \times \frac{18}{100} \times \frac{5}{12}=30$ lakhs
Required difference $=42-30=12$ lakh
81. Ans. C.

Option A though mentioned previously in the passage is out of context with respect to the question asked. Option B is not mentioned in the passage; also it is a little impractical statement to be passed about the workings of a new and developing country. According to the last paragraph of passage it clearly shows, how countries on the perimeter of the network of global data flow benefits.
82. Ans. E.

The statement C can be found in the start of the passage, similarly Statement D is mentioned towards the end. Proper reading of the passage leads us to the fact that all the statements have been mentioned is the passage.
83. Ans. A.

The author in the passage mainly briefs about the new era of digitilization. Also it is know that the marginal costs of digital communications and transactions are near-zero. Option b is irrelevant. And option C is out of context.
84. Ans. D.

Option A is mentioned previously in the passage. Option B takes as a little off topic. Though it still talks about digitalization it takes a political point of view which over there is irrelevant. Option C also tells us about the disruptive effect of digitalization. Hence both the statement A and C are correct.
85. Ans. D.

Option A talks about innovations. In no angle does the passage focuses on new innovations. Option B sounds like a opening statement but not the theme of the passage. Option C is a little vague. Where else option D precisely describes the central idea of the passage that is digital globalization and developing world.
86. Ans. C.

The meaning is mainstream would be typical; where else marrow is

SBI \& IBPS 2022: A Sure Shot Success batch
used to refer to the core. Kernel is a kind of seed. The closest meaning of periphery - the outer limits or edge of an area or object is Boundary.
87. Ans. E.

Laggard - a person who makes slow progress and falls behind others. Option A and D are synonyms with laggard. Option B refers to someone who litters around. Option E is the correct choice as a workaholic is a person who is addicted to his work which makes it the opposite of laggard.
88. Ans. A.

In the given sentence, only 'unprecedented' make it grammatically as well as contextually correct.
Option A): is the correct alternative among the given choices as 'unprecedented' which means 'never done or known before' fit here both grammatically and contextually because after adjective 'unprecedented' we have the noun 'situation'.
Option B): is incorrect as fertile means (pertaining to soil or land) producing or capable of producing abundant vegetation or crops which does not make any sense here.
Option C): is incorrect as fatal means causing death.
Option D): is incorrect as ruinous means disastrous or destructive which does not fit here contextually. 89. Ans. B.

In the given sentence, only 'commodity' makes it grammatically as well as contextually correct.

Option A): is incorrect because fatigue means 'cause someone to feel exhausted'. It does not fit here both grammatically and contextually, as it is a verb.
Option B): is the correct alternative among the given answer choices. Commodity means 'useful or valuable thing'. It fits here both grammatically and contextually as after article 'a' we need a noun here.
Option C): is incorrect as vigorous means strong, healthy, and full of energy
Option D): is incorrect as exhaustion means a state of extreme physical or mental tiredness which does not fit here contextually.
90. Ans. D.

In the given sentence, only 'trend' make it grammatically as well as contextually correct.
Option A): is incorrect because corrupt means dishonest or fraudulent conduct by those in power, typically involving bribery which does not fit here.
Option B): is incorrect as venerable means accorded a great deal of respect, especially because of age, wisdom, or character which does not make any sense here as it is an adjective. So it does not fit here both grammatically and contextually.
Option C): is incorrect as 'animus' means hostility or ill feeling does not fit here.

SBI \& IBPS 2022: A Sure Shot Success batch
(Batch 5)
Clear All SBI \& IBPS 2022 Exams in First Attempt

[^0]Option D): is the correct alternative among the given answer choices. 'Trend' fits here both grammatically and contextually since it is a noun. 91. Ans. E.

In the given sentence, only 'frantically' makes it grammatically as well as contextually correct as it is an adverb that is followed by verb 'stockpiling'.
Option A): is incorrect because antagonism, which is also a noun, means 'active hostility or opposition'. It does not fit here.
Option B): is incorrect as enmity means 'a state or feeling of active opposition or hostility'. It does not make any sense here.
Option C): is incorrect as 'amity' means 'friendly relations'. It does not fit here.
Option D): is incorrect as puritanical means 'having or displaying a very strict or censorious moral attitude towards self-indulgence or sex'. It does not fit here contextually.
92. Ans. D.

In the given sentence, only 'dwindling' makes it grammatically as well as contextually correct.
Option A): is incorrect because austerity means 'sternness or severity of manner or attitude'. It does not fit here.
Option B): is incorrect as lenient means 'of a punishment or person in authority more merciful or tolerant than expected'. It does not make any sense here.
Option C): is incorrect as 'behest' means a person's orders or
command. It does not fit in the given blank.
Option D): is the correct alternative among the given answer choices as 'dwindling' means 'gradually diminishing in size, amount, or strength'. It fits the given blank both grammatically and contextually
93. Ans. D.

In the given sentence, only 'obsession' makes it grammatically as well as contextually correct.
Option A): is incorrect because irenic which means 'aiming or aimed at peace' does not fit here.
Option B): is incorrect as provocative means 'causing anger or another strong reaction, especially deliberately'. It does not make any sense here also it is an adjective.
Option C): is incorrect as 'dispensation' which means 'exemption from a rule or usual requirement' does not fit here.
Option D): is the correct alternative among the given choices. 'Obsession' which is a noun, means 'the state of being obsessed with someone or something'. It fits here both grammatically and contextually
94. Ans. A.

In the given sentence, only 'dusted off' makes it grammatically as well as contextually correct.
Option A) is the correct alternative among the given answer choices. 'Dusted off' means 'to bring out or back to use again'. It perfectly fits

SBI \& IBPS 2022: A Sure Shot Success batch
in the blank both grammatically and contextually. Since the sentence is in passive voice, we should use past participle form of the verb.
Option B) is incorrect as disparate means 'essentially different in kind; not able to be compared'. It does not make any sense here and it is an adjective but in the blank position we need a verb. So, it gets opted out.
Option C) is incorrect because 'adduce' means 'cite as evidence'.
Option D) is incorrect because 'lineage' means 'direct descent from an ancestor; ancestry or pedigree'. It is both grammatically and contextually wrong.
95. Ans. A.

The passage states that India must seize the opportunity to create safe and healthy workplace. B and A are mandatory pairs as the latter presents the contrast of the former. Note that the sixth sentence is the last statement, which makes it easy to find the fifth statement. (6) mentions that even in countries which have organised data collection systems, accidents and diseases are common. So, the preceding sentence must talk about the existence of diseases where the data collection systems are not organised. Since the different surveys in India show varying data, India can be said to lack an organised data collection system. So, A must precede (6). Thus, the latter part of the sequence is BA6.

Now let us find the first statement. It must majorly introduce the idea of the whole passage. C establishes the subject of the passage i.e. occupational and work-related deaths. E follows C. So the first two sentences are C and E . D and B form a mandatory pair as D talks about available government statistics and B gives out those statistics.
Since the first two sentences are C and E and the last two are B and A , would follow E . So, the correct sequence after rearrangement is CEDBA.
The fifth sentence after rearrangement is A .
96. Ans. C.

In order to find out the statement that precedes the fifth statement, we will have to find out the fifth statement. For this, let us again identify the fifth statement. As discussed in the solution of the first question, the fifth sentence is $A$. It provides details about the scientific research article, which contrasts the statistics of the government. So, a preceding sentence can talk about the same. Option C states, that the government statistics do not cover unregistered mines and factories. So, only (C) can logically precede statement (A).
(A) and (D) talk about "Occupational Safety and Health", which is a separate discussion altogether. (B) can be eliminated as it cannot be contextually linked with the fifth sentence.

SBI \& IBPS 2022: A Sure Shot Success batch
97. Ans. D.

The passage states that India must seize the opportunity to create safe and healthy workplace. B and A are mandatory pairs as the latter presents the contrast of the former. Note that the sixth sentence is the last statement, which makes it easy to find the fifth statement. (6) mentions that even in countries which have organised data collection systems, accidents and diseases are common. So, the preceding sentence must talk about the existence of diseases where the data collection systems are not organised. Since the different surveys in India show varying data, India can be said to lack an organised data collection system. So, A must precede (6). Thus, the latter part of the sequence is BA6. Now let us find the first statement. It must majorly introduce the idea of the whole passage. C establishes the subject of the passage i.e. occupational and work-related deaths. E follows C . So the first two sentences are C and E . D and B form a mandatory pair as $D$ talks about available government statistics and B gives out those statistics.
Since the first two sentences are C and E and the last two are B and A, would follow E . So, the correct sequence after rearrangement is CEDBA.
Hence, B-A make is a mandatory pair.
98. Ans. D.

The passage talks about the diseases that are chronic ailments caused as a result of work or occupational activity. Thus, no other word but occupational will fit in the blank.
99. Ans. A.

The passage states that India must seize the opportunity to create safe and healthy workplace. B and A are mandatory pairs as the latter presents the contrast of the former. Note that the sixth sentence is the last statement, which makes it easy to find the fifth statement. (6) mentions that even in countries which have organised data collection systems, accidents and diseases are common. So, the preceding sentence must talk about the existence of diseases where the data collection systems are not organised. Since the different surveys in India show varying data, India can be said to lack an organised data collection system. So, A must precede (6). Thus, the latter part of the sequence is BA6. Now let us find the first statement. It must majorly introduce the idea of the whole passage. C establishes the subject of the passage i.e. occupational and work-related deaths. E follows C. So the first two sentences are C and E . D and B form a mandatory pair as D talks about available government statistics and B gives out those statistics.
Since the first two sentences are C and $E$ and the last two are $B$ and $A$,

SBI \& IBPS 2022: A Sure Shot Success batch
would follow E. So, the correct sequence after rearrangement is CEDBA.
Thus, the fourth statement after rearrangement is $B$.
100. Ans. E.

There is no grammatical error in the sentence and it is meaningful contextually as well. Thus, option E is the correct answer.
101. Ans. B.

The error in second part of the given sentence, the word 'by' is a preposition which should be replaced with 'to' make it grammatically and contextually correct. Other than this there is no error.
Therefore, option B is the correct answer choice to this question.
102. Ans. C.

The error is in the third part of the sentence, here conjunction is missing which joins group of words showing connection between them. We need to use 'and' between 'Rural development' and 'Panchayati Raj' to link them. This replacement makes the sentence grammatically and contextually correct. Other than this there is no error.
Therefore, option C is the correct answer choice to this question.
103. Ans. D.

When we talking about the gross collection of any movie, we talk about numbers and figures in the form of data interpretation methods (bar graphs, line graphs, etc.). The higher the peak of these graphs, higher is the collection figure. That
is why we say highest grossing and not largest grossing. Hence, the correct answer is D.
104. Ans. C.

Since the sentence is in the past tense (were peaceful), the emboldened part also needs to be in the past tense, with the verb 'resort' changed to 'resorted'.
Thus, option $C$ is the correct answer.
105. Ans. D.

Since the sentence is in the simple past tense (surged), the verb 'hitting' needs to be changed to 'hit' to maintain the tone of the sentence.
Thus, option $D$ is the correct answer.
106. Ans. C.

The error in the emboldened segment lies in the usage of the preposition 'among' to denote a position between two things. 'Between' is used when objects in question are two in number. For numbers greater than two, it is customary to use 'among'. Thus, statement II will be an apt replacement.
So far as statement III is concerned, since 'amidst' essentially means in the middle of something, it is contextually fitting. Thus, option C is the correct answer.
107. Ans. D.

We use "primarily" to express order of importance.
If we consider sentence III to be the base sentence, we can add

SBI \& IBPS 2022: A Sure Shot Success batch
sentence $I$ to it as it is more important than sentence II. Sentence II comes at the end to emphasize on the order.
New Sentence: Indian economy is dependent on the agricultural sector as it primarily earns from agricultural activities than industrial activities.
Hence, option D is the correct answer.
108. Ans. E.

The first sentence talks about a couple travelling on metro. The second sentence describes how the train was.
Although, all three given phrases are related to the topics covered in the sentences, they cannot be used to join the two sentences to produce a single conceptually and grammatically correct sentence.
Hence the correct answer is option E.
109. Ans. A.
'To make a long story short' is to tell something briefly or concisely. As such, the idiom makes contextual sense only in statement I.
In statement II, a more appropriate idiom will be 'on the ball', meaning doing a good job.
In statement III, a more appropriate idiom will be 'go back to the drawing board', which means beginning something all over again. 110. Ans. B.

To 'hang in there' is to not give up on something. As such, the idiom fit statements I and III accurately.

In statement II, a more appropriate idiom will be to 'hit the sack', meaning to go to sleep.
111. Ans. D.

India-China bilateral trade in 2021 increased by $43.31 \%$ year on year to reach US\$ 125.62 billion.
India's exports to China increased by $34.28 \%$ year on year to reach US\$28.03 billion.
India's imports from China witnessed an increase of $46.14 \%$ to reach US $\$ 97.59$ billion.
The trade deficit is US\$ 69.56 billion, increasing by 51.53\% year on year.
112. Ans. E.
