Important News: India

National Family Health Survey (NFHS-5) report

- Union Minister for Health and Family Welfare, Dr. Mansukh Mandaviya released the National Report of the fifth round of **National Family Health Survey (NFHS-5)**.
- He has also released the **Rural Health Statistics publication** for the year 2020-21 (as on 31st March, 2021).

Key results from NFHS-5 National Report-

- India has made significant progress in population control measures in recent times.
- The Total Fertility Rates (TFR), an average number of children per women, has further declined from 2.2 to 2.0 at the national level between NFHS-4 & 5.
- Overall Contraceptive Prevalence Rate (CPR) has increased substantially from 54% to 67% in the country.
- Institutional Births have increased substantially from 79 percent to 89 percent in India. Even in rural areas around 87 percent births are delivered in Institutions and same is 94 percent in urban areas.
- In NFHS-5, more than three-fourths (77%) children age 12-23 months were fully immunized, compared with 62 percent in NFHS-4.
- The level of stunting among children under 5 years has marginally declined from 38 to 36 percent for India since the last four years.
- Stunting is higher among children in rural areas (37%) than urban areas (30%) in 2019-21.
- Between NFHS-4 and NFHS-5, the use of clean cooking fuel (44% to 59%) and improved sanitation facilities (49% to 70%), including a hand-washing facility with soap and water (60% to 78%) have improved considerably.

Sagarmala projects

- Union Minister for Ports, Shipping and Waterways Sarbananda Sonowal chaired the meeting of the **National Sagarmala Apex Committee (NSAC)** at Vigyan Bhawan, in New Delhi.

Key Points

- The Ministry of Ports Shipping and Waterways has formulated a plan under the **Sagarmala Programme** for carrying out “Holistic Development of Coastal Districts”.
- The committee reviewed the Sagarmala program along with review of development of port linked Road and Rail connectivity project, development of Floating jetties and Inland waterways besides other agenda items.
- Holistic development of coastal communities through a new initiative ‘**Sagartat Samriddhi Yojana**’ was also discussed in the meeting.
- The Ministry has identified a total of 567 projects under convergence mode with an estimated cost of Rs. 58,700 Crore.
- With addition of projects identified in Holistic Development of Coastal Districts and new project proposals received under Sagarmala, total number of projects stands at 1537 worth Rs. 6.5 lakh crore.
- There are 802 projects worth Rs. 5.5 lakh Crore under the Sagarmala program targeted to be executed by 2035.

About Sagarmala:

- Sagarmala is a National Programme aimed at accelerating economic development in the country by harnessing the potential of India’s 7,500 km long coastline and 14,500 km of potentially navigable waterways announced by the Prime Minister in 2014 and approved by the Union Cabinet on 25th March 2015.

ISRO plans mission to Venus

- **Indian Space Research Organisation (ISRO)** Chairman S. Somnath said the **Venus mission** has been conceived and a project report made.

Key Points

- After sending missions to the Moon and Mars, the ISRO is now readying a spacecraft to orbit Venus to study what lies below the surface of the solar system's hottest planet, and also unravel the mysteries under the Sulfuric Acid clouds enveloping it.
- The space agency is eyeing the December 2024 window for its launch with orbital maneuvers planned for the following year when earth and Venus would be so aligned that the spacecraft could be put in the neighbouring planet's orbit using a minimum amount of propellant.
- The next similar window would be available in 2031.

About Venus:

- Venus is the second planet from the Sun and is named after the Roman goddess of love and beauty.
- As the brightest natural object in Earth's night sky after the Moon, Venus can cast shadows and can be visible to the naked eye in broad daylight.

- Venus orbits the Sun every 224.7 Earth days.
- Even though Mercury is closer to the Sun, Venus is the hottest planet in our solar system.
- Its thick atmosphere is full of the greenhouse gas carbon dioxide, and it has clouds of sulfuric acid.

Cyclone 'Asani'

- The **India Meteorological Department (IMD)** indicated that **Cyclone 'Asani'**, brewing in the southern Andaman Sea, is on course to become a short-lived cyclone by May 8, 2022 and will make landfall between Visakhapatnam in Andhra Pradesh and Bhubaneswar in Odisha by May 10.

Key Points

- Senior IMD officials have confirmed that the cyclone, as of now, is unlikely to cause major damages to West Bengal.
- There is, however, a possibility of strong winds and heavy rainfall measuring 7-11 centimetres affecting Gangetic West Bengal May 10-13.
- However, "there are many variabilities involved, including a possibility of recurve of the cyclone path towards Bangladesh, which is also set to impact the West Bengal coast more directly".
- **Asani:** If the low-pressure area develops into a cyclone, it will be called Asani, which is a name given by Sri Lankan weather authorities. In Sinhalese, Asani means 'wrath', or 'anger'.
