17A (P17A) Ship

Why in News:

- The foundation stone for the construction of the seventh ship (Y-12654) of the Indian Navy's iconic P17A was formally laid by Rear Admiral GK Harish, Director General, Naval Design (Surface Ship Group) at M/s Mazagon Dock Shipbuilders Limited, Mumbai.

key points:

- Such keel laying is a major activity in shipbuilding, marking the formal start of the warship building process at the building berth.
- Seven warships are being built under the P17A category, out of which four are being built at MDL and three at GRSE with MDL as the lead yard.
- The construction of the P17A ships differs from the concept of battleship building by adopting the modern technology 'Integrated Construction (IC)', where the blocks are prepared before being added to reduce the construction period of the warships.
- The main objective of ship 17A (P17A) is to enhance the firepower of the Indian Navy Fleet.

- The 17A (P17A) warships are being built indigenously in line with self-reliant India and India's 'Make in India' commitment, with 75 per cent of the order of equipment and systems at indigenous firms, including MSMEs, with indigenous material.
