

IBPS RRB Clerk 2022

Solution of 80 Most Important Questions for Prelims

DOWNLOAD PDF

Solutions

1. Ans. (B)

The pattern is:

$$5^3 - 1 = 124$$

$$6^3 - 3 = 213$$

$$7^3 - 5 = 338$$

$$8^3 - 7 = 505$$

$$9^3 - 9 = 720$$

$$10^3 - 11 = 989$$

2. Ans. (C)

$$1 + 4 = 5$$

$$5 + 8 = 13$$

$$13 + 16 = 29$$

$$29 + 32 = 61$$

$$61 + 64 = 125$$

$$125 + 128 = 253$$

3. Ans. (D)

The pattern of the number series is :

$$13 \times 1 + 2 = 15$$

$$15 \times 2 + 3 = 33$$

$$33 \times 3 + 4 = 103$$

$$103 \times 4 + 5 = 417$$

$$417 \times 5 + 6 = 2091$$

So 419 should be replaced by 417 for which

$$103 \times 4 + 5 = 417$$

4. Ans. (A)

$$34 \times 1.5 = 51$$

$$51 \times 2 = 102$$

$$102 \times 2.5 = 255$$

$$255 \times 3 = 765$$

$$765 \times 3.5 = 2677.5$$

5. Ans. (B)

$$2, 3, 5, 9, (17), 33, 65$$

$$+1 +2 +4 +8 +16 +32$$

6. Ans. (A)

The required Average

$$= \frac{664 + 618 + 628 + 552 + 638 + 419}{6}$$

$$= \frac{3519}{6} = 586.5$$

Thus, the Average number of pages printed by all printers in the first week is 586.5.

Hence, option A is correct.

7. Ans. (B)

The required Average

$$= \frac{628 + 519 + 503 + 317 + 598}{5}$$

$$= \frac{2595}{5} = 519$$

Thus, the Average number of pages printed by printer C taking all the weeks together is 519.

Hence, option B is correct.

8. Ans. (E)

$$\begin{aligned} \text{Number of printed pages in first week} &= 664 + 618 + 628 + 552 + 638 + 419 \\ &= 3519 \end{aligned}$$

$$\begin{aligned} \text{Number of printed pages in second week} &= 569 + 441 + 519 + 438 + 621 + 437 \\ &= 3025 \end{aligned}$$

$$\begin{aligned} \text{Number of printed pages in third week} &= 440 + 614 + 503 + 527 + 541 + 742 \\ &= 3367 \end{aligned}$$

$$\begin{aligned} \text{Number of printed pages in fourth week} &= 256 + 563 + 347 + 651 + 412 + 321 \\ &= 2550 \end{aligned}$$

$$\begin{aligned} \text{Number of printed pages in fifth week} &= 717 + 429 + 598 + 582 + 519 + 693 \\ &= 3538 \end{aligned}$$

$$\text{Therefore, } 3538 > 3519 > 3367 > 3025 > 2550$$

Thus,

In fifth week the number of printed pages was maximum, i.e, 3538.

Hence, option E is correct.

9. Ans. (D)

$$\begin{aligned} \text{Number of pages printed by printer A in second week} &= 569 \end{aligned}$$

$$\begin{aligned} \text{Number of pages printed by printer E in second week} &= 621 \end{aligned}$$

Therefore,

$$\text{The required difference} = 621 - 569 = 52$$

Thus, the difference between the pages printed by printers A and E in the second week is 52

Hence, option D is correct.

10. Ans. (B)

$$\begin{aligned} \text{Total pages printed by printers B in all weeks} &= 618 + 519 + 614 + 563 + 429 = 2665 \end{aligned}$$

$$\begin{aligned} \text{Total pages printed by printers C in all weeks} &= 628 + 441 + 503 + 347 + 598 = 2595 \end{aligned}$$

$$\text{Therefore, The required difference} = 2665 - 2595 = 70$$

Thus, the difference between the total pages printed by printers B and C (after weeks taken together) is 70

Hence, option B is correct.

11. Ans. (A)

$$\begin{aligned} \text{Total runs scored by India and Pakistan in Match 4} &= (210 + 340) = 550 \end{aligned}$$

$$\begin{aligned} \text{Total runs scored by Bangladesh in all the five matches} &= (180 + 220 + 280 + 260 + 160) = 1100 \end{aligned}$$

$$\text{Required percentage} = (550 \times 100) / 1100 = 50\%$$

12. Ans. (C)

Difference between the runs scored by Pakistan and Bangladesh in Match-1

$$= (320 - 180) = 140$$

Difference between the runs scored by Pakistan and Bangladesh in Match-2

$$= (480 - 220) = 260$$

Difference between the runs scored by Pakistan and Bangladesh in Match-3

$$= (410-280) = 130$$

Difference between the runs scored by Pakistan and Bangladesh in Match-4

$$= (340-260) = 80$$

Difference between the runs scored by Pakistan and Bangladesh in Match-5

$$= (380-160) = 220$$

Second lowest is in Match-3

13. Ans. (B)

Total runs scored by India and Bangladesh together in Match-1

$$= (420+180) = 600$$

Total runs scored by India and Bangladesh together in Match-2

$$= (280+220) = 500$$

Total runs scored by India and Bangladesh together in Match-3

$$= (320+280) = 600$$

Total runs scored by India and Bangladesh together in Match-4

$$= (210+260) = 470$$

Total runs scored by India and Bangladesh together in Match-5

$$= (240+160) = 400$$

So third highest/ lowest is Match-2

14. Ans. (C)

Total runs scored by India in Match 5 = 240

Total runs scored by Pakistan in Match 1 = 320

Total runs scored by Bangladesh in Match 2 = 220

Required ratio = 240:320:220 = 12:16:11

15. Ans. (A)

Total runs scored by all the three teams in Match 3

$$= (320+410+280) = 1010$$

Average runs scored by all the three teams in Match 3

$$= 1010/3 = 337$$

16. Ans. (C)

$$(445895 \div 89) \div (1618 \div 44.8)$$

$$= 5010 \div (1618 \div 45)$$

$$= 5010 \div 36$$

$$= 139.17 \approx 139$$

17. Ans. (B)

$$1546.25 + 3064.98 \div 15.007 = ? \times \sqrt{25.25}$$

Let,

$$1546.25 \approx 1546, 3064.98 \approx 3065, 15.007 \approx 15, \sqrt{25.25}$$

$$\approx \sqrt{25} = 5$$

$$\Rightarrow 1546 + 3065 \div 15 = ? \times 5$$

$$\Rightarrow 1546 + \frac{3065}{15} = ? \times 5$$

$$\Rightarrow 1546 + 204 = ? \times 5$$

$$\Rightarrow 1750 = ? \times 5$$

$$\Rightarrow ? = \frac{1750}{5} = 350$$

$$\Rightarrow ? = 350$$

Hence option B is the right answer.

18. Ans. (E)

$$? = \frac{1.31}{100} \times 1215 + \frac{0.73}{100} \times 1150$$

$$? = \frac{1}{100} [1.31 \times 1215 + 0.73 \times 1150]$$

$$= \frac{1}{100} [1591.65 + 839.5]$$

$$= \frac{2431.15}{100} \approx 24$$

19. Ans. (A)

$$2136 - \sqrt[3]{?} = 1972$$

$$\sqrt[3]{?} = 1972 - 2136 = 164$$

$$? = (164)^2 = 26896$$

20. Ans. (B)

$$1562 \div 24\% \text{ of } 356 = ?$$

Approximates value can be calculated as

$$\approx 1560 \div 25\% \text{ of } 356$$

$$\approx 1560 \div 89 = 17.52 \approx 18$$

Hence, option (B) is correct.

21. Ans. (D)

$$\frac{3}{5} \times \frac{1125}{1228} \times 7 = ?$$

$$? = 7 \times \frac{3}{5} \times \frac{1125}{1228}$$

$$? \approx 7 \times \frac{225}{409}$$

$$? \approx \frac{1575}{409} \approx 4$$

22. Ans. (D)

$$26 \times 236 \times 4 / 100 = 245.44$$

Approx. value can be ≈ 250

23. Ans. (D)

$$1127 \times 1373 \div 16.5 \text{ of } 3450 + 1250$$

$$\Rightarrow 1127 \times 1373 \div 56925 + 1250$$

$$\Rightarrow 1277$$

24. Ans. (A)

Using approximation

$$5000 * 15 \div 25 + ? = 144 * 25$$

$$3000 + ? = 3600$$

$$? = 600$$

Hence, the correct option is (a).

25. Ans. (C)

$$? = \frac{25}{2} \times \frac{29}{2} + \frac{25}{2}$$

$$? = \frac{25}{2} \times \frac{31}{2} = \frac{775}{4} = 193.75 \approx 194$$

26. Ans. (D)

I. $x^2 + 2x - 195 = 0$
 $(x+15)(x-13) = 0$
 $x = -15, -13$

II. $y^2 + 30y + 225 = 0$
 $(y+15)(y+15) = 0$
 $y = -15, -15$
 $x \geq y$

27. Ans. (C)

I. $2x^2 - 21x + 54 = 0$
 $(x-6)(2x-9) = 0$
 $x = +6, +9/2$

II. $y^2 - 14y + 49 = 0$
 $(y-7)(y-7) = 0$
 $y = +7, +7$
 $y > x$

28. Ans. (D)

I. $12x^2 + 17x + 6 = 0$
 $(3x+2)(4x+3) = 0$
 $x = -2/3, -3/4$

II. $20y^2 + 47y + 24 = 0$
 $(4y+3)(5y+8) = 0$
 $y = -3/4, -8/5$
 $x \geq y$

29. Ans. (B)

I. $36x^2 = 1$
 $x = -1/6, +1/6$

II. $4y^2 + 13y + 3 = 0$
 $(y+3)(4y+1) = 0$
 $y = -3, -1/4$
 $x > y$

30. Ans. (A)

I. $x^2 + 2x + 1 = 0$
 $(x+1)(x+1) = 0$
 $x = -1$

II. $y^2 = 9$
 $y = -3, 3$
 So no relation

31. Ans. (D)

Speed of boat in still water = $(115+120)/2 = 117.5$

32. Ans. (B)

We have,

$$P = \frac{SI \times 100}{T \times R} = \frac{3584 \times 100}{4 \times 7} = Rs. 12800$$

Now,

$$CI = P \left[\left(1 + \frac{R}{100} \right)^T - 1 \right]$$

$$= 12800 \left[\left(1 + \frac{4}{100} \right)^2 - 1 \right]$$

$$= 12800 \left[\left(\frac{26}{25} \right)^2 - 1 \right]$$

$$= 12800 \left(\frac{676}{625} - 1 \right) = \frac{12800 \times 51}{625} = Rs. 1044.48$$

Hence, option B is correct.

33. Ans. (D)

Quantity of Milk in original solution = $\frac{2}{5} \times 120 = 48$

liters and quantity of water = $120 - 48 = 72$ liters

Percentage of milk in new solution = $\frac{48}{120+40} \times 100$
 $= 30\%$

34. Ans. (C)

A : B : C = 12800 : 16800 : 9600 = 16 : 21 : 12

Sum of the ratio term = $16 + 21 + 12 = 49$

Let the total profit be ₹ x. Therefore,

B's share = $\frac{21}{49} \times x = \frac{21x}{49}$

$\frac{21x}{49} = 13125 \Rightarrow x = \frac{13125 \times 49}{21} = 30625$

\therefore C's share = $\frac{12}{49} \times 30625 = 7500$

Thus, the share of Mr C in the profit is ₹7500.

Hence, option C is correct.

35. Ans. (A)

Let 8 years ago,

Shekher's age be x.

Therefore, Vishal's age = 4x

After 8 years,

Shekher's age = x + 16 years

Vishal's age = 4x + 16 years

Therefore,

$4x + 16 = 2(x + 16)$

$4x + 16 = 2x + 32$

$2x = 16$

$x = 8$

Thus, Vishal's present age = $4 \times 8 + 16 = 48$ years

Hence, option A is correct.

36. Ans. (D)

if this is to be solved by conventional method it will be a tedious work,

Traditional method:

Let the CP = X

According to question- $X + X\% \text{ of } X = 75$

$$x + \frac{x^2}{100} = 75 \rightarrow 100x + x^2 = 7500 \rightarrow x^2 + 100x - 7500 = 0$$

On solving this we get

$$x = 50 \text{ and } x = -150$$

BY Options:

a) $70 + 70\% \text{ of } 70 = 119$, b) $55 + 55\% \text{ of } 55 = 85.25$ c)

$60 + 60\% \text{ of } 60 = 96$, d) $50 + 50\% \text{ of } 50 = 75$

37. Ans. (D)

$$\text{Speed of the tractor} = \frac{270}{15} = 18 \text{ km/h}$$

$$\text{Speed of the train} = \frac{13}{3} \times 18 = 78 \text{ km/h}$$

Distance covered by the train in 12 hours

$$= 78 \times 12 = 936 \text{ km}$$

38. Ans. (D)

Let the work be completed in x days

Then ATQ,

$$\frac{x}{18} + \frac{x-3}{36} = 1$$

$$\Rightarrow x = 13 \text{ days}$$

39. Ans. (D)

For being both ball Yellow, the

Required Probability = $6C_2 / (4+6+8)C_2$

$$= \frac{6 \times 5}{2} = \frac{30}{18 \times 17} = \frac{5}{51}$$

40. Ans. (D)

$$\text{Radius of smaller circle} = \frac{132 \times 7}{44} = 21 \text{ m}$$

$$\text{Radius of larger circle} = \frac{176 \times 7}{44} = 28 \text{ m}$$

$$\text{Required difference} = \pi (28)^2 - \pi (21)^2 = 1078$$

41. Ans. (A)

Hence, only (I) conclusion follows.

42. Ans. (B)

43. Ans. (C)

44. Ans. (E)

45. Ans. (E)

Only I and II follow

46. Ans. (B)

$$P \leq Q = R > S > T$$

For conclusion I:

I. $P < T$ (false) no relation between P & T

For conclusion II:

$$Q = R > S > T$$

II. $T < Q$ (true) T is smaller than Q

Hence, only conclusion II follows

47. Ans. (A)

$$L \leq M < N > O = P$$

For conclusion I -

$$N > O = P$$

I. $P < N$ (true)

For conclusion II -

$$M < N > O$$

II. $O < M$ (false)

Hence, only conclusion I follows

48. Ans. (A)

$$J > K \leq L = M < N$$

Conclusions:

I. $K < N$ (true)

$$K \leq L = M$$

II. $K < M$ (false) Here, K is either smaller or equal to M. So, this is not true.

Hence, the only conclusion I follows.

49. Ans. (C)

$P \leq Q = R, T > R = S$

by combining both the statement we get,

$P \leq Q = R = S < T$

For both the conclusion,

$P \leq Q = S < T$

$P \leq S$

I. $P = S$

II. $P < S$

So, both the conclusion make complementary pairs, hence either I or II conclusion follows.

50. Ans. (A)

$P \leq Q = R, T > R = S$

by combining both the statement we get,

$P \leq Q = R = S < T$

For Conclusion I,

$Q < T$

I. $Q < T$ (true)

For conclusion II, we get

$P \leq S$

II. $P < S$ (false)

Hence, only conclusion I follows

51. Ans. (D)

There are 3 such combinations – DF1, MJ3, NP8.

52. Ans. (E)

There are 4 such combinations – V2E, F1U, J32, P8Z.

53. Ans. (C)

There are 2 such combinations – U#, I ©.

54. Ans. (A)

Except PV#, every other combination has a gap of one position between first two letter and gap of two position in last 2 letter in the arrangement.

55. Ans. (A)

Fifth to the left of the fifteen from the right end means - $5 + 15 = 20$ th element from right end which is U.

3 P I V 2 E 9 # D F 1 U # B % 8 J I © W M J 3 2 V @ 5 N P 8 Z

56. Ans. (B)

enjoy	the	places	of	India	neat	and	clean	is	country	enviourment
Pi/ba	Pi/ba	da	ni	ea	ma	ri	la	Ki/sa	Ki/sa	zi

57. Ans. (C)

enjoy	the	places	of	India	neat	and	clean	is	country	enviourment
Pi/ba	Pi/ba	da	ni	ea	ma	ri	la	Ki/sa	Ki/sa	zi

58. Ans. (A)

enjoy	the	places	of	India	neat	and	clean	is	country	enviourment
Pi/ba	Pi/ba	da	ni	ea	ma	ri	la	Ki/sa	Ki/sa	zi

59. Ans. (D)

enjoy	the	places	of	India	neat	and	clean	is	country	enviourment
Pi/ba	Pi/ba	da	ni	ea	ma	ri	la	Ki/sa	Ki/sa	zi

60. Ans. (B)

enjoy	the	places	of	India	neat	and	clean	is	country	enviourment
Pi/ba	Pi/ba	da	ni	ea	ma	ri	la	Ki/sa	Ki/sa	zi

61. Ans. (E)

62. Ans. (C)

63. Ans. (D)

64. Ans. (D)

Facing opposite direction

65. Ans. (B)

66. Ans. (B)

Deepa is sitting at one of the extreme end
The correct sequence is as follows

Person	Abhinav	Chetna	Esha	Gagan	Balram	Furkan	Harshit	Deepa
Direction	North	South	North	South/North	North/South	South	South	South

Sitting direction of Balram and Gagan can't be determined.

67. Ans. (E)

Balram & Gagan sits in the middle

Person	Abhinav	Chetna	Esha	Gagan	Balram	Furkan	Harshit	Deepa
Direction	North	South	North	South/North	North/South	South	South	South

Sitting direction of Balram and Gagan can't be determined.

68. Ans. (E)

Four persons are facing south. We don't have any information regarding Balram and Gagan.

Person	Abhinav	Chetna	Esha	Gagan	Balram	Furkan	Harshit	Deepa
Direction	North	South	North	South/North	North/South	South	South	South

Sitting direction of Balram and Gagan can't be determined.

69. Ans. (B)

Abhinav sits adjacent to Chetna

Person	Abhinav	Chetna	Esha	Gagan	Balram	Furkan	Harshit	Deepa
Direction	North	South	North	South/North	North/South	South	South	South

Sitting direction of Balram and Gagan can't be determined.

70. Ans. (D)

Present Arrangement: Abhinav Chetna Esha Gagan

Balram Furkan Harshit Deepa

Changed Arrangement: Harshit Gagan Furkan Esha

Deepa Chetna Balram Abhinav

None of the positions remain unchanged..

The correct sequence is as follows

Person	Abhinav	Chetna	Esha	Gagan	Balram	Furkan	Harshit	Deepa
Direction	North	South	North	South/North	North/South	South	South	South

Sitting direction of Balram and Gagan can't be determined.

71. Ans. (A)

72. Ans. (D)

73. Ans. (A)

74. Ans. (A)

The distance between Q and S is 2 km

75. Ans. (D)

The distance between M and R is 1 km

76. Ans. (C)

The distance between Q and U is 1 km

77. Ans. (D)

Q > M (20) > L > O(15) > N > P(9)

78. Ans. (B)

Q > M (20) > L > O(15) > N > P(9)

79. Ans. (E)

80. Ans. (E)

MEAT, TEAM, MATE, TAME
